OVERVIEW

Azimut Grande 27 Metri

Step aboard the Azimut Grande 27 Metri, a 27 metre exemplar of Italian artistry completed in 2023 and launched as a 2024 model. This flybridge motor yacht pairs elegant lines with serious performance, her GRP and carbon fiber construction lending both stiffness and lightness so the hull responds with assured poise. Twin MAN V12 engines push her to a stirring 28 knots, supported by generous fuel reserves of 9500 l for extended passages and a displacement of 93 t that speaks to her secure seakeeping.

Her interior and deck spaces are arranged for sophisticated conviviality: five lavish guest cabins plus two crew cabins accommodate up to 13 guests and crew with ease, while the expansive flybridge—sheltered by an electric awning—invites sunlit relaxation and al fresco dining beside a built-in barbecue. Navigation and safety are governed by the SIMRAD Gold Package and monitored with Panasonic IP cameras, and underway comfort is enhanced by active stabilizing fins, a 30 kW stern thruster for precise handling, and a 180 l/h water maker for autonomy. The planing hull, beam of 6.95 m and draft of 1.93 m combine to deliver both speed and stability, and freshwater capacity of 2000 l ensures long range comfort.

More than a boat, the Azimut Grande 27 Metri is a statement of modern yachting, inviting exploration in refined silence and assured power.

DETAILED DESCRIPTION

Specifications

Defined by an LOA of 26.78 m and a commanding 6.95 m beam, this yacht draws just 1.93 m yet carries a confident 93 t displacement, a balance of presence and seaworthy proportions that announces capability at a glance. The build marries GRP and carbon fiber for strength and efficiency, while generous tankage—9500 l of fuel and 2000 l of fresh water—supports extended cruising with poise and autonomy.

Performance

Propelled by twin MAN R V12 1900 hp engines, she reaches a 28 kn top speed and settles into an effortless 24 kn cruising speed, blending vigor with refined smoothness underway and offering both exhilarating bursts and economical, composed passages for longer legs.

Accommodation

Thoughtfully planned accommodation delivers 5 + 2 cabins, 10 + 3 berths, and 5 + 2 head compartments, balancing private comfort with practical efficiency for life on board and ensuring flexible arrangements for owners, guests and crew without compromising on style or privacy.

Main systems

Confident handling and autonomy come from stabilizing fins, a powerful 30 kW stern thruster, full air conditioning throughout, and a water maker rated at 180 l/h, a suite of systems chosen to maximise comfort underway and at anchor

while simplifying manoeuvres and onboard life.

Exterior

Signature detailing defines the open-air experience: a backlit 27METRI logo and a sleek hardtop on the flybridge set the tone, while the cockpit welcomes with three CASSINA chairs, dimmer-controlled lighting on cockpit and fly, an electric cockpit awning, a flagpole, and a protective garage door cover. Forward, teak elevates the bow sunbathing area and bow table, complemented by a sunshade sail on the bow with removable carbon fiber poles, and the fly is likewise finished in teak with three teak stools serving the flybridge bar furniture. Entertaining and operations are seamless with a hauling-launching system for the tender (Williams 445DJ), BATYLINE exterior cushions, and a liferaft for eight people, while ambience is enhanced by four underwater lights at the stern area (two transom and one at each side corner). Practicality is assured with mesh covers for the main deck side windows and water outlets for deck washing on the bow, fly and stern, all articulated to maximise comfort and ease under sun and stars.

Interior

Inside, the captain's cabin gains an additional bunkbed, while the master suite is refined with a desk-vanity and stool, an extra-sized master bed, a safe, and manual black-out rollers; the same manual black-out rollers also equip the guest and VIP cabins. Everyday ease is enriched by mosquito nets for portholes, a bar rounded salon coffee table, and warm wooden flooring throughout the dining area, the foyer area, and the helm station area, creating an onboard environment that is both luxurious and meticulously livable.

Appliances

Al fresco moments are effortless with a flybridge barbecue grill and an icemaker within the flybridge bar furniture, while a refrigerator serves the cockpit furniture. In the pantry and galley, a microwave oven pairs with premium Miele appliances—a 90 cm cooking top, oven, and extraction hood—and cold storage is expanded by two MaBe French Door refrigerators in the galley. Crew convenience is elevated by separate washer and dryer units in the crew cabin, and a SIEMENS wine cooler graces the pantry area, assembling a culinary and service specification ready for both casual days and formal entertaining.

Video - TV - hi-fi

Entertainment comes curated with the Audio/Video 2 – Gold specification, delivering a polished, ready-to-enjoy onboard media experience that complements the yacht's refined ambience and supports both intimate movie evenings and lively gatherings.

Electronics

Situational awareness and connectivity are assured by four Panasonic IP cams—one on the fly, one in the cockpit, and two in the engine room—augmented by AIS (SIMRAD) and the SIMRAD Gold Package, while on board Wi-Fi keeps the yacht seamlessly connected for navigation, communication and guest convenience.

Extras

Thoughtful upgrades elevate every moment: three water heaters (120 l/h) and

a protective cover for the flybridge bar, a 126 kg anodized steel anchor with 14 mm chain, and LAN connections both next to the vanity in the master cabin and inside the garage. Hosting is effortless with two sets of pottery, E BREEZE TECMA WC fitted in five heads, and an aft flybridge awning with carbon poles. The saloon exudes sophistication with SALVAGNI armchairs on swiveling bases and a custom saloon sofa, while dining is staged with twelve TIEMOLO dining chairs and a cockpit table with extensions. Comfort extends outdoors with side shades in the cockpit area and a beach area shade with carbon poles, plus a footrest and two additional speakers in the beach area. Wellness and training are enabled by predisposition for TRX on the fly and predisposition for a traction bar on the fly, and restful nights are enhanced by a double bed with a filler cushion in the aft starboard VIP cabin.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
