## OVERVIEW

---

CLOUD 9 epitomizes the Azimut Grande 27M, an 88-foot luxury motor yacht that fuses contemporary Italian design, expansive interior volume and spirited performance. Constructed with Azimut's advanced carbon fiber and GRP composites, she offers the spaciousness and refinement of a much larger yacht while retaining exceptional stability and fuel efficiency. Her striking profile—defined by assertive lines, a vertical stem and dramatic floor-to-ceiling glazing—conveys a modern and authoritative presence on the water, while a five-stateroom layout delivers sumptuous accommodation perfectly suited to family cruising or exclusive charter operations. Driven by twin 1,900 hp MAN V12s, CLOUD 9 settles effortlessly into a 19-knot cruising pace, and she has benefited from a major technical refit completed in June 2025 that notably includes new main engines covered by warranty through June 2027. Interiors have been refreshed, the navigation suite modernized, exterior upholstery replaced and connectivity enhanced with Starlink and KVH, alongside a fully serviced engine room and extensive recent works throughout the vessel. Presented in turnkey condition, CLOUD 9 is a planing superyacht ready for immediate enjoyment.

# DETAILED DESCRIPTION

---

## Recent work

---

The yacht received a comprehensive mechanical renewal beginning with the installation and commissioning of new MAN V12 engines in June 2025, which are supported by a full two year warranty through June 2027 and an option to extend coverage for an additional three years. The engine installation included new motor mounts and all new engine hoses, while the engine room itself is air conditioned for optimal operating conditions. The propulsion package was further refined with rebuilt risers and the fitment of a new Vulkan coupling on the port engine.

A broad array of systems and comforts have likewise been upgraded to modern standards. Security and electronics enhancements include a new GOST security system, fresh exterior cushions, complete Simrad navigation equipment at both helm stations, new Starlink and KVH track vision UHD 7 installations, and a 2024 version Naviop vessel monitoring system, complemented by a new FLIR night vision camera and newly installed underwater lights. Maneuvering and electrical systems were renewed with a new bow thruster fitted in September 2024, a new ANG shore power converter model SPCT M5, serviced hydraulics, serviced aft deck winches, serviced generators, a rebuilt anchor windlass, upgraded anchors and chains, new cutlass bearings, a new black water pump, and fresh bottom paint with PropSpeed. On deck and inside the yacht, owner comforts have been refreshed as well, including a new electric BBQ grill, a new Bimini shade motor, new windshield wiper motors, new carpet, a refinished galley floor and companionway steps, new caulking, a flushed and serviced A/C system, a serviced watermaker with a rebuilt pump, and new batteries.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
