## OVERVIEW

---

ACALI is a luxury motor yacht conceived to upend convention. In a world where owners are typically asked to compromise between volume, efficiency, and comfort, it delivers the trio in one cohesive platform. Boasting an extraordinary 12 meter beam, it carries the stature and scale of a larger superyacht, shaping generous social zones that feel closer to a waterside penthouse than a conventional craft.

Beneath the graceful profile sits an advanced hybrid-electric propulsion and hotel system, delivering whisper-quiet passages and prolonged self-sufficiency at anchor without depending on generators. The outcome is a calmer, silkier, and polished onboard atmosphere—defined by serenity, space, and autonomy. With true passagemaking range, smart energy control, and a lifestyle-led arrangement merging interior and alfresco realms, ACALI reframes what a yacht in this segment can achieve.

This is more than a boat—it is a new benchmark for ownership, where luxury, innovation, and freedom are united for effortless living.
