# DETAILED DESCRIPTION

---

## Overview

---

KAR is a 2021 Riva 88 Folgore that fuses striking Italian design, formidable performance and effortless luxury, arriving as a yacht that makes an immediate, unforgettable statement. Her stability at anchor is assured by zero speed stabilizers, while a sunlit salon offers dining for ten and flows seamlessly into an exterior programme that includes aft deck dining for eight, a capacious flybridge and an inviting foredeck for lounging. Inside, four ensuite staterooms include a full beam owner's suite with a king bed and a walk in wardrobe, and service is delivered discreetly from a well situated galley and efficient crew quarters. Professionally maintained and commercially compliant with a strong track record, KAR received a full paint in 2024 and presents as elegant, powerful and meticulously crafted, delivering versatile performance that is equally at home sprinting at high speed or cruising economically at lower speeds. A thoughtfully modified garage accommodates a full size jetski alongside the tender, completing an exceptional yachting experience that balances style, speed and practical functionality.

## Systems

---

Performance is driven by two MTU engines rated at 2638 hp each, installed as an upgraded package fully compliant with EPA Tier III; climate comfort is enhanced by a Super Tropical air conditioning upgrade and gyro stabilisation is provided by a Seakeeper NG26 with 1039 hours. Precise low speed handling is managed by hydraulic bow and stern thrusters by Xenta, and electrical autonomy is delivered by upgraded twin ONAN generators, each 27 kW, with the main generator logged at 549 hours and the auxiliary at 550 hours alongside dedicated generator battery chargers. Freshwater independence is

improved by a 180 l/h watermaker with remote control, recorded at 160 hours, ensuring long range comfort and self sufficiency.

## Navigation, comms, AV & helm station

---

At the main bridge an upgraded Simrad navigation array spans three 19 inch displays, mirrored on the flybridge by an upgraded two 16 inch Simrad setup to give consistent situational awareness across both helm positions.

Connectivity is modern and robust with a 5G internet connection powering Kartina TV and an AIS Class A system for enhanced traffic awareness. The helm benefits from a glass partition, a pilot seat with electrical hi lo adjustment and seats upholstered in Italvipla black fabric, creating a refined control environment. Entertainment is anchored by a KVH TV6 satellite antenna with a matching empty dome for symmetry and two decoders serving the salon and master, the salon enjoying a custom upgraded 55 inch TV and the master likewise upgraded to 55 inches; guest entertainment includes a 50 inch stainless steel finished TV in the port guest cabin and a 24 inch stainless steel finished TV in the starboard guest cabin, with decoders installed in all guest cabins. Premium exterior audio by Sonance provides HQ loudspeakers and automatic independent AirPlay zones for the foredeck, cockpit and flybridge — an upgrade that elevates every open air moment and ensures high quality sound whether underway or at anchor.

## External

---

The yacht's presence is heightened by two white underwater lights on the transom and white underwater lights along the hull sides, five on each side, creating a dramatic nighttime silhouette. Side cleats are protected with stainless steel fittings and mooring is simplified by two additional stern cleats. A closing hatch secures the staircase to the flybridge, while custom outdoor

covers in matching colours protect every contour and finish. External fixed furniture cushions are upgraded in Levate Fossil fabric and complemented by generous additional throw pillows — six to eight pieces in each area across the cockpit, foredeck and flybridge — each designed with extra internal weight to remain comfortably in place even on open water.

## Foredeck, fly & aft cockpit

---

On the foredeck GRP preparation is in place for a manual bimini with carbon fibre poles, accompanied by a hot and cold hand shower, and an identical hot and cold hand shower is fitted aft for convenience. Ground tackle has been upgraded to a 130 m galvanized steel anchor chain for secure holding. The aft cockpit centres on an electric high top raw teak table treated against stains and marks and may be specified with optional bar furniture that includes one fridge, one storage unit with shelves and drawer and a Corian countertop for service ready hospitality. Comfort and flexibility continue with three Dedon Seax folding chairs complete with covers and a portside storage cabinet illuminated by a sensor activated internal shelf light; the cockpit also has GRP preparation for a manual bimini with carbon fibre poles. Standard portside furniture in two pieces is finished with an additional Corian Linen countertop, a flybridge fridge chiller drawer keeps refreshments to hand, the ottoman table is upholstered to match the external fixed cushions, and the dinette's C shaped sofa serves an electric high top table in untreated wood protected by a specialised treatment for durability.

