OVERVIEW

Dock Dock Goose is a fastidiously maintained 2021 Ocean Alexander 28R that skillfully blends contemporary exterior lines, sumptuous interiors and genuine bluewater capability. Propelled by twin MAN V12 1900 HP diesels with roughly 1,250 hours logged, she has been cared for to exacting standards and is offered turnkey to her next owner. Fresh from the yard with new bottom paint and PropSpeed applied in October 2026, she is ready for immediate offshore cruising.

The vessel benefits from a recently completed MAN 1,200-hour service and full servicing of both Kohler 40kW generators, and the transferable MAN Gold Standard Protection warranty remains active through June 2027, providing an uncommon layer of confidence for a late-model flybridge yacht of this stature.

A collaboration between designer Evan K. Marshall and Ocean Alexander's engineering team, the 28R platform prioritizes volume and natural light, featuring a full-beam main deck framed by expansive floor-to-ceiling glazing. Sunlight pours into the salon, highlighting precision joinery, carefully chosen finishes and the clean, contemporary aesthetic that define the brand's interior philosophy.

The main salon is conceived for gracious entertaining, with abundant lounge seating, an elegant dining arrangement for eight and large sliding doors that dissolve the boundary to the protected side decks. Forward, a welcoming country-style galley fitted with premium appliances, generous storage and a cozy dinette supports extended cruising and informal meals while at anchor or underway.

Accommodations are arranged with a superyacht sensibility: the on-deck, full-beam owner's suite delivers sweeping vistas, a king berth, his-and-hers wardrobes and a spa-like ensuite with dual vanities. Below deck, three well-proportioned guest staterooms include a VIP that rivals many primary

cabins, while two additional cabins easily convert from twins to doubles. Crew quarters are thoughtfully segregated and accessed discreetly through a custom beach club door to preserve owner and guest privacy.

Outdoor spaces are exceptional aboard this flybridge yacht. The expansive flybridge offers multiple seating zones, an oversized wet bar and excellent sightlines from the helm for confident, relaxed cruising. Aft, the beach club and hydraulic swim platform provide effortless water access and ample storage for toys and dive gear, creating an ideal setup for days at anchor.

Systems and equipment reflect a high-spec, turn-key platform: twin MAN V12 1900 HP engines (approx. 1,250 hours) with the major 1,200-hour service completed; twin Kohler 40kW generators recently serviced; a Spot Zero water filtration and purification system; an integrated scuba fill capability; Starlink satellite internet; an ElectroSea marine growth prevention system; Sonos distributed audio and Samsung Smart TVs in primary and guest areas. Functional refinements include the custom crew access via the beach club, robust hydraulic swim platform, full-beam on-deck master, a flexible four-stateroom plus crew layout, a welcoming country galley, and new Sunbrella canvas covers for every exterior cushion. Safety readiness is further supported by recently certified life rafts, and the yacht has been maintained exclusively as a private vessel—she has never been chartered.

From a broker's standpoint, Dock Dock Goose represents one of the finest Ocean Alexander 28Rs available, distinguished by proactive maintenance, discerning upgrades and a documented service pedigree that enhance reliability, comfort and autonomy at sea. If your objective is a late-model Ocean Alexander flybridge motor yacht that requires nothing before casting off on your next voyage, Dock Dock Goose merits immediate consideration. She is currently lying in Wrightsville Beach, North Carolina and is available for private showings by appointment.
