OVERVIEW

A statement of modern yachting, this 2027 Horizon motor yacht stretches 89 feet overall with a commanding 20-foot beam, presenting a poised and authoritative silhouette that honors the pedigree of premier motor yachts. Constructed from advanced fiberglass composite with hand-finished fiberglass decks, her sleek semi-displacement hull—designed and executed by Horizon’s in-house studio—achieves an uncommon synthesis of efficiency, stability, and a refined ride. The lines are purposeful and contemporary, yielding exceptional interior volume and a profile equally at home on coastal passages or longer escapes. Lying in the United States, she stands ready to enhance every hour aboard.

Within, Horizon’s interior atelier has fashioned an environment where contemporary refinement meets practical seagoing sense, producing inviting social zones and tranquil private quarters. The generous main salon is arranged for effortless entertaining while the accommodation plan sleeps 8 across beautifully appointed staterooms served by five well-appointed heads. Meticulous detailing, expansive glazing, and a curated palette of premium materials amplify light and openness throughout. Dedicated crew facilities comprising two cabins with four berths guarantee discreet, professional service. Propelled by twin MAN diesel engines, she delivers confident, hushed performance backed by substantial endurance: a 3,170-gallon fuel capacity and 420 gallons of freshwater provide the range and self-sufficiency for anything from weekend getaways to extended bluewater cruises, embodying contemporary cruising that is graceful, capable, and impeccably conceived.