## Internal

---

Every cabin is dressed with bedheads and bedsurrounds in Sole leather Tobacco C31 and ambient lighting extends throughout with dimmers for internal and external circuits, excluding crew quarters, technical areas,

navigation, service and courtesy lights, bathrooms and the galley. The custom interior timber is finished in Safari Sand Oak with a ten percent matt lacquer, while salon, dining area, lower deck lobby and cabins are upgraded with Tisca Outdoor four colour 5301 carpet. The dining area houses a wine cellar, and the two guest cabins gain extra storage cabinets while both the master and VIP cabins add capacity through custom storage beds; in the port guest cabin a manual sliding mechanism converts twin beds into a double. Salon and lower deck cabin doors are upholstered in Sole leather colour C31 Tobacco. Connectivity is thoughtful, with a total of thirteen USB points — two in each cabin, two in the salon and one at the helm — and window treatments include Roman curtains in the salon, dining and cabins in Zimmer & Rhode Skylight 991 fabric while bathrooms and the galley feature aluminium Venetian blinds B160 Black. Wardrobe arrangements are tailored: the port guest cabin receives hanging drawers, the starboard guest cabin gains a drawers and shelves configuration as an upgrade, and the master's wardrobes are re-specified with the portside omitting hanging shelves and adding three drawers while the starboard provides hanging space with two drawers. VIP cabin bathrooms add a shower compartment hand shower with holder; guest cabins retain standard fumè mirrors and guest bathrooms are finished in Corian DuPont Dune Prima. The salon features a Poliform sofa upholstered in Lizzo Holistic Origin 07 with three fifty by fifty centimetre throw pillows in the same fabric and six forty by forty centimetre outdoor pillows. Coffee tables are upgraded to one Minotti Solid in matt black oak with drawer plus one matching Minotti Solid, while dining chairs are upgraded to eight Flexform Isabel without armrests and two Flexform Isabel with armrests in Sole leather 5007 Flexform White with dark stitching to complement the dining table's smoked glass top; the custom dining table measures 2400 mm by 1000 mm with a fume/smoked coloured glass top. Acoustic comfort is significantly improved by an upgraded yacht wide insulation and sound proofing package that replaces the standard carpet underlay with a dedicated sound proofing underlay.

## Master stateroom layout "A"

---

The master bathroom is refined with a larger washbasin and a shower upgraded in Corian DuPont Dune Prima, accompanied by a Planus Relax WC/bidet paired with a Geberit Tuma multi function seat WC for elevated hygiene and comfort. The master lounge area offers a Poliform Stanford armchair in Sole leather with an additional Lizzo Holistic Origin 07 throw pillow by Poliform and a coffee table in a dark matt finish, while flooring is enhanced with an upgraded edging in Corian DuPont Dune Prima. A frosted black/smoked mirror forms the partition between cabin and bathroom, and the vanity retains its standard seat complemented by an additional cushion in Lizzo, creating a private suite that balances luxurious materials with thoughtful functionality.

## Galley, crew, garage & misc equipment

---

Gourmet capability is delivered by a Nespresso Creatista Plus Metal coffee machine and a suite of 90 cm galley appliances including an upgraded oven, cooking plate and extractor; cold storage is provided by a custom side by side HAIER 5 Porte HFF 750CGBJ upgrade and a 90 cm Miele oven with steam function. The sink is larger than standard and original Corian floor and countertop have been replaced with Corian DuPont Limestone Prima for durability and refinement. Crew facilities are improved with an additional Simrad monitor/repeater, an added top cabinet above the table, and a redesigned crew table with new top and a storage cabinet with doors beneath, plus a separate washing machine and dryer to complete the service suite. The yacht is delivered with buyer supplied custom cutlery, glassware and plates as well as bespoke cabin bedlinen, pillows, bedcovers and throw pillows. Shore power convenience and watersports readiness are enhanced by an additional 220 V socket for Seabob recharge and a spread of extra sockets:

internally two in crew quarters, two in the galley and three at the helm; externally two in the aft cockpit, two on the foredeck and six on the flybridge. Mosquito nets protect all portholes. The garage is prepared with installation of two Seabob racks, a spare pair of propellers (not housed for the upgraded engines) and a tender launching system configured for the Williams Tender 395 SportJet.

## Tender & jetski

---

The tender is a Williams 395 SportJet powered to 90 hp, complemented by a Yamaha VX Cruiser HO jetski, together offering rapid, sporty options for short excursions and watersports, easily launched from the modified garage and launch systems.

## Recent works & upgrades

---

Recent works focus on practical enhancements and system renewals: in the garage the channel system has been updated with inspection caps, jetski launching and hauling have been custom configured, a dedicated jetski launching winch has been installed and a 220 V line added. In engineering a crystal wash softener has been fitted; battery and charger services were renewed in 2024 with engine and charger batteries replaced in 2024 and generator batteries replaced in 2025. Cooling bitter pumps and ducts were installed and a range of pumps — air conditioning, grey water and black water — received scheduled maintenance in 2024 and 2025. Instrumentation upgrades include installation of GMDSS equipment with its respective batteries and a dedicated battery charger, ensuring modern compliance and enhanced safety.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.

For more information and to view available yachts, you can visit the company's official website: <https://shestakovyachtsales.com>
