## OVERVIEW

---

Commanding ninety feet overall with a generous 23-foot beam, this 2023 motor yacht embodies contemporary yachting at its most assured—sleek in silhouette, confident in stance, and finished for owners who demand both spirited performance and refined presence. Built of advanced fiberglass and fitted with an interior executed in a Sunseeker-styled aesthetic, her living spaces feel bright, bespoke, and enduringly elegant, a thoughtful balance of modern lines and warm materials.

Power comes from twin MAN inboard diesel engines that settle the yacht into a relaxed 21-knot cruise and can be urged to approximately 27 knots when you wish to extend the day's itinerary. The hull's steady manners and a carefully distributed weight profile produce a ride that is both lively and composed, equally suited to long coastal passages or impromptu weekend runs. With a substantial fuel capacity of 3,434 gallons and 400 gallons of fresh water aboard, she is provisioned for extended, independent cruising with confidence. Stepping inside, the atmosphere is quietly indulgent—clean, architectural joinery, layered textures, and selected finishes that read as understated luxury. Expansive glazing floods the main salon with natural light, creating an inviting social heart that flows effortlessly to alfresco lounging and dining platforms. The interior plan has been arranged to favor convivial entertaining and private repose alike, offering comfortable staterooms and five finely appointed heads to accommodate family and guests. Dedicated crew accommodations for two maintain discreet, professional service and preserve owner privacy underway and at anchor.

On deck, wide side decks, secure handrails, and a striking, contemporary profile unite practical function with elegant form. The broad aft cockpit is ideal for leisurely meals waterside, while the foredeck provides a tranquil setting for sunrise coffee or evening cocktails. Attention to detail—ergonomic helm

layout, clear sightlines, and generous stowage—ensures ease of operation underway and simplicity at anchor, whether cruising secluded inlets or arriving at prestigious marinas.

Delivered new in 2023 and presented in the United States, this 90-foot yacht is as satisfying to pilot as she is to live aboard: fast yet composed, quiet and solid, with an interior finish that makes each day afloat feel like a private retreat. Turn-key in specification, she offers rare breadth of range, pace, and presence for owners seeking a modern luxury motor yacht with genuine bluewater capability.

## Overview

---

M/Y WHITE STAR, the award winning Sunseeker 90 Ocean, is designed to both surprise and delight, delivering a yachting experience that feels more like a private penthouse on the water. Every detail of the 2023 Sunseeker 90 Ocean WHITE STAR has been carefully considered, elevating comfort and luxury well beyond expectation. Thanks to WHITE STAR's broad 23'6" beam and upright stem bow, the 90 Ocean achieves an impressive 20% increase in interior volume and nearly 30% more deck space compared to yachts in her class, creating expansive, light filled spaces inside and out that redefine onboard living. At the stern, the Beach Club extends over approximately 20 by 13 feet to create a true social hub at water level: a built in BBQ station invites alfresco dining, an oversized rain shower refreshes after a swim, and Sunseeker's innovative X TEND™ sunbeds transform effortlessly from aft facing to forward facing. A Bezenzoni ladder gangway provides easy sea access, while the adjoining hydraulic swim platform can carry a jet ski and tender, with dedicated self draining lockers for SeaBobs and other water toys. Above, one of the largest flybridges in the class offers roughly 25% more space than comparable yachts and features an infinity glazed spa Jacuzzi with surrounding sun pads, a fully equipped wet bar with stainless steel sink, drawer fridges, ice maker, and glass topped counter, plus a BBQ grill for open air entertaining; twin teak dining tables and generous seating make this area ideal for gatherings, and a carbon fiber hardtop with a full width retractable canopy provides adaptable shade from day to evening. Inside, the open plan saloon evokes a chic apartment, with loose designer chairs and tables that keep the mood casual or convert swiftly into a formal dining setting for up to eight; floor to ceiling windows bathe the space in natural light, while

refined finishes—smoked eucalyptus joinery and upgraded fabrics—heighten the sense of luxury throughout. Crew quarters are positioned aft for guest privacy and seamless service, comprising a captain's cabin, a twin crew cabin, a crew mess with private facilities, and direct access to the engine room.

