OVERVIEW

PRICE ADJUSTMENT — Trades welcomed, flexible financing available, and presently offered as the most competitively priced Sunseeker 86 on the market. Meticulously maintained and delivered turnkey for immediate cruising, this 2019 Sunseeker 86 Motor Yacht marries meticulous craftsmanship with formidable propulsion. Twin upgraded MTU 12V 2000 engines, each producing 1,950 hp, produce a comfortable 22-knot cruise and can exceed 26 knots at maximum, making her equally suited to long-range passages or elegant entertaining afloat. The generous plan and premium finishes establish a refined ambience throughout.

The main salon is bathed in natural light from expansive windows that showcase warm European oak joinery and sumptuous upholstery. The seating arrangement, spanning port and starboard, accommodates up to ten guests with two large sofas creating an elegant lounging area. A 55" Samsung TV is discreetly stowed on a hi/lo lift within the central partition, which subtly separates the lounge from the dining space. Forward, the dining table offers seating for eight and is complemented by a portside credenza fitted with refrigeration and dedicated stemware storage.

The galley is appointed in Satin Silver Oak with Wenge accents, granite countertops and a full complement of Miele appliances, including a four-burner cooktop, oven, microwave and dishwasher, alongside a large Frigoboat refrigerator/freezer. A side-deck service door facilitates provisioning and guest service, while a drop-down partition affords privacy from the lower helm when desired.

Accommodation comprises four ensuite staterooms plus an additional Pullman berth, sleeping up to nine. The full-beam owner's suite amidships features a king berth, walk-in wardrobe, a private ensuite with a walk-in rain shower, a vanity with stool and a folding Wenge breakfast table. The forward

VIP stateroom offers a queen berth, walk-in closet, Wenge joinery and a 40" Samsung TV. Both port and starboard guest cabins convert to twins and include Pullman berths and ensuite heads, providing flexible arrangements ideal for family use or charter operations.

Aft crew accommodations provide two cabins with over-under berths, a shared head with shower and a dedicated lounge equipped with a washer/dryer, refrigerator and microwave, ensuring clear separation between guest and crew spaces for smooth operation.

Exterior living spaces are arranged for comfort and entertaining. The flybridge is fitted with a carbon-fiber hardtop and retractable canopy, sun lounge and a fully equipped wet bar with BBQ, ice maker, refrigerator, cool box and bar seating. A U-shaped settee with a teak table creates an inviting space for cocktails or al fresco dining, while an additional elegant dining area is positioned aft on the main deck. The hydraulic swim platform, complete with shower, provides effortless access to the water and water toys.

Systems onboard include an advanced navigation and electronics package featuring Simrad chart plotters, radar, GPS and autopilot. Sleipner hydraulic stabilizers with at-anchor mode, bow and stern thrusters and a Separ fuel polishing system further enhance comfort, safety and reliability underway.

This 2019 Sunseeker 86 represents exceptional value in its category, comprehensively equipped to deliver the perfect synthesis of luxury, comfort and performance—an outstanding choice for the discerning motor yacht buyer.

DETAILED DESCRIPTION

Recent services & upgrades

Carefully maintained and enhanced through targeted investments, the yacht has benefited from a series of important upgrades: a Control 4 sound system was installed in 2021, a Yacht Controller added in 2023, and a new watermaker fitted in 2024. In September 2024 the bottom was renewed with fresh paint and Prop Speed and new zincs were installed, followed by replacement of the main engine batteries in October 2024. The programme continued into 2025 with new sliding tender chocks in January, new generator batteries in February, and a full davit service completed in March.

Salon & dining area

European oak flooring and bespoke wall coverings create an atmosphere of understated sophistication, while electric shades modulate light and mood with simple, intuitive control. The layout encourages intimate conversation around cocktail tables and a pair of comfortable armchairs, and onboard entertainment is handled with finesse by a Samsung 55" pop-up TV with hi/lo, a Harmon Kardon Blu Ray/DVD/CD/FM radio and a full surround sound speaker system. Dining is a refined affair at the formal table that accommodates up to eight guests, flanked by elegant walnut end tables, and chilled beverages are kept at the ideal temperature courtesy of a U-Line wine cooler and a U-Line refrigerator.

