## OVERVIEW

---

Power, precision, and pedigree—STALLION embodies her name in every respect. This 2022 Pershing 9X is a captivating showcase of Italian naval architecture and artistry, a high-performance luxury motor yacht whose sleek, muscular stance and 42-knot capability deliver the exhilaration of a true performance sport yacht, while surrounding guests in the refinement, technology, and craftsmanship that have made Pershing an icon.

Driven by twin 2638 HP MTU M96L engines and steadied by dual Seakeeper 9 gyro stabilizers, STALLION delivers remarkable composure at speed, with Xenta joystick maneuvering providing fingertip confidence when docking or threading through tight marinas. Dual helm stations—both upper and lower—pair with a cutting-edge electronics suite to place every passage at your command, whether you're cruising bluewater coast to coast or setting your sights on an Atlantic crossing.

Built with global roaming in mind, STALLION is fitted with a shore power frequency converter, ensuring effortless compatibility wherever she drops anchor. First delivered in Europe and enjoyed throughout the Mediterranean, she later made the voyage to the United States and now actively explores the East Coast under the stewardship of a seasoned full-time captain.

Beneath the 9X's sculpted lines lies a surprisingly voluminous interior, offering four ensuite staterooms plus quarters for up to three crew, a generous salon anchored by a polished wet bar, and the signature Poltrona Frau "Interior in Motion" helm that elevates the bridge into a work of Italian design. Outdoors, a sweeping sundeck and expansive aft lounge transform STALLION into an effortlessly social entertainer, every bit as compelling at anchor as she is thrilling underway—an elite open sportbridge motor yacht that blends adrenaline with elegance.

Her recent care and updates speak to a fastidious ownership philosophy. From

fresh bottom paint and comprehensive engine services to a watermaker renewed with 2024 membranes and a newly carpeted master, STALLION is sharply presented and turnkey, poised for immediate enjoyment by her next custodian.

Standout equipment underscores her pedigree. An extended MTU engine warranty runs through May 2026 or 1,400 hours, while twin 28 kW Kohler generators (port approximately 1,800 hours and starboard approximately 2,300 hours) provide robust hotel power. A pair of Seakeeper 9 units ensure exceptional stability at anchor and underway, and performance is nothing short of exhilarating with a top speed around 42 knots and a swift 35-knot cruise. A shore power frequency converter affords true worldwide operation, and Xenta joystick steering simplifies low-speed handling. The four-stateroom, three-berth crew layout is complemented by a tender garage for effortless water access, a chilled-water A/C system to keep interiors perfectly tempered, a watermaker updated with new membranes in 2024 for self-sufficiency on long passages, and a refined salon wet bar for effortless entertaining.

Completing the look, her Anniversary Silver Metallic paint lends the profile a distinctive, modern sheen befitting a contemporary Pershing superyacht.

Recent service history further distinguishes this Pershing 9X. In January 2026, she received a fresh bottom job, prop speed application on the drives, a top system drive service, and Seakeeper servicing, aligning her mechanicals and underwater profile for peak efficiency. In December 2024, care included a two-coat bottom job, prop speed on the drives, the 1,000-hour top system drive service, the MTU 1,000-hour engine service, full generator maintenance, additional Seakeeper service, and a watermaker service culminating in new membranes—comprehensively addressing performance, reliability, and autonomy. Going back to December 2023, the drives were serviced, the bottom was painted with new zincs installed, both propellers were reconditioned and treated with prop speed, the 500-hour engine service was performed, the Seakeeper units were attended to, and the master stateroom

received new carpet—an aesthetic flourish mirroring the mechanical diligence. Purpose-built for owners who crave both pace and polish, STALLION is the rare Pershing 9X that unites blistering sport-yacht performance with quiet, cruising confidence and a meticulously curated specification. From her Italian couture interior by Poltrona Frau to her transoceanic readiness and silver-laced silhouette, this high-performance motor yacht stands out as a compelling opportunity—refined, powerful, and exquisitely prepared for her next adventure.

## DETAILED DESCRIPTION

---

### Sun deck

---

Designed for both high-speed cruising and laid-back luxury, the sun deck offers the perfect vantage point underway or at anchor, its thoughtful layout and premium amenities allowing a seamless transformation from command central to open-air retreat. Forward, three pilot seats invite co-pilots or guests to share the thrill of the ride, while a sliding GRP access hatch with a hinged panel provides easy, secure entry. Stainless steel and side-mounted handrails ensure confident movement at sea, and discreetly integrated life raft housings elevate safety without compromising the clean aesthetic.

A generously sized aft sunpad, upholstered in vinyl and complemented by built-in storage, forms the heart of the relaxation zone, joined by a VTR stern lounge sofa with additional storage beneath for effortless functionality. Two teak coffee tables set the scene for cocktails or snacks, supported by an integrated drawer fridge that keeps refreshments within arm's reach. An external shower with a hot/cold mixer invites a quick rinse after a swim, while teak decking throughout delivers a refined, yacht-class finish. As day turns to dusk, discreet low-level lighting sets the mood, and built-in waterproof stereo speakers with independent controls enrich the ambiance with immersive sound. Whether chasing the horizon at 40 knots or soaking up the sun at anchor, this sun deck is a showcase of Pershing's signature blend of sport and style.