Powered by twin MAN V12 1900 hp diesels, WHITE STAR cruises comfortably at 21 knots and reaches a top speed of 27 knots; a CMC fin stabilizer system ensures outstanding comfort both underway and at anchor, and her 3,434 gallon fuel capacity supports extended cruising. Meticulously maintained since new by a dedicated Captain and experienced Owner, WHITE STAR presents in exemplary condition.

## Key features

---

Highlights include an extended warranty on the mains valid through 2028, US duty paid for seamless stateside operations, and Starlink connectivity that keeps guests and crew online offshore. Nightlife on the water is amplified by ten dual color underwater lights, while the 1,000 hour service is scheduled for 10/2025 to keep systems on point. Comfort is assured by a CMC fin stabilization system and a water maker, and relaxation peaks with a spa tub featuring infinity glazing and an electrically operated aft cockpit privacy screen. Practical luxuries abound, from a main deck day head and the enclosed galley option to the USA Platinum Package and a panoramic sky roof with electric blind. A custom wood stow away dining table seamlessly transforms into an elegant cabinet, preserving space without compromising style.

## Deck and flybridge equipment

---

On deck, indulgence meets ingenuity: the flybridge aft hosts a spa tub with infinity glazing and integrated sunbathing, complemented by an electrically operated aft cockpit privacy screen and three polished stainless steel bar

stools at the bar. Safe, effortless access is assured via an eight step side mount stairway with hull fittings to port and starboard, while evening ambiance is set by ten dual color (white/blue) underwater lights—four across the stern and three along each side. Practical refinements include a carbon fiber and chrome overhead shower stand with socket on the stern platform, a galley pantograph style access door to the side deck, and chaffing bars around the sides and aft of the stern cleat block. The flybridge features fixed GRP seating with low level concealed LED lighting, relocated awning poles and a flybridge wash down to free space for a life raft, plus an electric canopy shading the Transformer sunbeds. Protection and polish come with the Flybridge Covers Package for seating, sunpad, spa, tables, and helm seats. Entertaining flows at the full width main wet bar, whose Carrera Minerva Gloss countertop is extended by a raised shelf bar top in low iron clear glass with LED lighting; dining expands with an enlarged seating group and twin folding teak tables, and there is an open plan forward observation area with a coffee table. Wet bar moldings and doors are spray paint finished for a refined look, while side boarding door retainers hold doors securely open in use, and stern spring cleats on the aft edge of the hull aid stern to mooring.

## Mechanical

---

Performance is underpinned by twin MAN V12 1900 shaft drive engines with dual station propulsion control levers and individual MAN start stop panels per engine, complemented by proportional bow and stern thruster control for precise low speed handling. A CMC fin stabilization system provides effective stability underway and significant roll reduction at rest or anchor, while a panoramic sky roof with electric blind elevates the main deck experience. Independence at sea is extended by an HRO Seafari water maker delivering 221 liters per hour (SFC 1400 2).

## Navigation and electronics

---

Electronics are comprehensive and intuitive, beginning with two black dummy domes and an aft docking control station in the starboard cockpit featuring Aventics Marex OS 3 with a dedicated horn button. Awareness is enhanced by CCTV with three cameras—two infrared units in the engine room and one aft-facing camera on the flybridge overhang—displayed on a navigation screen. Connectivity benefits from cellular and Wi-Fi signal booster antennas, and the crew Garmin screen has been upgraded to accept the camera feed via HDMI cables. Shipwide oversight is delivered by the Sunseeker CM8 integrated power management system with a 10" glass touch display, providing boat monitoring and a full access control repeater in the crew mess, while LED navigation lights replace the standard fit.

