OVERVIEW

An artful synthesis of Italian styling and Gulf-capable performance, this 2013, 88-foot luxury motor yacht marries striking form with purposeful function. Conceived by Stefano Righini, her clean, contemporary lines read as both timeless and intentional, while expansive glazing and panoramic windows flood the interiors with natural light, enhancing the sense of space and the ever-present connection to the sea.

Constructed in hand-laid GRP (fiberglass composite) as a sleek monohull, she offers the quiet assurance and efficiency experienced yachtsmen expect. Twin Caterpillar diesels propel her at a spirited 24-knot cruising speed with exhilarating top speeds up to 29 knots, making short, swift passages between marinas and anchorages effortless. A generous 21-foot beam provides exceptional volume for an 88-footer, and a draft of around 6 feet allows access to shallow bays and boutique harbors that many vessels of this class cannot reach. Her tanks support extended outings, with approximately 2,774 gallons of fuel and 343 gallons of freshwater on board.

Inside, the salon is a serene, light-filled refuge crafted for elegant entertaining and relaxed family life. Righini's signature balance of refined textures and clean geometry shapes social spaces that flow into one another—thoughtful lounges and a formal dining area framed by large windows that keep the seascape in view. Below decks, the accommodation arrangement is devoted to restorative comfort: a sophisticated owner's suite and beautifully appointed guest staterooms offer private retreats finished with tasteful detailing and a calm ambiance.

Outdoor living is equally beguiling. A spacious foredeck invites long, sunlit lounging, the aft deck is tailored for alfresco dining whether at anchor or in port, and a broad swim platform turns the water into an immediate extension of the yacht—ideal for easy swims and tender arrivals. Fiberglass decks deliver

low-maintenance practicality without sacrificing elegance, keeping every surface both inviting and durable.

From the helm, visibility is excellent, making close-quarters maneuvering intuitive, while the Caterpillar powerplants are synonymous with reliability and refined performance. Equally suited to private family cruising or a polished charter program, this superyacht-class 88-footer stands out for confident handling, gracious proportions, and unmistakable Italian flair. Located in the United Arab Emirates and perfectly matched to warm-water cruising, she is the consummate luxury motor yacht — an accomplished performer with the heart of a grand tourer and the soul of a serene coastal retreat. Ideal categories: luxury motor yacht, superyacht, performance cruiser, GRP monohull, Mediterranean/Gulf cruiser, Caterpillar-powered, private or charter-ready.