### Antennas

---

Fully outfitted with a world-class suite of navigation and communication equipment designed to keep you connected, aware, and in command

wherever you cruise, the yacht features a GRP radar arch that houses the radar, multiple antennas, signal equipment, and horn. A primary open-array radar delivers precision navigation and target tracking, complemented by dual GPS antennas for enhanced positioning accuracy. For entertainment, an HD7 SAT TV antenna with a 65 cm dome ensures high-definition viewing at sea, augmented by two TV antennas to support multiple onboard entertainment zones, while Starlink provides unmatched onboard internet connectivity worldwide. Dual domes preserve the yacht's sleek, symmetrical silhouette, and a polished stainless-steel signal mast adds durability and visual appeal, with a dedicated VHF antenna ensuring reliable ship-to-shore and intra-vessel communication. Whether you are cruising offshore or enjoying remote anchorages, STALLION equips you with top-tier systems for seamless navigation, global communication, and entertainment.

## **Main deck/ cockpit/ outside aft dinette**

---

From dockside cocktails to sunset dinners underway, the aft cockpit is designed to impress. With carefully integrated features and a seamless indoor-outdoor flow, this open-air dinette blends luxurious comfort with practical functionality. An expansive L-shaped lounge with integrated storage is wrapped in plush vinyl upholstery and pairs with a convertible high/low GRP dining table that shifts effortlessly from casual lounging to full meals. Aft, a sunbed upholstered in weather-resistant vinyl invites relaxation with a view. A built-in 35L refrigerator tucked beneath the lounge keeps refreshments within easy reach, while a portside BBQ and drink cooler are complemented by a starboard wet bar with sink and an additional cooler box to make entertaining effortless. Overhead, a GRP ceiling with integrated lighting sets the nighttime ambiance, and dual waterproof loudspeakers deliver crisp sound in the open air. Three movable dining chairs provide flexible seating, stainless steel handrails throughout enhance safety while underway, and twin side lockers

secure gear without sacrificing accessibility. Finished in rich teak decking for a timeless, upscale appearance, the cockpit is more than a transitional space—it is an inviting lounge made for entertaining, relaxing, and savoring life at sea.

## Swim platform & boarding features

---

Built for seamless access to the water and effortless boarding, STALLION's hydraulic swim platform is as functional as it is refined, blending innovation, safety, and polished Italian design. Wide teak steps with stainless steel handrails guide movement with confidence and poise, while a telescopic hydraulic passerelle gangway with dual remote controls makes boarding from dock or tender remarkably simple. For discreet water access, an electro-hydraulic hideaway swim ladder is integrated into the starboard sponson, and stainless steel cockpit gates to both port and starboard provide controlled entry and added security. Dockside connectivity is equally considered, with a shoreline power cable (15 m) and a shore water inlet supported by a Glendinning cable management system to ensure clean, tangle-free operation. After a swim, a freshwater tap and an external shower with a hot/cold mixer offer an effortless rinse. More than a technical feature, the swim platform is your launch point for ocean adventures, crafted with the same meticulous attention to detail as every other inch of STALLION.

## Aft mooring station

---

Docking becomes effortlessly precise thanks to a thoughtfully engineered mooring station that blends power, precision, and premium materials. Twin 1700 W capstans with intuitive foot controls deliver smooth, controlled line handling, while dual stainless steel fairleads with integrated rollers optimize line management from every angle. Completing the arrangement are four heavy-duty stainless steel mooring cleats, strategically positioned for a secure

tie-up in any berth.

Designed for confident solo maneuvers as well as seamless crewed operation, this mooring system reflects Pershing's commitment to effortless usability without compromising sleek design or unwavering reliability.

## Tender garage

---

Discreetly integrated into the transom, the tender garage offers seamless access to your toys and tenders, blending convenience with the sleek lines Pershing is known for. A hydraulic tender door enables effortless launch and retrieval, while the space is precisely designed to accommodate both a Williams 345 tender (not included in sale) and a Sea-Doo Spark jetski. An integrated winch-assist system ensures safe, easy handling of the tender and jetski, so whether you are heading ashore or gearing up for watersports, deployment is quick and stowage is secure, maximizing adventure without compromising aesthetics.

