OVERVIEW

X90 Fast embodies the most athletic, most compact incarnation of the rejuvenated EXTRA line, a sport motor yacht that channels lessons learned from the 76, 86, 88 and 99 into a lithe, high-performance vessel with the refinement of a superyacht. Its silhouette is taut and modern, the hullside sliding windows accentuating the yacht's clean, dynamic lines while hinting at the generous light and views within.

The interior flow is deliberately efficient: a spacious main salon unfolds toward the aft cockpit, separated by a signature galley fitted with up/down sliding windows. This clever central hub not only delineates social zones but creates a dedicated passage for crew to reach their quarters located forward of the engine room, and it provides an alternative route to the sun deck — which can also be accessed from the external side deck. Because of this circulation strategy, the bow lounge and helm are preserved from through-traffic, remaining private retreats for guests when desired.

Outdoor life is paramount aboard, with some 86 square metres of open-air space crafted for owners who prize a direct connection to sea and surroundings — perfectly suited to the planing-yacht lifestyle whether at anchor or on passage. Below deck, accommodation is generous and carefully arranged: four double staterooms, each with its own en suite, and a full-beam owner's cabin amidships that takes full advantage of the impressive 7.1-metre maximum beam.

Crew provisions are equally considered, with berths for four crew in two cabins, each cabin served by its own bathroom to ensure professional service and privacy. Propulsion comes from triple Volvo Penta IPS 1350 units, each rated at 1000 hp, which propel the yacht to a top speed of 29 knots and deliver a comfortable cruising speed of 23 knots. In true long-range spirit, this flybridge-style sportbridge yacht can achieve approximately 800 nautical miles

at a steady 12-knot passage speed.
