# OVERVIEW

---

The 2025 Mazu Yachts 92 DS arrives as a new-build, fully bespoke explorer motor yacht, conceived for owners who prize absolute personalization, progressive design, and genuine blue water capability. Built on a robust steel hull with a lightweight aluminum superstructure, the 92 DS is offered for customization at every turn—interior schemes, deck plans, finishes and propulsion choices are all arranged to your brief—backed by an efficient 12 month delivery schedule and the precise craftsmanship for which Mazu Yachts is known. Category highlights include Explorer Yacht, Luxury Motor Yacht, Expedition Yacht, Custom Superyacht, Long Range Cruiser and New Build.

Each 92 DS is a one off, allowing owners to dictate exterior livery, interior ambiance and the full complement of onboard amenities. Main deck layouts can be tailored to a five cabin configuration that features a private owner's deck, or a four cabin option with a forward, full beam primary suite. North American clients may choose a country kitchen on the main deck, creating a relaxed, sociable heart for informal gatherings and entertaining. Professional crew accommodations for five are carefully arranged, with the captain's cabin integrated into the pilothouse to ensure seamless navigation and efficient operation.

Designed for comfortable passagemaking, the interiors can be appointed with elevated materials, bespoke furniture and premium audio visual and entertainment systems to produce an environment that is both refined and highly practical. Sweeping windows flood the living spaces with natural light, amplifying volume and maintaining an intimate connection with the sea from virtually every vantage point.

Expansive exterior areas on the 92 DS are crafted to suit your lifestyle—custom sunlounges, open air dining, or a jacuzzi can be integrated into the on deck

program. Both aft and foredecks may be arranged for sunbathing, quiet relaxation or lively entertaining, with options for retractable sunshades, outdoor bars, BBQ stations and integrated sound. A teak laid swim platform forms a graceful beach club for easy access to the water, and a tender garage may be included for secure, discreet storage.

Prepared for long range adventure, the yacht is powered by triple Volvo Penta IPS 1050s, offering a comfortable 12 knot cruise, a 17 knot top speed and a range in excess of 1,200 nautical miles; an upgrade to Volvo IPS 1350s is available for additional horsepower and improved efficiency. Advanced stabilization and maneuvering systems—Sleipner bow and stern thrusters together with Humphree fin stabilizers—keep the ride composed, quiet and confidence inspiring both underway and at anchor.

For buyers seeking a meticulously tailored experience in the 30 metre class, the Mazu 92 DS stands apart: whether imagined as a private ocean retreat or an expedition ready cruiser, this custom superyacht delivers a harmonious fusion of performance, elegance and adventure that defines the modern explorer yacht.

# DETAILED DESCRIPTION

---

## Detailed description

---

New construction opportunities abound with the Mazu 92 Displacement Series (92DS), a highly customizable semi-displacement explorer yacht conceived to deliver remarkable flexibility and true personalization for discerning owners. Forged with a steel hull and complemented by an aluminum superstructure, each 92DS is a bespoke creation, meticulously tailored to the precise desires and operational profile of its owner. From the exterior paint scheme to the interior décor, onboard amenities, and the choreography of deck spaces, no two Mazu 92DS yachts are ever the same. This depth of customization, paired with an attractive twelve-month delivery timeline, places the 92DS among the most distinctive offerings in her size range. Two principal interior arrangements are available: a five-cabin configuration with a private owner's deck, or a four-cabin layout featuring the master stateroom forward on the main deck. For North American clients, a dedicated arrangement introduces a country-style kitchen on the main deck to create a relaxed, social heart of the yacht, while crew accommodations for five—including the captain's cabin—are thoughtfully positioned in the pilot house. Powered by standard Volvo IPS 1050 engines, the 92DS attains a top speed of 17 knots, maintains a comfortable 12-knot cruise, and offers a range exceeding 1,200 nautical miles; for owners seeking heightened performance, optional Volvo IPS 1350 engines are available. Comprehensive floor plans clearly demonstrate the breadth of customization, ensuring each yacht aligns perfectly with its owner's vision. For those pursuing a highly personalized, steel-hulled explorer with superior performance and range, the Mazu 92DS stands out with confidence and character.

## Disclaimer

---

The company offers the details of this vessel in good faith but cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel. A buyer should instruct his agents, or his surveyors, to investigate such details as the buyer desires validated. This vessel is offered subject to prior sale, price change or withdrawal without notice.

---

## Notable features

---

Impressive performance anchored by efficient Volvo IPS propulsion meets the confidence of steel and aluminum construction, with the 92DS built to RINA classification and offering exceptional customization flexibility that allows every detail—from finishes to deck flow—to reflect an owner's unique vision.

---

## Technical specifications

---

The 92DS presents purposeful dimensions and robust engineering: LOA is 28.45m (95'), with a beam of 6.90m (22'8") and a draft of 1.8m (5'11"). Displacement is 120 tons. Materials comprise a steel hull with an aluminum superstructure, and the deck material is teak. Propulsion is by 3 x Volvo Penta IPS 1050s (3 x 800HP). Maximum speed is 17kts, with a cruising speed of 12.5 kts. Fuel capacity is 9,900L (2615 Gal), while fresh water capacity is 3,500L (925 Gal). Classification is RINA Pleasure (Optional Commercial Upgrade).

---

## Details to be defined but include

---

The final specification is to be defined but is set to include 3 x Volvo Penta IPS 1050s with optional Volvo IPS 1350s, 2 x 35kW Kohler generators, Sleipner bow and stern thrusters, Humphree fin stabilizers, 180,000 BTU air conditioning,

and a choice of four- or five-cabin layout, plus an additional arrangement featuring a country-style kitchen on the main deck.

## Upgrades to be defined

---

A curated suite of enhancements can be specified, including upgraded Volvo Penta IPS 1350s (3x1000 HP), Sea Keeper 18, a Dynamic Positioning System, a Lithium Battery Pack, full Commercial Compliance, and more to align performance, comfort, and capability precisely with the owner's ambitions.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