## Side walkways

---

Every passage aboard is designed with safety, accessibility, and sophistication in mind—and the teak-clad side walkways are no exception, blending practical systems access with refined detailing to ensure a seamless onboard experience. Underfoot, beautifully finished teak flooring delivers secure footing and visual warmth, while dual electric pantograph side doors provide convenient interior access and a discreet portside entry to the crew quarters maintains an effortless service flow. Stainless steel handrails (Ø 40mm) paired with stanchions (Ø 30mm) enhance safety underway, complemented by twin fiberglass grabrails along the superstructure and integrated LED lighting for elegant nighttime illumination. For confident dock handling, stainless steel fairleads are matched with four mooring cleats, and fresh water, black water,

and dual fuel fill caps are neatly integrated into the deck layout. Signature Pershing logo detailing on both port and starboard sides underscores that these walkways are more than a passage—they are a testament to Pershing's dedication to uniting everyday function with world-class design.

## Bow mooring station

---

Purposefully engineered for performance and practicality, STALLION's bow mooring station delivers robust ground tackle and intelligent storage, all seamlessly integrated into the yacht's sleek forward profile. Dual BRUCE-style anchors of 50kg and 80kg, complete with swivel joints and safety hooks, provide secure holding across varied conditions, while twin 2700W windlasses with waterproof control pads ensure effortless deployment and retrieval. Two galvanized 100m chains (14mm) are neatly housed in the forepeak locker, and a stainless steel bow roller with fairleads featuring integrated rollers guarantees smooth, controlled anchoring operations. Four stainless steel mooring cleats offer reliable dockside tie-up, complemented by a sea water outlet for chain wash and emergency fire suppression within the forward locker. Crew convenience is elevated with a shower inside the forepeak, lateral storage lockers keep lines and gear impeccably organized, and a lockable hatch gives secure access to the spacious bow locker. From offshore anchorage to tight harbor mooring, STALLION's forward deck is built for confident, efficient handling—backed by the strength and sophistication expected from a Pershing.

## Bow lounge and seating area

---

Designed as the ultimate open-air retreat, the bow lounge balances privacy, comfort, and panoramic views—ideal for soaking up the sun or relaxing at anchor. Sink into the expansive U-shaped sofa that frames the foredeck,

paired with a versatile high/low GRP table perfect for casual dining or cocktails under the sun. Additional flanking bench seating welcomes extra guests, while just aft of the lounge an oversized sunpad offers a generous place to unwind, with ample storage concealed beneath and accessed via a hydraulic hatch. Practicality continues with twin storage lockers to port and starboard for stowing gear or cushions, and a bimini shade with support poles delivers coverage on demand without compromising the yacht's clean aesthetic. Safe movement underway is assured by a stainless steel handrail (Ø 40mm) with stanchions (Ø 30mm), and an external shower with mixer tap stands ready for a refreshing rinse after sunbathing. Teak flooring lends a rich, classic finish to the forward deck, enhanced after dusk by LED lighting that sets an elegant mood, while two waterproof speakers with independent controls let you personalize the soundtrack to every moment. From sunrise lounging to starlit conversations, this bow seating area invites you to enjoy life on the water in signature Pershing style.

## Main salon

---

The main salon is an elegant fusion of Italian craftsmanship, advanced technology, and refined comfort, perfectly tailored for upscale entertaining or quiet evenings at sea. A generous U-shaped sofa pairs with eight Poltrona Frau leather chairs to create a luxurious, social seating arrangement around a formal glass dining table with seating for eight. Entertainment is anchored by an integrated 43-inch LED TV on an electric lift, seamlessly concealed within portside cabinetry, and a Dolby Surround 5.1 audio system with SAT/TV decoder and centralized iPad control delivers a cinematic onboard experience. Ambient illumination comes from built-in LED ceiling spotlights complemented by two stylish table lamps, while the ceiling and side walls are upholstered in fine leather for a sophisticated, tactile finish. Parquet flooring with a custom rug under the seating area enhances the yacht's residential feel, and elegant

cabinetry in wood essence with glass tops to port and starboard offers refined storage. Climate is managed by a digitally controlled air-conditioning system, with electric fabric roll curtains providing effortless privacy and light control. An integrated 75-liter fridge and a freshwater-connected ice maker ensure convenient service, supported by full cutlery, glassware, and porcelain sets for twelve housed in dedicated custom wood racks. Connectivity throughout is effortless thanks to an intercom cordless system. Framing the space with natural light and captivating views, monolithic/stratified tempered side windows lead the eye aft to a stainless steel and tempered glass sliding door, creating a sleek, seamless transition to the cockpit.

## Helm station

---

At the helm, performance meets precision in a command center conceived for total control and sophisticated navigation. Leather and carbon look finishes frame a cockpit that channels Pershing's racing DNA, with every surface and interface dedicated to the driver's experience and authority.

