OVERVIEW

HELIOS is a striking, contemporary interpretation of the 92-foot Lazzara LSX, artfully blending the energetic performance of a sport yacht with the space and refinement typically found in larger motor yachts. Propelled by quad Volvo Penta IPS 900 pods, she settles into an efficient 22-knot cruise and tops out at approximately 30 knots. With a shallow 4'10" draft and a hydraulically lowering hardtop, she is ideally suited to the waters of Florida and the Bahamas. Designed for both lively entertaining and comfortable extended passages, HER interior presents a bright, expansive salon, a hardtop flybridge and a transom that converts into a beach club, while a convertible transom garage increases versatility. Eight guests sleep across four en-suite staterooms, highlighted by a full-beam owner's suite featuring a private fold-down balcony and a soothing Jacuzzi spa, and separate crew accommodations berth three. Joystick docking and dual helm stations simplify precision handling in tight spaces, and the teak-finished beach club together with a hydraulic swim platform enhance life at anchor. The result is a sleek express motor yacht that delivers an elegant mix of style, efficiency and adaptability, unmistakably bearing Lazzara pedigree.

DETAILED DESCRIPTION

Construction

Constructed on a resilient fiberglass hull and complemented by a harmonized fiberglass superstructure, she is elegantly clad in teak decks that provide enduring sophistication and secure footing while underway.

Dimensions

Spanning 91.83 feet (27.93 meters) overall, this yacht is supported by a 21.00-foot (6.40-meter) molded beam and draws 4.83 feet (1.47 meters) when loaded, offering a graceful profile and confident harbor handling. Registered at 104 gross tons and displacing 136,000 pounds, her hull features a 12-degree deadrise at the transom for a balance of stability and seakeeping refinement. Her tanks hold 1,700 US gallons (6,435 liters) of fuel alongside 380 US gallons (1,438 liters) of fresh water, providing generous endurance. Performance is equally assured, with a top speed of 30.0 knots, a comfortable cruising speed of 22.0 knots, and an operational range of 467 nautical miles.

Machinery

Propulsion is delivered by four Volvo IPS 900 main engines, each rated at 800 hp, paired with refined pod drives that provide assured performance and exceptionally smooth handling. Onboard electrical demands are supplied by two Cummins Onan generators rated at 27.5 kW each, with shore power available through a single phase 100 Amp 208 V connection and a battery bank replaced in 2019. A full air conditioning system ensures guest comfort in every climate, while trim tabs and stabilizers preserve steady, composed behavior both at anchor and underway. For intuitive, exact maneuvering, the

helm is equipped with a precise joystick steering system.

Communication, navigation & entertainment systems

SATcom fitted with Cradlepoint Wi Fi high speed internet provides the foundation for uninterrupted onboard connectivity, so guests and crew stay online with minimal effort wherever the yacht ventures. Navigation is entrusted to a commanding array that pairs a 4 kW, 6” radar array with GPS functionality driven by two Garmin black box 8700 units and overseen by a VEI ship’s computer, delivering precise, dependable control and situational awareness. The entertainment package is equally refined: JL Audio amplifiers power the exterior speakers for lively open air performance while Niles interior speakers furnish the accommodations with crisp, immersive sound.

Galley & laundry equipment

The main galley is equipped with a Miele stove and oven, complemented by built-in refrigeration and freezer capacity and a Miele dishwasher that allows food preparation and service areas to be maintained with effortless, refined efficiency. The primary laundry area accommodates stackable units, thoughtfully conserving space while delivering reliable everyday performance.

Tenders & toys

An AB Jet tender 330, compact and remarkably nimble, is on hand to transfer guests ashore or to cruise along the coastline with the precise, confident handling delivered by jet propulsion, while two Seabobs promise thrilling underwater discovery, from effortless reef glides to graceful, silent dives.

Deck equipment

A whisper-quiet electric windlass controls the pair of stainless-steel anchors, working in concert with galvanized chain—150 feet on the port side and 200 feet on the starboard—to deliver dependable holding power and exceptionally smooth deployment. A hydraulic Sealift platform, fitted with tender-handling capability, affords a refined, efficient solution for launching and recovering the tender.