Galley

Designed to blend refined aesthetics with practical performance, the galley is finished with satin-finished Silver Oak and Wenge cabinetry, set against granite

countertops and warm European Oak flooring, while a large window floods the space with natural light. Culinary appointments are professional in calibre, including a Frigoboat refrigerator/freezer alongside a Miele four-burner cooktop and oven, a Miele microwave and a Miele dishwasher, ensuring every meal service is effortless. A 24-inch TV mounted on the galley bulkhead provides entertainment and information, and direct access to the side deck allows for easy circulation between indoor and outdoor areas. For moments requiring quiet or privacy, a drop-down partition can be deployed to separate the galley from the lower helm.

Master stateroom

Occupying the full beam and set midship, the master stateroom is a tranquil sanctuary anchored by a king berth with generous storage beneath and an upgraded headboard fabric for extra comfort. Expansive side windows flood the cabin with natural light, illuminating the refined European oak flooring, while a vanity desk with mirror and stool provides an elegant dressing area. Mornings can be savored at a folding Wenge breakfast table with companion seating, and a walk-in closet with thirteen drawers keeps belongings precisely arranged. Entertainment is top-tier with a 55-inch Samsung TV supported by Blu-Ray, DVD, CD and FM radio, and the accommodation is completed by a private ensuite head.

Master head

The master head is a spa-inspired retreat, appointed with twin vanity sinks beneath sleek stone countertops, marble floors underfoot, and a window fitted with a shade that preserves privacy while admitting soft natural light, and a large rain shower that provides an indulgent, rejuvenating bathing experience.

VIP stateroom

Positioned forward and accessed by a private stairway, the VIP stateroom features a centerline queen-sized berth with ample under-bed storage, set against rich wenge shelving and built-in cabinets. A tasteful vanity with make-up mirror and stool provides a dedicated dressing nook, complemented by a generous walk-in closet and the warmth of European oak flooring that elevates the suite's refined feel. Entertainment is delivered via a 40-inch Samsung TV with Blu-ray, DVD, CD and FM radio, while an elegant ensuite head with a rain shower adds spa-like comfort. Two windows with shades temper natural light and ensure adjustable privacy.

Guest staterooms, port & starboard

Meticulously designed for both comfort and adaptability, the port and starboard guest staterooms offer twin berths with integrated storage beneath that slide together to form generous double beds, while the port cabin also includes an additional Pullman berth for extra sleeping flexibility. A spacious hanging locker provides generous wardrobe capacity, complemented by European oak underfoot and bespoke wall coverings that lift the suite's aesthetic. Natural light is moderated through a window fitted with a shade to preserve privacy without sacrificing brightness, and onboard entertainment is provided by a 24-inch Samsung TV with Blu Ray, DVD, CD and FM radio. The ensemble is completed by upgraded leather door handles, a subtle detail that reinforces the yacht's impeccable craftsmanship.

Guest heads

Meticulously appointed, the guest heads feature natural stone floors that establish a quietly sophisticated foundation, complemented by stone

countertops that combine lasting beauty with practical durability. A luxurious rain shower creates a spa-inspired retreat after a day on the water, while a window fitted with a shade fills the space with gentle daylight and, at a moment's notice, affords complete privacy.

Pilothouse

A welcoming L shaped settee with an accompanying table defines the pilothouse, directly opposite a galley bar with stools framed by a rich Wenge shutter, forming a refined social center for cruising and conversation. A starboard side door opens straight onto the main deck for effortless flow, the Sleipner stabilizer control panel is placed within easy reach for precise motion adjustment, and a conveniently located day head to starboard adds on passage comfort.

Control is instinctive at the glass bridge helm, centered on three displays—two devoted to navigation and the third for monitoring—and fully equipped with Simrad radar, Simrad GPS, twin Simrad autopilots, Simrad multifunction displays, a Simrad VHF with DSC, Simrad AIS and Simrad Go Free wireless connectivity. A yacht controller provides fingertip authority for low speed maneuvers and confident docking.

