## OVERVIEW

---

Sori San Lorenzo is a captivating 2024 Sanlorenzo SL90A offered in Sag Harbor, New York, presented in near-new condition after single-owner stewardship and meticulous care. Her bespoke painted hull enhances the yacht's sculpted lines and Italian poise, while twin MAN diesel engines have only 500 hours, ensuring a ready-to-cruise flybridge motor yacht with genuine performance credentials. The SL90A's pioneering asymmetric profile expands interior volume and circulation, creating sweeping sightlines and a seamless indoor-outdoor flow that elevates every moment aboard.

Inside, the layout accommodates four staterooms with Sanlorenzo's signature attention to detail: a full-beam owner's suite that opens to panoramic views, a forward VIP stateroom, and two elegantly appointed guest cabins, all finished with Marty Lowe premium interiors and contemporary refinement. The salon and dining areas are awash with natural light through floor-to-ceiling glazing, complemented by bespoke furnishings that balance comfort and sophistication. Multiple exterior entertaining spaces — an expansive flybridge, an inviting foredeck lounge, and a beach club — provide varied environments for sunning, dining, or quiet relaxation, while a tender garage keeps auxiliary craft neatly stowed.

Practical seakeeping is addressed with stabilizers for serene passages, and the vessel's provenance is notable: a one private owner who never chartered the yacht, preserving her condition. For a buyer seeking a planing luxury motor yacht with superyacht pedigree, Sori San Lorenzo represents a rare opportunity to acquire an almost-new SL90A without the build wait — a refined flybridge cruiser that marries performance, comfort, and unmistakable Italian design.

## DETAILED DESCRIPTION

---

### Electrical appliances

---

A dedicated battery charger serves the generators, ensuring rapid, reliable replenishment of their reserves and safeguarding uninterrupted onboard autonomy during extended cruising and hotel loads.

### Alarms and controls

---

Command and confidence are elevated by a Garmin integrated navigation electronics and monitoring system, complemented by a Panasonic IP CCTV suite with DVR that places one fixed camera in the cockpit and a pan-and-tilt unit in the engine room. For vessels equipped with the Empirebus monitoring platform, two additional 12" Garmin touch-screen monitors extend shipwide oversight, one thoughtfully positioned in the crew mess and another in the engine room.

### Electronics

---

An additional third fixed control station adds commanding redundancy and ergonomic flexibility, empowering the skipper with optimal visibility and fingertip authority wherever the passage demands.

### Satellite and communication systems (TV SAT)

---

Long-range entertainment and information arrive via a KVH UHD7 TV-Sat antenna, paired with a matching KVH UHD7 empty radome for a balanced superstructure profile and symmetrical aesthetic.

## Audio and video appliances

---

Always connected and effortlessly immersive, the yacht features a 5G Internet Wi-Fi system with a harbour hotspot antenna for shore-side amplification. Entertainment unfolds with a 65" TV in the owner's cabin (configured differently from the Diamond package), a 55" TV in the salon (included in the Diamond package), and a Samsung 43" LED TV on the flybridge neatly housed within cabinetry complete with a TV lift (TV furniture not included). The Audio Video Diamond package—upgraded from the standard Silver—brings three 43" TVs across the VIP and guest cabins, a 55" TV in the salon, a Samsung soundbar in every cabin, and Fusion Bluetooth remote control in every zone served by the Fusion stereo. The crew benefits from one 32" TV in the crew area and one 28" TV in each crew cabin, for a total of three screens, while SiriusXM Radio blankets the entire vessel, crew areas included. Power stability and protection are assured by a 6400 W UPS dedicated to the AV network, an Apple TV enhances the salon's streaming options, and an additional subwoofer on the flybridge deepens open-air acoustics.

## Household appliances

---

Culinary and hospitality refinement is anchored by a Subzero 24" wine cooler on the flybridge and a dedicated icemaker on the flybridge sourced from the standard salon cabinet specification. Hot water capacity is updated with a 150-liter boiler in lieu of the standard 100-liter unit, while a Subzero 30 freezer boosts cold-storage flexibility for extended voyages.

## Complements for the interior bathroom

---

Spa-like indulgence awaits with three rain-shower systems and full-height marble wall cladding in both the VIP shower and the owner's shower. The

owner's bathroom is further elevated by a storage cabinet featuring an oval mirror fronted door with a refined metal frame positioned above the sink, an additional low storage module in lacquered wood topped in marble, and a day head adorned with one aft marble wall and one forward marble wall for a cohesive, luxurious finish.

