OVERVIEW

A peerless Leopard 27 offered in the South of France, this Arno-built profile from 1997 emerges after a complete 2023 refit as a refined example of sport cruising, blending performance and luxury in seamless fashion. The twin MTU 2000 M90 engines, presented essentially as new (W6), deliver confident power, while the gearboxes have been fully serviced to match their renewed condition. Complementing the propulsion are two Kohler generators, 22.5 kVA and 27 kVA, with roughly 500 hours of use, and a newly installed air conditioning system that ensures comfort for owner and guests alike. Commercially coded and offered truly turn key, the yacht has already proven a successful charter platform in France, maintained to the highest standards by a professional crew and benefiting from a thorough 2023 overhaul.

Accommodation is arranged across three cabins, with thoughtful layout and finish that suit both private cruising and commercial operation; maneuvering is assisted by a bow thruster, and a Williams 325 tender is included, ready for immediate use. Engines as new, two new generators, gearboxes fully serviced and meticulous upkeep make this Leopard 27 an uncompromising Mediterranean cruiser.

DETAILED DESCRIPTION

Description

The finest Leopard 27 available in the South of France, this 1997 ARNO hull has just completed a comprehensive 2023 refit and is presented in true turn key condition, maintained by a professional crew for effortless handover; engines feel like new following a W6 service and are complemented by two new Kohler generators rated at 22.5 kVA and 27 kVA, each showing 500 hours, with the gearboxes fully serviced for absolute peace of mind, propulsion provided by two MTU 2000 M90 units and a charter ready specification with commercial status already in place for France, while on board three cabins are served by a brand new air conditioning system and a bow thruster adds precision at close quarters, and the yacht is offered inclusive of a Williams 325 tender — an ideal opportunity for anyone seeking a vessel already successful on the French charter market and ready to go from day one.

Features

Electrical confidence begins with a shore power inlet, twin generators and an inverter to ensure hotel grade autonomy at anchor or alongside, while the bridge and entertainment suite blend a depthsounder, radar, log speedometer, radar detector, wind speed and direction instruments, a computer with repeater displays, TV and flat screen TV, a full navigation centre with VCR, plotter, DVD player, autopilot, radio, compass, CD player, GPS, cockpit speakers and VHF, all supported by on board Wi Fi for seamless connectivity; interior amenities elevate every passage with a dishwasher, bow thruster, washing machine, electric and manual bilge pumps, oven and microwave oven, air compressor, marine head and electric head, full air conditioning with heating, hot water, refrigerator, fresh water maker and deep

freezer, a sea water pump and a battery charger to keep systems topped up, and the outdoor areas are framed by teak cockpit and teak sidedecks for alfresco living, complete with cockpit shower, gangway and hydraulic gangway, davits, radar reflector, tender and liferaft, cockpit cushions and table, swimming ladder, Power Pole shallow water anchors, a hydraulic swim step, fin stabilizer and surf system, culminating in a hydraulic bathing platform for effortless access to the sea, while additional touches such as a dance floor, a dedicated office, underwater lights, a full suite of water toys with an intimate cinema and garage to store them, touch and go capability for rapid helideck style operations and true walk around deck circulation transform leisure into memorable experience.

Propulsion

Propulsion is entrusted to MTU m90 engines from 1997, delivering a combined total of 1850 hp with just 200 engine hours, installed inboard on surface drives to maximise efficiency and speed and turning four blade bronze propellers for crisp bite and reliable performance.

Specifications

Cruising speed is 22 kn with a maximum of 30 kn, length overall measures 87.27 ft with a beam of 21.65 ft, dry weight is 176,370 lb and gross tonnage is 70 t; an electric windlass handles ground tackle with ease, and accommodation comprises three guest cabins served by twelve guest heads, plus two crew cabins and three crew heads, harmonising privacy with professional service.