Flybridge

Perched at the pinnacle of the yacht, the flybridge is sheltered by a carbon-fiber hardtop with a retractable central canopy and an extending aft sunshade, protecting a finely finished teak deck beneath. Socializing is effortless at the fully appointed wet bar, which houses an ice maker, refrigerator, cool box, barbecue and bar stools, while guests melt into two expansive sunpads, gather around a U-shaped settee with its elegant teak dining table, or take in sweeping views from the observation settee opposite

the helm. A curated audio system fills the space with sound, an aft-facing CCTV camera and stern docking floodlights enhance situational awareness, twin Kahlenberg horns deliver an unmistakable presence on arrival, and a hydraulic crane provides smooth, reliable handling for the tender.

Flybridge helm

Taking its place on the flybridge, the helm delivers effortless control with an elegant, intuitive layout: two Simrad chart plotters with multi-function display capability form the centerpiece of the navigation array, supported by a Simrad autopilot, a dedicated Simrad speed, depth and compass display, and a Simrad VHF with DSC to guarantee clear, dependable communications.

Deck equipment

Rich teak underfoot extends across the foredeck, side decks, aft deck, flybridge and swim platform, imparting a warm, sophisticated ambiance throughout the exterior. Anchoring duties are handled by an 80 kg Lewmar anchor on galvanized chain, operated by a Lewmar V8 windlass and supported by two additional Lewmar winches. A Besenzoni passerelle and a hydraulic lift platform simplify boarding and tender management, while a dedicated fresh water deck wash system serves the swim platform, foredeck and flybridge to keep the exterior pristine. The swim platform itself is equipped with a shower and boarding ladder for seamless access to the sea. The cockpit can be fully enclosed with canvas and Eisinglass windows, and is outfitted with outdoor speakers, a stainless steel sink, a generous U-shaped settee with storage beneath and a teak table mounted on a pedestal, creating an elegant al fresco salon.

Foredeck

The foredeck serves as a private retreat, newly fitted with canvas in 2025 and arranged for effortless alfresco living. A spacious sunpad with an adjustable folding backrest invites unhurried repose, while a sweeping U-shaped settee around a teak table creates an elegant scene for extended convivial afternoons beneath a removable sun canopy. Rich teak lines the foredeck and side decks, providing both warmth and secure footing, and practical touches include a fresh-water outlet and robust ground tackle led by a Lewmar 80 kg anchor with 100 feet of chain operated by a Lewmar V8 windlass for smooth handling. Four outdoor speakers discreetly fill the bow with your chosen soundtrack.

Crew quarters

Designed for both efficiency and refined comfort, the crew quarters feature two cabins outfitted with over/under twin berths, a hanging locker, and a private head with shower. A dedicated crew lounge elevates daily life aboard and is equipped with a Miele washer and dryer, refrigerator, microwave, and a 24" TV accompanied by a Fusion DVD/CD/Radio.

Engine room & mechanical

The yacht is driven by two upgraded MTU 12V 2000 M96L engines, each producing 1,950 hp and showing 1,130 hours as of January 2026, delivering assured performance and effortless passagemaking. Onboard electrical demands are handled by twin 29 kW Onan generators with 1,600 hours as of January 2026, supplying quiet, dependable power whether underway or at anchor. Fuel quality is preserved by a Separ fuel polishing system, while Sleipner hydraulic stabilizers with at-anchor capability, together with Sleipner bow and stern thrusters, ensure superior comfort and precise maneuvering.

Routine service is simplified by an oil change system, a tropical A/C package keeps interiors cool and dry in challenging climates, and a watermaker extends offshore autonomy, all supported by the practicality of a dedicated engine room workbench for organized maintenance and repairs.

Exclusions

For the avoidance of doubt and to preserve the owner's privacy, the sale does not include the owner's personal effects, any and all tools aboard, or the dinghy.