Three multifunction 19" touch displays orchestrate radar, GPS, chart plotting, echo sounding, monitoring systems, and engine and surface drive data, while a dedicated 16" touchscreen governs engine and surface drive control for decisive responses at speed. The NAVIOP integrated data and alarm management system consolidates information with effortless clarity, supported by autopilot and electronic engine levers for relaxed long range passages. Surface propeller and interceptor trim joysticks allow fine tuned performance, and a bow thruster joystick with tiller ensures precision handling in close quarters. A Poltrona Frau leather pilot seat is flanked by two co pilot seats, each with double electric adjustment, facing carbon look instrument panels that host matte finish CASE monitors, depth and speed indicators, and a leather wrapped helm wheel that delivers a confident, tactile grip. A GRP dashboard wrapped in stitched leather adds a modern, refined finish,

complemented by a compass and glove compartment for classic practicality. For visibility and safety, an engine room remote camera feeds directly to the navigation screen, and a transparent tempered glass windshield with two wipers and washers guarantees all weather clarity. Connectivity is seamless via an integrated internet system (GPRS/UMTS) with onboard WiFi and a LAN data network, while a VHF radio and USB socket provide essential communication and device support.

Every element is engineered for assured command, whether slicing through open seas at over forty knots or gliding into port with unwavering precision.

## Day head

---

Entered through a sleek sliding door, the day head exudes refinement with a lacquered ceiling illuminated by built-in LED ceiling spotlights and a soft-touch light switch panel for effortless ambiance control. Ventilation and natural light are thoughtfully balanced by an air extraction outlet and a window with porthole, discreetly dressed with manual aluminum Venetian blinds and served by a dedicated curtain compartment set within a lacquered curtain frame. Practical elegance defines the appointments, including a porcelain sink, a mirror, a toilet complemented by an electric WC in porcelain, and a towel rack, while comfort is assured by a digitally controlled A/C system. Durable yet inviting finishes include a GRP floor covered with parquet and walls clad in laminate panels, completing a space that is both beautifully crafted and inherently functional.

## Companionway

---

The companionway is thoughtfully appointed, featuring a built-in linen closet along the port bulkhead and discreet floor storage integrated beneath the passage. Overhead, LED ceiling lights illuminate vinyl fabric ceiling panels, with

conveniently positioned light switches providing effortless control. The walls are elegantly finished in wallpaper and mirrors to amplify light and space, while a resilient wood vinyl floor delivers a warm, refined footing for everyday use.

## VIP cabin

---

The VIP cabin aboard STALLION offers a refined, private sanctuary for guests, blending contemporary design with premium materials and state-of-the-art amenities for a five-star onboard experience. A centerline double berth with an upholstered headboard and generous under-bed storage anchors the space, complemented by a custom mattress, pillows, and bedcover for plush comfort. Forward, upholstered leather seating creates a cozy lounge nook, while a 32-inch LED TV with an integrated audio/video system, SAT/TV decoder, and built-in mini Hi-Fi delivers immersive entertainment. A digitally controlled air conditioning system pairs with dimmable lighting to shape a personalized ambiance, supported by dual built-in speakers and focused reading lights for added ease.

Electric fabric roll curtains and blackout shades ensure complete light control, while large hullside windows to port and starboard flood the suite with natural illumination. For fresh air, two opening stainless steel portholes with mechanical hooks offer secure ventilation, and an overhead escape hatch with a hinged Plexiglas cover, hideaway ladder, and internal and external handles provides practical safety and convenience. Thoughtful storage abounds, including a hanging locker with a mirrored door, internal shelving, and an LED-lit clothes rail, as well as an additional wardrobe with a paneled interior and integrated digital safe. Two nightstands with glass tops and soft-touch lighting controls flank the berth, and a mirror on the starboard bulkhead adds depth and elegance. Finishes are exquisitely executed, with a vinyl and lacquered wood ceiling detail paired with wallpapered and wood essence

walls, a GRP structural floor wrapped in plush carpeting, and an elegant entry door in wood essence with chrome hardware and a thumb lock. Polished wood essence furniture and integrated storage are thoughtfully arranged throughout, and a cordless intercom system ensures seamless communication.

The VIP suite is a true retreat, elevating guest accommodations with Pershing's signature mix of comfort, craftsmanship, and cutting-edge design.

## VIP ensuite

---

The VIP ensuite aboard STALLION is thoughtfully conceived to evoke a high-end boutique hotel, blending refined materials with intelligent functionality for effortless comfort and elegance. A porcelain washbasin with a modern chrome faucet is set within a wood essence vanity topped by a glass countertop and fitted with internal storage, while a full-size tempered glass shower enclosure showcases mosaic walls, an integrated seat, and both handheld and rainfall showerheads. Manually operated aluminum Venetian blinds provide privacy without compromising style, and a digitally controlled A/C outlet maintains the ideal climate at all times. A porcelain electric toilet is complemented by matching accessories, including a toilet roll holder, brush holder, and toothbrush rack, as dual towel rails and a built-in soap dish keep everyday essentials close at hand. Natural ventilation flows through an opening stainless steel porthole with a mechanical hook, and the structural GRP floor with a rich parquet finish imparts a warm, residential touch. Laminated walls accented by mosaic and lacquered framing harmonize with a white lacquered ceiling illuminated by LED spot lighting for a bright, polished atmosphere, while soft-touch lighting control panels add intuitive ease. Access is through a wood essence door with a thumb lock and chrome accents, and practical amenities such as two clothes hooks and a curtain storage compartment are complemented by a hanging locker with a mirrored door

and internal shelving for guest convenience. Stylish, serene, and impeccably finished, the VIP ensuite completes the guest experience aboard STALLION with the meticulous detail expected of a yacht of her caliber.