Fire fighting & safety equipment

Every aspect of onboard safety has been deliberately specified and harmoniously integrated: a sophisticated fire control system operates alongside a complete array of portable fire extinguishers and a network of advanced alarms. For offshore contingencies she is equipped with an eight-person Viking Elite life raft, complemented by life jackets, EPIRBs and an appropriate supply of flares, delivering assured readiness and calm confidence for every passage.

Accommodations

Access to HELIOS is effortless thanks to a hydraulic swim platform that lowers to the waterline, providing direct boarding to the tender and water toys. From there guests arrive on an expansive aft deck dressed with refreshed exterior furnishings, an elegant setting for al fresco dining and entertaining that flows easily into the main salon.

The main salon is illuminated by broad panoramic windows that frame sweeping seascapes, creating a serene backdrop for comfortable lounge seating, a refined dining area, and a wet bar appointed with a refrigerator and an ice maker. Moving forward, the helm benefits from an opening roof that

welcomes fresh air and sunlight underway, while a hydraulically lowering hardtop affords extra clearance for passing beneath low bridges. Combined with an upgraded stabilization system and a shallow draft of under five feet, HELIOS is especially suited to cruising the waters of Florida and the Bahamas.

A midship stairway descends to the lower deck where the yacht sleeps up to eight guests across four en-suite staterooms. At the stair base an open dining space faces the galley and bar to starboard, which is equipped with upgraded Miele appliances and serves as a convenient social hub. The full-beam master suite, positioned amidships for superior motion comfort, offers a private sanctuary with a centerline king-size bed, a generous walk-in closet, a vanity, a settee, and large panoramic windows that flood the suite with light and water views. Warm, high-gloss wood finishes run throughout, and a distinctive glass partition separates the sleeping quarters from a spa-like en-suite; the glass turns opaque at the touch of a button for complete privacy. The cedar-lined master bathroom features a Jacuzzi tub, a double vanity, and a unique fold-out starboard balcony that becomes a secluded waterside retreat.

Forward of the master, two guest cabins are arranged to port and starboard. The starboard guest stateroom offers a queen-size bed and an en-suite with a shower, while the port cabin features twin berths that convert easily to a queen and also includes an en-suite shower. The forward VIP stateroom provides a queen-size bed, an integrated settee, and a private en-suite with shower. Each guest stateroom is finished with high-gloss wood cabinetry and its own entertainment system to ensure comfort and privacy for family and visitors.

Separate crew quarters accommodate up to three crew members in two staterooms, allowing discreet, professional service while preserving guest privacy. With its flexible four-stateroom layout, generous entertaining areas, shallow draft, and thoughtful upgrades, HELIOS offers an exceptional fusion of luxury, comfort, and practicality for cruising Florida, the Bahamas, and beyond.

Maintenance summary

This yacht has benefited from a disciplined program of maintenance and thoughtful enhancements, beginning with a full hull repaint in 2017 and fresh bottom paint applied in July 2019. A comprehensive AV and connectivity upgrade completed in September 2019 brought RTI control tied to JL Audio amplifiers and exterior speakers, Niles interior speakers, and a Cradlepoint Wi Fi solution providing high speed internet. Tender and deck improvements include the addition of an AB Jet Tender 330 (9/2019) and a new hydraulic Sealift swim platform (9/2019). The helm was modernized with VEI custom electronics featuring six glass displays (10/2019), two Garmin Black Box 8700 units with AIS and sounder (10/2019), and a new 4 kW, 6' radar array (10/2019). Comfort and dependability were advanced with replacement of the salon HVAC condenser unit (9/2019), all engine batteries (4/2019), and all house batteries (10/2017). Visual and leisure upgrades include new underwater lighting (2018) and new exterior furniture (10/2019), while the galley is outfitted with upgraded Miele appliances—stove, oven and dishwasher. Ground tackle has been upgraded with stainless steel anchors and galvanized chain measuring 150' to port and 200' to starboard. Performance systems have been carefully serviced, with stabilizers maintained (7/2019) and the pods dropped and serviced (10/2017).

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
