OVERVIEW

2024 Sanlorenzo SX88 – M/Y NANCE

M/Y NANCE is a superbly specified 2024 Sanlorenzo SX88 that marries classic Italian craftsmanship with contemporary, forward-thinking lines to create an intimate but luxurious platform for life on the water. The yacht's design emphasizes seamless indoor-outdoor living, with a panoramic main-deck salon set behind sweeping glass, an expansive flybridge and a generous beach club that together foster effortless entertaining and relaxed cruising.

Her propulsion comes from triple Volvo Penta IPS 1050s, delivering confident performance, notable efficiency and highly responsive joystick maneuvering that make docking and close-quarters handling intuitive. Built with a host of factory enhancements, NANCE benefits from a bespoke interior and exterior décor package, upgraded navigation electronics and electric stabilizers; she is US Duty Paid and available for immediate delivery.

On the bridge NANCE is fitted with a Garmin Diamond navigation suite integrated into a glass-bridge dashboard that includes a third helm display, while Volvo IPS joystick control is provided at a secondary cockpit station for precise shore-side handling. Comfort systems are substantial: electric stabilizers and a tropicalized 144,000 BTU climate system ensure a steady, comfortable ride, and hotel services are supported by two Kohler 32 kW generators and an upgraded 150 liter water heater. The enhanced audiovisual specification harmonizes with Sub Zero refrigeration and freezer upgrades, a Miele wine cooler in the dining area and an upgraded Miele galley oven, augmented for al fresco entertaining by a flybridge ice maker and Kenyon BBQ. Practical crew amenities include an extra refrigerator and microwave, an ASKO washer and dryer and predisposition for an additional crew monitoring touchscreen, while CCTV coverage of the cockpit and engine room, KVH satellite antenna preparation, interior and exterior dimmer packages, and a

preparation for a backlit transom name are among the finishing touches that reinforce her superyacht caliber presence. With a comprehensive equipment inventory, a versatile layout and unmistakable Sanlorenzo styling, M/Y NANCE is exceptionally well-equipped and ready for her next discerning owner.

DETAILED DESCRIPTION

2024 SX88

M/Y NANCE is a meticulously finished 2024 Sanlorenzo SX88 that artfully blends contemporary Italian styling with voluminous living areas and an inventive relationship to the water, offering the onboard comfort and space associated with larger motor yachts while retaining the nimble versatility that defines the SX line. Delivered in the Americas Edition configuration and sold US Duty Paid, she arrives with one thousand engine hours and immediate availability, presenting a rare opportunity to acquire a fully optioned SX88 without the lead time of a new build. Navigation benefits from a Garmin Diamond package upgraded from the standard Silver specification, a fully integrated Garmin dashboard with an added third helm display and a VHF radio programmed for US channels, while low speed precision is assured by a secondary Volvo IPS joystick maneuvering station located in the cockpit; additional electrical conduits routed between the engine room, pilothouse, flybridge helm station and hardtop ensure straightforward future electronics integration. Mechanical systems inspire confidence with electric stabilizers, twin Kohler 32 kW generators, an upgraded 150 liter water heater, dual fuel filters for the generators, provisioning for a watermaker installation, a black/grey water pump bypass, FM200 fire suppression system equipment and PropSpeed antifouling treatment applied to both pods and propellers. The Americas Edition 110/220V electrical architecture is robustly specified with dual Iso Boost transformers, twin 220V AC 100A shore power connections and a Glendenning Cablemaster CM8, augmented by interior and exterior lighting dimmer packages, preparation for a backlit yacht name, an extra 110V GFCI outlet in the beach area, a galvanic isolator and a dedicated 24V master switch for navigation electronics. Climate control is tropicalized and engineered for

serious cruising, delivering 144,000 BTU/hr of air conditioning from twin chillers with upgraded chilled water pipe insulation, both circulation and seawater pump bypasses, and air conditioning condensation drainage routed overboard. A comprehensive custom interior and exterior décor package and an enhanced audiovisual suite marry style with practicality, while stainless steel protection wraps the swim platform and upper bulwarks, freshwater outlets are fitted on the flybridge, aft deck and bow, a powerful exterior spotlight is installed, galley and bar appliances and drawers are secured with hard latch systems, and hinged master and VIP berths uncover generous additional storage. The galley is specified for serious culinary service with a Miele induction cooktop, an upgraded Miele H6280BP 90 cm combination oven, a Miele dishwasher, Sub Zero galley refrigeration plus an extra Sub Zero refrigerator/freezer in the galley snack cabinet and a Miele wine cooler in the dining area, accompanied by an Isotherm salon bar refrigerator, a salon ice maker, a galley waste disposal system, an Asko washing machine and an Asko dryer with insulated overboard ventilation. Al fresco entertaining is effortless on the expansive flybridge where a Kenyon BBQ grill, a flybridge refrigerator, an additional flybridge ice maker and a wet bar with hot and cold water are paired with an upgraded audiovisual package and exterior lighting dimmers, while the SX88's distinctive aft beach area creates an inviting waterside living space. Crew accommodations are thoughtfully outfitted with a Sharp microwave, an additional crew refrigerator and preparation for a further ship monitoring touchscreen. Security and communications are strengthened by IP CCTV cameras placed in both the cockpit and engine room, two empty radomes prepped for KVH antenna installation and KVH HD7 satellite television antenna cable preparation. Together, the Americas Edition equipment package, US Duty Paid status, one thousand engine hours and immediate delivery make M/Y NANCE a compelling, turnkey example of the 2024 Sanlorenzo SX88.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