## Port guest stateroom

---

Smartly conceived for versatility and comfort, STALLION's port guest stateroom is a beautifully appointed retreat where innovative sliding twin beds glide together to create a generous queen berth, each framed by leather headboards. Entertainment is effortless with a 28-inch LED TV featuring an integrated SAT/TV decoder, a mini Hi-Fi system, and dual built-in speakers, while a digitally controlled air-conditioning system ensures personalized climate control. Electric fabric roll curtains pair with blackout shades to provide restful privacy, and a cordless intercom system keeps communication seamless throughout the yacht. Illumination is refined and intuitive, thanks to LED ceiling lights managed by soft-touch control panels and dual reading lights that deliver tailored nighttime comfort.

Refined materials elevate the ambiance, with walls wrapped in a warm wood essence and textured wallpaper, ceiling panels finished in vinyl with lacquered wood framing, and carpeted flooring that softens the space underfoot. Thoughtful details include twin nightstands with elegant surfaces and ample bedside storage, an opening stainless steel porthole secured with a mechanical hook to invite natural airflow, and a mirrored starboard bulkhead that enhances both depth and light. A full-height wardrobe with interior lighting, laminate paneling, a clothes rail, and well-planned storage completes the space. With its flexible layout and luxury finishes, the port guest stateroom ensures every guest enjoys a refined and relaxing stay aboard STALLION.

## Port ensuite

---

Designed with the same meticulous attention as the owner's accommodations, the port guest ensuite exudes a private, spa-inspired ambiance where high-end finishes and intelligent space planning unite. A porcelain washbasin with a chrome faucet is set into a refined wood-essence vanity crowned by a glass countertop with discreet internal storage, while a mosaic-lined shower enclosure—closed by a tempered glass door—offers both a rainfall showerhead and a handheld spray. Climate is finely tuned via a digitally controlled air conditioning outlet, and a porcelain electric toilet is complemented by coordinated accessories, including a toilet roll holder, brush holder, and toothbrush rack.

Practical elegance continues with two towel rails and a dedicated soap dish, manual aluminum Venetian blinds partnered with an opening stainless steel porthole to balance natural light and ventilation, and structural GRP flooring overlaid with graceful parquet to impart a residential feel. Illumination is provided by LED ceiling lighting operated through soft touch panel controls, set beneath a ceiling finished in smooth white lacquer for a crisp, polished look. The interior walls harmonize laminated panels, mosaic accents, and a lacquered curtain frame, supported by a white laminate curtain storage compartment that keeps soft goods neatly stowed. Storage solutions include a hanging locker with a mirrored door and integrated shelving, while access is via a wood essence door detailed with chrome hardware and a thumb lock; chrome interior door stops and two integrated clothes hooks complete the premium specification.

Beautifully appointed and thoughtfully laid out, the port guest ensuite mirrors the yacht's overarching standard of excellence, delivering comfort, functionality, and an undeniably refined aesthetic.

## Starboard guest stateroom

---

The starboard guest stateroom aboard STALLION offers flexible accommodations and high-end finishes, comfortably sleeping up to three and making it ideal for family or additional guests. Twin single beds with leather-upholstered headboards are complemented by plush mattresses, pillows, and bedcovers, while a discreetly integrated Pullman berth provides a third sleeping option without sacrificing floor space.

Entertainment and comfort are thoughtfully curated with a 28" LED TV with SAT/TV decoder, a mini Hi-Fi system, and built-in stereo speakers, alongside a digitally controlled A/C system for personalized climate comfort. Electric fabric roll curtains and blackout shades manage light and privacy with ease, and an intercom cordless system ensures seamless onboard communication. Soft-touch light switches and ambient LED ceiling lights deliver modern illumination, while focused reading lights and a shared nightstand add bedside convenience.

An opening stainless steel porthole with mechanical hook invites fresh sea air, and a mirror on the aft bulkhead enhances the sense of space and light. The ceiling is finished in vinyl with lacquered wood framing for a tailored, upscale appearance, and the walls are clad in warm wood essence and wallpaper for a refined, residential feel. Thoughtful storage comes via a full-height wardrobe in wood essence with internal lighting and a clothes rail, while a structural GRP floor finished with plush carpeting adds comfort and warmth. Thoughtfully designed to balance function and style, this inviting and versatile space is perfect for young guests, crew overflow, or additional family members.