## Navigation console package

---

At the lower helm, two Garmin GPSMAP 8424 24" multi-functional displays (8624 for US spec) are paired with a Garmin remote input device and SD card reader. Long-range perception is assured by the Garmin GRM Fantom 126 six-foot open array radar with 96 nm range, guided by a Garmin GPS 24XD antenna. Precision tracking comes via a Garmin GHP Reactor 40 autopilot with GHC 50 control display, while comms are handled by a Garmin 315i (315 US spec) VHF with Class D DSC and a 2.4 m whip antenna. Subsurface intelligence is delivered by a Garmin GSD24 sonar module with B744v speed, depth, and temperature transducer and a Garmin GSD25 fish-finding and bottom-tracking module with a pair of Garmin GT51M THP transducers. Traffic awareness is provided by a Garmin AIS 800 transceiver with dedicated VHF aerial and GPS receiver, complemented by an Ultrasonic Wind Sensor and a Richie Helmsman HF 743B flush-mount magnetic compass.

---

## Navigation flybridge console package

---

On the flybridge helm, two Garmin GPSMAP 8416 16" multi functional displays (8616 for US spec) mirror critical data, supported by a Garmin GHC 50 autopilot control display. Communication is extended with a Garmin GHS11 VHF repeater handset and active speaker, and navigation is completed by a Richie Helmsman HF 743B flush mount magnetic compass.

---

## Crew cabin navigation

---

In the crew mess, a Garmin GPSMAP 8412 12" multi functional display (8612 for US spec) provides full system visibility, paired with a Garmin GHS11 VHF repeater handset and active speaker to keep the team informed around the clock.

---

## Furniture and accessories

---

The interior has been elevated with an upgraded carpet and the Platinum Collection fabric package, while the wood finish is a sophisticated smoked eucalyptus with a high sheen satin finish. The main deck saloon gains a low level bar unit with a stone upgrade, and the patio door curtain, side window curtains, and the Venetian blind above the stairwell are electrically powered for effortless ambiance control. Sliding saloon doors to port and starboard open the space to the sea breeze. A saloon coffee table with a wood finished top and a Flint Grey leather wrapped bolster adds tactile luxury, which continues outdoors with an exterior upholstery upgrade to Sunbrella and a premium Spradling Hitch exterior upholstery upgrade. Practical touches include Snib locks on the master, forward VIP, port, and starboard cabin doors, upgraded porcelain stone across all four guest shower bulkheads, a single Porta Romana Casaubon Oval Lamp, two Frag Riviera

occasional chairs in lieu of the standard port side chaise in the main saloon, and eight main deck dining chairs by Robert Langford Polo. Roman blinds feature blackout lining, and a smoked eucalyptus stowage box is fitted between the two helm seats for artful organization.

## Appliances and lighting

---

Entertaining is effortless with a Vitrifrigo Classic Hydro icemaker in the aft cockpit and a marine electric stainless steel BBQ grill, while a Miele wine cooler for 34 bottles keeps vintages at the perfect temperature. The galley sink has been moved as far inboard as possible within the existing cabinetry to create a larger outboard worktop, complemented by two 18 liter rubbish bins on a pull out drawer system and a waste disposal at the sink. Hot water capacity is boosted by a second 100 liter clarifier tank with a single 2 kW immersion heater. Forward relaxation is supported by two 24 V drawer refrigerators of 36 liter capacity fitted under the foredeck seating, plus an additional drawer refrigerator in the lower lobby storage unit and a concealed safe in the forward VIP cabin cabinetry. Mood lighting is retractile, with two lights on the foredeck console table forward of the seating group, and everyday convenience is ensured by separate Bosch WAW285H2UC washing machine and Bosch WTG865H4UC tumble dryer. Concealed low level LED lighting accentuates the step between the galley and the helm and observation area, and the curved step to the observation area.

