## OVERVIEW

---

VICKY is a refined expression of the Sanlorenzo SX88, a coveted crossover yacht that attracts owners seeking generous volume, striking presence and practical functionality while remaining under the 30 metre threshold. Her design is distinguished by a generous aft beach club, an open-plan main deck and expansive glazing that together forge a seamless inside-out living experience, complemented by sophisticated Italian interiors and versatile communal areas that prioritise comfort and utility during every cruise. The four-cabin arrangement, broad beam and adaptable flybridge provide flexible accommodation and entertaining options, and the triple Volvo Penta IPS 1050 drivetrain delivers effortless, confidence-inspiring performance ideal for island-hopping, relaxed passages and lively gatherings by the water's edge. # DETAILED DESCRIPTION

---

## Introduction

---

Renowned for its expansive aft beach club, open-plan main deck, generous windows and a seamless indoor-outdoor connection, the SX88 delivers a contemporary yachting experience that pairs explorer-inspired functionality with refined Italian interiors and highly adaptable living spaces. VICKY is a quintessential example of the Sanlorenzo SX88 crossover, a sought-after model for owners who desire volume, elegance and everyday usability in a yacht under 30 metres. Her four-cabin arrangement, triple Volvo IPS 1050 propulsion, broad beam and flexible flybridge layout make her especially well suited to island-style yachting, relaxed cruising, sociable entertaining and prolonged time close to the water. Contact us for further details.

## Key features

---

A Capri-inspired blue and white interior colour palette establishes a breezy, sophisticated ambience throughout, paired with a four-cabin configuration that comfortably sleeps up to eight guests. The open-plan main deck, framed by generous windows, bathes the living spaces in abundant natural light and enhances the seamless indoor-outdoor flow ideal for island cruising and effortless entertaining. Above, a partially enclosed, convertible flybridge provides a flexible social retreat, appointed with a bar, grill, ice-maker, drinks refrigerators, a retractable TV, inviting sofas and sun-lounging chairs. Aft, an expansive beach club and watersports area has been thoughtfully designed with an integrated davit built into the structure for effortless tender handling. Underway, the yacht is propelled by triple Volvo IPS 1050 units, delivering confident, efficient performance.

## Technical specifications

---

Delivered in 2019 by Sanlorenzo, the SX88 VICKY is a refined Motor Yacht / Crossover Yacht measuring 26.70 m (87'8") overall, with a beam of 7.21 m (23'8") and a draft of 1.70 m. She registers approximately 155 GT and is moulded in GRP with a matching GRP superstructure, featuring a semi-displacement hull form. Fuel capacity is 9,300 litres with 2,000 litres of fresh water on board. Accommodation is arranged for eight guests across four well-appointed cabins, attended by a crew of three. Her economical range is estimated at around 1,000 nm at 12 knots (to be confirmed).

Propulsion is provided by three Volvo Penta IPS 1050 units, D13B model, each delivering 800 HP and driving through IPS pod drives on diesel, with recorded engine hours of 1000h (to be confirmed). This triple IPS installation offers an engaging blend of efficiency and responsiveness, yielding a cruising speed of approximately 18 knots and a top speed near 23 knots, together ensuring excellent manoeuvrability and precise handling for a vessel of this size.

## Interiors

---

Inside VICKY the interior volumes are luminous, spacious and supremely practical, expressing contemporary Sanlorenzo styling interpreted through the refined design language of Lissoni & Partners, led by Piero Lissoni. Specified by her first owner in a Capri inspired blue and white palette, the décor evokes a light, relaxed Mediterranean mood that sits perfectly with the SX88's open plan geometry, expansive glazing and the effortless continuity it creates between inside and out.

The main deck is conceived as a flowing, uninterrupted living area in which a generous main salon transitions naturally into an indoor dining and lounge space. Large windows pour abundant daylight into these rooms, heightening the sense of volume and framing panoramic seascapes, while selected wood,

fabric and stone finishes enrich the tactile and visual quality throughout. The result is a composed, sociable interior environment equally well suited to intimate family cruising or elegant entertaining.

Accommodation is configured for up to eight guests in four cabins, with separate crew quarters provided to preserve privacy and ensure attentive, discreet service.