## Starboard ensuite

---

Thoughtfully conceived for privacy and comfort, the starboard ensuite wraps guests in luxury materials and top-tier functionality. A porcelain washbasin is

set within a wood essence vanity crowned by a sleek glass countertop with internal storage, while a fully enclosed shower, protected by a tempered glass door, showcases mosaic walls and a built-in seat. The shower is equipped with both an overhead showerhead and a handheld spray, complemented by an integrated soap dish.

Climate remains consistently comfortable via a digitally controlled A/C outlet, and an electric porcelain WC is paired with chrome accessories including a toilet roll holder, brush holder, and toothbrush rack. An opening stainless steel porthole with mechanical hook ushers in fresh air and natural light, with manual aluminum Venetian blinds providing privacy on demand. LED ceiling lighting, managed through soft-touch control panels, sets the mood, as a structural GRP floor finished in elegant parquet anchors the space. Walls blend laminate paneling, mosaic detailing, and lacquered framing beneath a bright white lacquered ceiling. Storage is generous, with a hanging locker featuring a mirrored door and internal shelving, alongside a curtain storage compartment in white laminate, while two towel rails and dual clothes hooks offer practical convenience. Entry is via a wood essence door with thumb lock and chromed hardware, delivering a seamless, refined finish. With its refined design and upscale finishes, the starboard ensuite offers the comforts of a private spa, elevating the guest experience aboard STALLION.

## Master suite

---

Spanning the full beam of the yacht, the Master Suite is a tranquil, luxuriously appointed retreat that blends rich materials with cutting-edge technology and thoughtfully crafted living space. A centerline double bed with a leather-upholstered headboard and generous under-bed storage anchors the room, while a custom-designed audio visual system delivers immersive entertainment through Dolby Surround Sound 5.1, a 43 inch LED TV, SAT/TV decoder, and intuitive iPad based control. Personalized comfort comes

courtesy of a digitally controlled A/C system, and electric fabric roll curtains paired with blackout shades ensure complete privacy and light management. Large fixed side windows in tempered glass flood the suite with natural light, complemented by twin opening stainless steel portholes for fresh-air ventilation.

Abundant, well-conceived storage includes a portside hanging closet with mirrored door and a separate built-in locker, alongside portside wood essence cabinetry with a glass top, leather-trimmed doors, and internal shelving. Dual nightstands with glass tops, reading lights, and soft-touch lighting controls frame the bed, while a leather-upholstered ottoman and starboard chaise lounge invite relaxed moments at sea. The ambiance is elevated by elegant ceiling panels finished in vinyl fabric with lacquered wood framing, a stern bulkhead mirror that enhances light and depth, and a custom TV wall that unifies the design, with wood essence-lined stairs adding warmth and continuity. Practical luxuries—a discreet integrated refrigerator, a built-in digital safe, and a cordless intercom system—are seamlessly incorporated, and soft carpet overlays the structural GRP floor to lend a warm, residential feel. Private, spacious, and meticulously detailed, the Master Suite delivers the comfort of a luxury penthouse with the unmistakable styling and craftsmanship that define Pershing.

## Master ensuite- portside

---

The portside master ensuite is a beautifully appointed sanctuary that mirrors the refinement of a five-star hotel, its premium materials and intelligent design elevating every moment aboard. A spacious walk-in shower with a tempered glass enclosure features mosaic-lined walls, built-in seating, and dual showerheads—rainfall and handheld—for a truly indulgent experience. A porcelain electric WC pairs with a matching bidet, complemented by upper cabinetry for discreet storage, while a porcelain washbasin is set into a wood

essence vanity topped with a glass countertop and served by an internal locker.

Fixed tempered glass side windows are paired with an opening stainless steel porthole to invite natural light and fresh air, and manual aluminum Venetian blinds provide effortless privacy control. LED ceiling lighting, managed by a soft-touch control panel, sets a modern ambiance over structural GRP flooring finished in elegant parquet, with walls crafted from rich laminate and mosaic detailing, framed by lacquered curtain surrounds. A white lacquered ceiling brightens the space, and sound-insulated stern bulkheads ensure a peaceful onboard experience. A large wall mirror and dedicated towel rail enhance comfort and usability, while a curtain storage compartment and dual chrome clothes hooks add thoughtful functionality. Access is through a lacquered wood essence door with refined hardware. Combining sophistication, comfort, and intelligent design, the portside master ensuite is a true expression of Pershing's dedication to luxurious living at sea.