## Entertainment equipment

---

The saloon television unit has been extended forward to incorporate an integrated forward facing display, uniting form and function. Cabinetry is finished in Sand — Satin, while upholstery is executed in Flint Grey leather, lending the media area a refined, contemporary presence.

## Main performance AV package

---

Cinematic moments abound with a saloon Samsung 65" QLED 4K television featuring the Apple TV app and AirPlay 2, driven by a surround sound ecosystem comprising a Sonance soundbar and Sonos Amp, rear Sonance speakers with a Sonos Amp and a Sonos subwoofer, plus two additional Sonance speakers in the dining area with a Sonos Amp and two more Sonance speakers in the helm and observation area, again powered by a Sonos Amp. The master stateroom hosts a Samsung 55" QLED 4K television with the Apple TV app and AirPlay 2, a Proficient soundbar with Sonos Amp, rear Sonance speakers with Sonos Amp and a Sonos subwoofer, and an en suite Sonance speaker with a Sonos Amp. The forward VIP cabin enjoys a Samsung 55" 4K television with the Apple TV app and AirPlay 2, a Proficient soundbar with Sonos Amp, rear Sonance speakers with Sonos Amp, and a Sonos subwoofer. Aft port and starboard guest cabins each feature a Samsung 55" 4K television with the Apple TV app and AirPlay 2, paired with a Proficient soundbar and Sonos Amp. Outside, the Beach Club platform is enlivened by two Sonance 6.5" speakers with a Sonos Amp; the flybridge deck pulses with eight Sonance 8" speakers with Sonos Amp; and the foredeck sets the mood with four Sonance 6.5" speakers with Sonos Amp. The crew mess has a Samsung 43" 4K television with a Sonos Beam soundbar, Apple TV app, and AirPlay 2, while the crew port and starboard cabins each benefit from an all in one Fusion Audio entertainment solution with Bluetooth audio streaming, AM/FM, USB, and AUX connections.

## Additional noteworthy items

---

This WHITE STAR specification includes the USA Platinum Package and a main deck day head in lieu of a standard cloakroom. The standard saloon layout features L shaped seating, two loose chairs, and a coffee table, complemented

by a custom wood stow away dining table for eight that seamlessly transforms into an elegant cabinet. The enclosed galley option adds an inboard access door and shutter style aft doors—finished Sand Gloss on the galley side to match the galley and grey mirror to the saloon side—with doors and framework finished in a smoked eucalyptus frame. The starboard guest cabin is configured with single berths that slide together to create a double, a stainless steel handrail is added to the top section of the inboard bulkhead of the crew mess stairwell, and stainless steel removable safety rails line the perimeter of the bathing platform.

## Master cabin (amidship)

---

The amidships master is a serene retreat, featuring a breakfast seating module with a curved backrest and electrically powered blinds for effortless light control. In the en suite, the shower recess gains a stainless steel fiddle rail, and two Porta Romana Scruffy Ribbon wall lights in Decayed Silver (TWL49) with Warm Grey satin shades and pewter card lining set a refined tone. Additional storage is built into the forward outboard window frame of the master en suite, with the cabinet finished in white lacquer and the carcass wrapped in Destiny II Snow to match the window band, complemented by medium tinted film to the side windows and sliding doors. A concealed safe within the cabinetry completes the suite.

## VIP stateroom (forward)

---

The forward VIP stateroom offers a queen berth, ample wardrobe and storage, and a large en suite bathroom, all in a private, well separated location from the other cabins. A safe concealed within the cabinetry provides secure stowage for valuables.

## Starboard guest cabin

---

The starboard guest cabin features twin berths that slide together to form a comfortable double, a private en suite bathroom, and a flexible configuration ideal for couples or families.

## Port guest cabin

---

The port guest cabin provides fixed twin single berths with an en suite bathroom, finished with elegant materials and a thoughtful, comfortable layout.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