## Interior accessories

---

Refinement resonates throughout with two Lintea Mare linen and towel sets for each crew cabin and bathroom, and coordinated linens across all cabins specified in Lintea Mare with thread color 2620 Aurifil. The salon's forward portside wall integrates a bespoke bar cabinet: lacquered closed doors above, wood doors below, and a sculptural Antolini Naica Quartz polished marble niche centered between. A 55" TV is seamlessly integrated into the ceiling with an electric mechanism, while the starboard side of the salon gains a Planum A/C and panel ceiling for balanced climate and architectural rhythm. Materiality is elevated by American walnut, flamed and bleached for a natural water based effect, applied to lower cabinetry and door inserts throughout, and by a Cadorin parquet wood floor in the galley. All beds are upholstered in Dani Asolo 7790 leather with decorative stitching; the VIP and guest headboards feature central panels in Torri Lana Art. Boemian Cod. 624.000 fabric with matching stitching, while the master boasts a custom headboard in wood and the same fabric within a Gunmetal frame. Custom rounded bedside tables adorn every cabin, pairing wood finished tops with a lacquered RAL 9001 30 gloss structure. Doors across the accommodation receive bespoke treatment with lacquered faces and vertical wood elements, each side edged by a metal strip for a crisp junction—twelve doors in total—while lower cabinets and wardrobes feature custom designed handles. Discreet technology elevates ambiance with TVs hidden behind Stopsol bronze mirrors in the VIP, guest, and owner's cabins, full height backlit mirrors in the owner's

dressing area, a sliding bed in the VIP cabin for flexible layouts, and a bed frame with a lifting system in the owner's suite for effortless under berth storage.

## Galley

---

The working surfaces receive a couture upgrade to Antolini Naica Quartz polished marble for both the kitchen top and splash, while a bespoke galley cabinet integrates a freezer with additional upper storage. This custom cabinet is further enhanced with a matching Antolini Naica Quartz polished marble worktop, unifying function, durability, and luminous elegance.

## Lights

---

Atmospheric illumination is artfully composed: in the master cabin, two Vibia "Palma" Cod 3700 Graphite reading lights are mounted vertically for sculptural poise, while dedicated reading lights are provided in all other cabins. LED strip lighting underscores the owner's bed and the dining bench in the salon, traces the entrance bookshelves in the owner's cabin, glows discreetly behind salon curtains, and enriches the owner's bathroom with a backlit mirror. In the owner's shower, a vertical LED strip introduces spa grade serenity, and the owner's wardrobe gains an upper LED strip with independent control for precise ambiance and visibility.

## Loose furniture

---

Entertaining is anchored by five foldable B&B Mirto dining chairs and a custom fixed dining table in the salon with a walnut base and back painted glass top. Owner supplied, two additional armchairs enrich the seating ensemble, complemented by a Minotti Clive coffee table, 160×55 cm, with a zebrano

marble top and a satin aluminium structure, plus two additional small coffee tables for layered convenience. The salon's "L" shaped sofa by Poltrona Frau Let invites relaxed conversation, while two B&B Lithos poufs—specified for the owner's and VIP cabins in leather Alpha 1525253 with bronze nickel structures—add tactile luxury. Underfoot comfort is completed by a Stepevi Beam Pebble e Angora grey M902 carpet in the salon.

## Complements for the exterior

---

Open air living is perfected by a hard top with an electric blades opening roof and a dedicated sun awning shading the aft fly area. Teak gracing the flybridge—including the side superstructure walkways—and the bow area sets a timeless yachting tone, while prewiring for backlit name letters prepares the yacht for a luminous moniker. In the cockpit, two electric up down tables with an additional central section feature stainless steel structures, varnished teak tops, and twin stainless steel profiles. The flybridge bar cabinet is finished in Corian Glacier White on the top and sides with varnished teak doors, and a companion cabinet behind the co pilot seat is custom modified for TV predisposition (TV and lift not included) with matching Corian and varnished teak finishes. Behind the pilot seat, the bar cabinet is custom reworked to house a wine cooler and fridge, with fixed Corian Glacier White top and sides, slatted varnished teak asymmetrical doors, and increased height for presence and capacity, inclusive of a low Frigonautica FR50 fridge. Social comfort on the flybridge is elevated by a custom U shaped sofa with a varnished teak structure, internal storage, and Mariaflora fabric cushions, facing an electric hi/low table with a varnished teak top that slides toward the sofa for adaptable dining. For extended service, an additional custom aft flybridge bar cabinet of 30 cm depth sits behind the U sofa, offering glass storage with Corian Glacier White top and sides and slatted varnished teak doors. Practical elegance continues with two plexiglass glass holders for the pilot and co pilot seats and

two more on either side of the bow area sofa.

## Thrusters and stabilizers

---

Precision handling and poise are assured by a hydraulic stern thruster, while a fins stabilizer system with ZERO SPEED functionality keeps the yacht composed both underway and at anchor.

## Engine room equipment

---

Serviceability is streamlined by an electric pump for engine oil changes, with the convenience of onboard extraction; the tank is not included.

## Navigation electronics

---

The helm is specified with the Garmin Diamond package, a comprehensive upgrade over the Silver standard configuration, delivering heightened capability, clarity, and integration across critical navigation functions.

## Disclaimer

---

The Company offers the details of this vessel in good faith but cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel.