## Master ensuite – starboard

---

The starboard master ensuite aboard *STALLION* is conceived as a refined extension of the owner's suite, its elegant finishes, premium fixtures, and thoughtful functionality striking a flawless balance between comfort and style. A walk-in shower with a tempered glass door encloses full mosaic-lined walls and floor, and features two showerheads—rainfall and handheld—for a tailored experience. Nearby, a porcelain electric WC and matching bidet are complemented by overhead cabinetry that keeps essentials discreetly stowed. A porcelain washbasin with a modern chrome faucet is set within a sleek wood essence vanity complete with an internal locker for organized storage. Natural light pours through fixed tempered glass side windows, while an opening stainless steel porthole ushers in fresh air; manual aluminum Venetian blinds provide effortless control of light and privacy. LED

ceiling lights and soft-touch panel switches create ambient, intuitive illumination, joined by a mirror and built-in soap dish for everyday convenience. Underfoot, parquet-style flooring over structural GRP introduces a warm, residential character, while walls finished in a sophisticated mix of laminate panels with mosaic detailing and lacquered curtain frame accents are crowned by a white lacquered ceiling that brightens the room with a crisp, modern sheen. Sound-insulated stern bulkheads preserve serenity throughout the suite, and practical finishing touches—an integrated curtain compartment, two chrome clothes hooks, a towel rail, and an A/C system outlet—enhance functionality and personalized climate control. Private and tranquil, the starboard master ensuite reflects a luxurious spirit, delivering all the comforts of home wrapped in Pershing's signature style.

## Galley and crew area

---

Designed for seamless service and everyday comfort, the galley and crew area is entered through a dedicated crew access door and finished with a durable vinyl wooden floor, a vinyl-fabric ceiling, and walls covered in vinyl fabric. A bench with backrest and storage pairs with a foldable, height-adjustable table to create a practical dining and planning spot, while a hanging locker with door and internal shelves keeps essentials neatly organized.

The culinary suite features a ceramic glass hob with four burners, an electric vented oven with tempered glass and stainless steel door, a 230 V extractor fan with external outlet, and a stainless steel sink. Cold storage is generous with a full-size refrigerator and a full-size freezer with eight drawers, supported by a dishwasher and a washer/dryer for effortless provisioning and turnover. Built-in ceiling LED lights and spotlights beneath the shelves illuminate every work surface, easily managed via a soft-touch light switch panel, while a digitally controlled air-conditioning system maintains the perfect climate. For downtime and communication, the space is outfitted with an audio-video

system, a SAT TV decoder with remote control, a 24-inch LED TV, a 60 Hz mini hi-fi, and two built-in circular loudspeakers, complemented by a cordless intercom system for smooth coordination throughout the yacht.

## Captain's cabin

---

Thoughtfully appointed, the captain's cabin features built-in ceiling LED lights that illuminate a ceiling wrapped in vinyl fabric, complemented by walls also finished in vinyl for a cohesive, easy-care ambiance. Climate is managed by a digitally controlled air-conditioning system, while illumination is intuitive via a soft-touch light-switch panel and a focused reading light. Entertainment comes courtesy of a mini hi-fi CD system and two JL speakers. Practicality is evident in the single bed with storage underneath, a digital safe for valuables, and a dedicated door providing access to the captain's cabin. Natural light and ventilation flow through a port-side glass window and an opening stainless-steel porthole equipped with a mechanical hook, both shaded as needed by manual aluminum Venetian blinds. The space is completed by a durable vinyl wood floor, blending warmth with resilience.

## Captain's bathroom

---

Illuminated by built-in ceiling spotlights set into a lacquered ceiling, the captain's bathroom combines refined finishes with purposeful practicality. A walk-in shower and a toilet complement a pristine sink fitted with a pull-out mixer tap with hanger on the wall, while a mirror crowns generous storage arranged both above and under the sink. Organization is enhanced by a hanging locker in laminated wood with opening doors, and comfort is elevated by soft-touch light switch panels. Natural light and fresh air stream through an opening porthole in stainless steel with mechanic hook, with privacy assured by manual aluminum Venetian blinds.

## Double crew cabin

---

This thoughtfully appointed double crew cabin offers accommodations with two single-berth bunk beds and a single bed with a chest of drawers, illuminated by LED spotlights and complemented by two reading lights. Climate comfort is assured by a digitally controlled air-conditioning system, while entertainment comes via a TV, a mini hi-fi CD player, and sound delivered through two JL speakers. Natural light filters through a starboard-side window glass panel and an opening stainless-steel porthole with mechanical hook, both shaded as desired by manual aluminum Venetian blinds. Practical touches include soft-touch light-switch panels, a locker with a lacquered door and clothes rail, and a hinged door providing convenient access to the crew cabin. The space is finished with a structural GRP floor covered with vinyl and walls wrapped in vinyl fabric, creating a durable and refined environment.

## Crew bathroom

---

Thoughtfully appointed for daily ease and lasting durability, the crew bathroom welcomes you through a lacquered door to a refined space where laminate-clad walls and a lacquered ceiling are illuminated by built-in ceiling spotlights. A teak-covered floor adds warmth underfoot, while soft-touch panel light switches provide effortless control. Natural ventilation and light flow through an opening stainless-steel porthole secured with a mechanical hook, complemented by manual aluminum Venetian blinds for adjustable privacy. Practicality meets polish with an electric WC in porcelain alongside a toilet, both served by a toilet brush holder and a toilet roll holder. The walk-in shower features a pull-out mixer tap with hoses and a fixing point on the wall for precise functionality. The sink sits within elegant washbasin furniture in white lacquered wood with doors and a shelf, supported by storage above and below the sink and paired with a mirror for a crisp, orderly finish. An ivory lacquered

wood hanging locker with doors keeps essentials neatly stowed, while two towel racks ensure everything remains within easy reach.