## Equipment

---

A sophisticated navigation ensemble equips this yacht for confident long-distance voyaging, incorporating radar, GPS/chartplotter, autopilot, VHF radio, AIS, compass and depth sounder, with dedicated navigation displays positioned at both the main helm and the flybridge/upper helm. Volvo engine monitoring displays present vital performance metrics with clarity, while the triple Volvo Penta IPS propulsion package—complete with IPS pod drives—and Volvo IPS joystick controls deliver intuitive, pinpoint maneuverability.

The electrical architecture has been designed for dependable operation and onboard comfort: shore power connection plugs feed an electrical distribution panel supported by a robust battery charger system, with a generator installation featuring two Kohler 25 kW generators and integrated 220 V/230 V AC and 24 V DC networks. Climate and atmosphere are maintained by a full air-conditioning system, enhanced interior and exterior lighting and striking underwater lighting. Hospitality is served by a high-quality audio/visual entertainment system and well-appointed galley appliances, further augmented by a wine cooler and an icemaker.

Mechanical arrangements are equally refined, anchored by the triple Volvo Penta IPS propulsion and the dedicated stabilisation system that ensures a composed, comfortable ride. Endurance at sea is extended with a watermaker, while the flybridge benefits from a hard top with an electric opening for variable shade and ventilation. Practical safety and operational systems

include an additional air-conditioning presence within the mechanical spaces, a comprehensive bilge pump system, fresh water and black water systems, a fire suppression system, thorough engine room ventilation and a precise steering system.

## Accommodations

---

Meticulously arranged to emphasize comfort and seclusion, the yacht accommodates up to eight guests within four en suite staterooms — an Owner's suite, a VIP stateroom and two guest cabins — each with its own bathroom, totaling four en suite facilities, creating an elegant, self contained retreat perfectly suited to private family cruising, refined entertaining and extended stays aboard.

Separate crew quarters for three are discreetly located away from the guest areas, with a dedicated crew space and their own shower and toilet, providing clear operational separation and ensuring unobtrusive, professional service throughout every voyage.

## Exteriors

---

Vicky's aft is dominated by an expansive beach club stern, where a broad teak-laid platform sits mere inches above the waterline, softening the transition between vessel and sea. This generous aft beach club and watersports bay provides simple, direct access to the water and is arranged for effortless tender handling and active water pursuits, with an integrated davit incorporated into the yacht's aft structure and framing at the beach club. The cockpit and aft deck extend organically from the saloon to form a fluid indoor-outdoor environment for al fresco dining and relaxation, appointed with bespoke cockpit lounging furniture and plush sunbathing cushions across the exterior spaces.

Progressing forward, a partially enclosed, convertible flybridge serves as the social epicenter of the yacht, artfully combining open-air freedom with protected comfort. Uninterrupted panoramic vistas surround a carefully designed layout of modular seating, generous flybridge sofas and dedicated sun-lounging chairs, while a fully equipped flybridge bar and grill—complete with an ice-maker and refrigerated drink storage—ensures hospitality is always at hand. A retractable flybridge television provides entertainment as required, and purposely designed furniture covers keep the area immaculate and ready for immediate enjoyment.

At the bow, a secluded foredeck lounge featuring a capacious sunpad creates an intimate sanctuary removed from the main deck's conviviality, perfect for quiet repose at anchor. As evening falls, underwater lighting enhances the scene, casting a refined, luminous halo that highlights the yacht's elegance on the water.

## Galley

---

Designed to make life aboard effortless while delivering discreet, polished service, the galley is appointed with a smooth-surface cooktop/hob complemented by a dedicated oven and a versatile microwave/combo oven. Cold storage is comprehensive, including a full-height refrigerator, a separate freezer, a wine cooler and an icemaker, while food preparation and presentation are supported by generous work surfaces and abundant storage cabinets that neatly stow provisions and tableware. A dishwasher and a deep sink fitted with a mixer tap simplify cleanup, and effective galley extraction/ventilation keeps the space fresh and comfortable. Thoughtful layout and a separate crew service access ensure seamless hospitality, providing ample preparation area, refrigeration, storage and appliances to accommodate both private cruising and attentive guest service.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.