## Engine room

---

Meticulously engineered for performance and reliability, the engine room features a 24V air compressor and air intakes with a condensation removal system supporting two MTU 16V2000 M96L diesel engines rated at 2638mhp. Power management and autonomy are assured by two 28KW Kohler generators, with the port unit showing 1800 hours and the starboard 2300 hours, while two Seakeeper #9 units deliver exceptional stabilization. An A/Sea shorepower frequency converter and a Dometic chiller plant A/C system, backed by two E/pumps for the A/C electric extractor, ensure seamless onboard comfort, complemented by a watermaker for extended cruising independence. Refinement continues with two engine exhaust mufflers, two stainless steel engine exhaust raisers, and two stainless steel protection rails and supports around the engines, all set over a floor covered with an aluminum non-skid surface for safety and serviceability. Hydraulic sophistication includes a hydraulic oil heat exchanger, a dedicated hydraulic unit for the platform, trims, interceptors, and steering, along with separate hydraulic units for the gangway, garage door, aft door, and swim ladder. Access and control are enhanced by a light alloy waterproof door and thoughtfully placed light switches, while oversight and illumination are elevated by two waterproof cameras interfaced with the helm station and eight waterproof fixed LED lights.

## Propulsion

---

Power is delivered by two six-bladed propellers paired with the Top System Surface Drive System with Automatic Trim (Easy Set), unlocking swift

acceleration and efficient high-speed cruising. Electrohydraulic steer-by-wire steering provides fingertip precision, while a hydraulic bow thruster ensures confident maneuvering in tight quarters. Two interceptor correctors finely tune the running attitude for optimal trim, stability, and efficiency across varying sea conditions.

## Description

---

Power, precision, and pedigree—STALLION lives up to her name in every way. This 2022 Pershing 9X is a striking showcase of Italian engineering and design, pairing an aggressive profile and 42-knot performance with the luxury and innovation that define the Pershing brand.

Powered by twin 2,638 hp MTU M96L engines and stabilized by two Seakeeper 9 gyro stabilizers, STALLION delivers an exceptionally smooth ride at speed, while Xenta joystick control ensures confident handling in tight quarters. With both upper and lower helm stations supported by a full suite of cutting-edge electronics, she is as comfortable threading a marina as she is charging offshore, with a 35-knot cruise and the range and capability to explore from coast to coast or across the Atlantic.

A shore power frequency converter provides true global compatibility, underscoring her world-cruising credentials. Originally delivered in Europe and cruised through the Mediterranean, she has since crossed to the U.S. and now actively navigates the East Coast under the care of a full-time, experienced captain.

The 9X's sleek lines conceal a remarkably expansive interior featuring four ensuite staterooms with accommodations for up to three crew, a spacious salon complete with a full wet bar, and signature Italian detailing throughout—including the Poltrona Frau-designed "Interior in Motion" helm station. Outdoors, a large sundeck and generous aft lounging areas elevate her sociable spirit, while a tender garage streamlines waterside adventures. Her

Anniversary Silver Metallic paint underscores the yacht's modern, muscular aesthetic, and a chiller air-conditioning system keeps every space perfectly tempered.

Key equipment and specifications affirm her pedigree: twin MTU M96L engines showing 950 hours as of 10/24 with an extended MTU engine warranty through May 2026 or 1,400 hours, dual 28 kW Kohler generators, two Seakeeper 9 gyro stabilizers, Xenta joystick steering, a shore power frequency converter for global operation, a watermaker with new membranes in 2024, a wet bar in the salon, a tender garage, and a four-stateroom plus three-crew layout. Top speed is 42 knots with a 35-knot cruise.

Recent care reflects meticulous ownership. In December 2024 she received a fresh bottom job with two coats, prop speed on the drives, Top system drive service at one thousand hours, the MTU one thousand-hour engine service, full generator servicing, Seakeeper servicing, and a watermaker service with new membranes. In December 2023 the drives were serviced, bottom paint and new zincs were applied, the propellers were reconditioned with prop speed, the five hundred-hour engine service and Seakeeper service were completed, and new carpet was installed in the master stateroom. From performance and equipment to cosmetics and service, STALLION is comprehensively dialed in and ready for her next owner.

## Exclusions

---

The owner's personal effects do not convey with the vessel. Any articles observed aboard or depicted in photography that are not expressly identified within the listing inventory are to be regarded as excluded from the sale. A comprehensive exclusion schedule will be furnished upon receipt of a formal offer.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.

For more information and to view available yachts, you can visit the company's official website: <https://shestakovyachtsales.com>
