OVERVIEW

DOUBLE BARREL is a distinguished 2016 Viking 92 Enclosed Bridge convertible that blends serious blue water sportfishing capability and assured performance with the space, finish and comfort of a much larger motor yacht. Propelled by twin MTU 16V2000 M96L engines rated at 2,635 hp each and protected under MTU EPC through May 31, 2028 or 6,000 hours (whichever occurs first), she pairs formidable power with a bespoke high gloss walnut interior and a climate controlled, custom enclosed bridge that elevates the onboard experience. Carefully modernized with an emphasis on speed, systems and serenity, DOUBLE BARREL benefits from a Seakeeper SK40 installed by the Viking Service Center in 2024 and the addition of Omni Sonar the same year, while her electronics suite was upgraded with new Garmin black boxes, radar, a Garmin 8616 tower display and a GSD 28 sounder module, complemented by Seatronx displays at the enclosed bridge and aft mezzanine in 2024 and a NAV ROCK navigation computer configured for Nobeltec in 2026. Cruising efficiency and maneuverability are improved by a hydraulic bow thruster and a four tank fuel system with integrated fuel polishing, and offshore reliability is reinforced by twin 55 kW generators that received top end overhauls and new injectors in 2023, all three A/C chillers renewed between 2025 and 2026, a SeaStrong centralized seawater pump system with new seawater manifolds in 2025 and an ElectroSea strainer installed in 2025. Tournament ready features and owner conveniences are extensive, including a davit for tender handling, sixteen Lumishore underwater lights replaced in 2024, fresh exterior soft goods in 2024, and an 1,800 GPD watermaker paired with a custom Dometic double pass Spot Zero system. With a vast cockpit rigged for offshore fishing, sumptuous accommodations, and the range and systems to support extended cruising or hosting guests in absolute comfort, DOUBLE BARREL delivers the poise, precision and refinement expected of a world class enclosed bridge convertible

sportfisherman.

DOUBLE BARREL

DETAILED DESCRIPTION

Updates

In 2026 the yacht received significant mechanical and convenience upgrades, including the replacement of chillers two and three; these units remain covered by the factory parts-and-labor warranty through January 2027 and retain parts-only coverage until January 2028. That year also saw the addition of a Garmin GSD 28 sounder module, installation of new Krypto Quiet cutlass bearings in June 2026, a Scotsman clear ice maker fitted in the salon, fresh shore cords, and a NAV ROCK navigation PC configured for Nobeltec.

The 2025 refit focused on comfort and seawater-system reliability, with Rite Air Marine climate systems installed throughout and chiller one professionally replaced. An Electro Sea strainer was added and the seawater plumbing was enhanced with Seastrong centralized seawater pumps and brand-new seawater manifolds. Both KRA refrigeration units were exchanged under warranty, carrying two years of parts coverage and one year of parts-and-labor coverage, and the fighting chair was carefully stripped and refinished to like-new condition.

In 2024 the helm and tower underwent a comprehensive electronics renewal: all new Seatronix displays were installed at the bridge and aft mezzanine, a Garmin 8616 was placed in the tower alongside two Garmin seven-inch overhead displays. A MAQ Omni sonar complemented the electronics suite, while US DC-9 24V teaser reels were fitted in the tower. Stability and seakeeping were enhanced with the addition of a Seakeeper SK40. Underwater lighting was modernized by replacing sixteen Lumishore lights with the latest models. The propulsion train was rigorously serviced as the shafts were removed, trued, and reinstalled with new Krypto Quiet bearings and thru-shaft bearings; Tides seals were renewed with all serviceable components replaced.

The ZF transmissions received a W4 service and were fitted with new Vulcan couplers, and the exterior was refreshed with new soft goods.

During 2023 navigation capability was advanced with the installation of two new Garmin black boxes and an upgraded Garmin radar, while the hull bottom was sandblasted, re-barrier coated, and finished with Seahawk Bi-Cop. Both generators received top-end overhauls including new injectors to restore reliable power generation.

Interior refinements continued in 2022 with the salon sofa reupholstered, and in 2021 all carpets and padding were replaced and the toe rail was artfully finished with faux painting to complement the yacht's elegant aesthetic.

Decor

The Prestige Décor Package establishes an air of refined luxury, featuring walnut wood throughout finished in a rich gloss that accentuates the timber's natural grain. At the galley bar, custom barstools upholstered in Brisa in Black Onyx provide a dramatic, contemporary counterpoint, while bespoke wallpaper introduces a tailored sophistication to the ambience. A custom-upgraded Dewberry sofa offers a welcoming place to relax, complemented by a custom headliner in Pearl Finesse Legend White that lifts and brightens the interior. Brushed nickel hardware throughout lends a subtle modern sheen, and LED interior lighting installed throughout delivers efficient, evenly balanced illumination.

Salon

The salon is appointed with custom Amtico flooring that establishes a refined foundation, while expansive Calcotta White Marble surfaces introduce a luminous layer of sophistication. A salon door fitted with an electric door opener assures seamless circulation, and quartz lights with dimmers allow the

mood to be tuned from a gentle glow to full brightness. Entertainment is centered on a 65-inch flat-screen television, thoughtfully accompanied by dedicated liquor cabinets and a wine cooler to facilitate effortless entertaining. Electric blinds grant privacy at the touch of a button, and strategically placed USB outlets ensure every device remains powered and conveniently accessible.

Galley

The galley is an elegant culinary sanctuary, anchored by polished stainless-steel bar stools that grace the Calacotta countertop and bar area, with matching Calacotta white flooring beneath. Meal preparation is elevated by a KitchenAid cooktop and oven paired with a four-burner surface-mount range, while a Brew Express coffee maker ensures effortless mornings. A stainless steel undermount double-bowl sink fitted with a satin nickel faucet makes cleanup seamless, and a built-in trash compactor preserves a pristine workspace. Cold storage is provided by a Sub-Zero freezer unit discreetly housed in the pantry, and the room is finished with Glazzio beveled backsplash tile that imparts a luminous, refined sheen.

Dinette

The dinette exudes refined elegance, centered on a stainless inlay seamlessly integrated into the tabletop; a discreet A/C receptacle tucked beneath the surface provides convenient access to power, and the overhead LED lighting, fitted with a dimmer, lets you subtly and effortlessly tailor the ambiance.

Day head

This day head radiates refined luxury, with custom Calacotta White flooring underfoot matched by a coordinating custom Calacotta vanity top that echoes

the flooring's palette. Meticulous details, including a custom toilet paper fixture recessed seamlessly into the vanity face, maintain a pristine, uncluttered appearance. A brushed nickel faucet is paired with brushed nickel towel bars and rings to complete a cohesive, contemporary finish.

Utility room

Beneathfoot, resilient Amtico flooring delivers a durable, low maintenance surface engineered to withstand the rigours of life at sea, while strategically located 110-volt outlets ensure a consistent and dependable supply of power for essential appliances and everyday tasks.

Companionway

The companionway features horizontal wood slats integrated between the wall panels, generating a crisp, linear cadence that underscores meticulous, bespoke joinery, while a solid wood toe kick at the steps delivers robust protection and serves as a deliberate, sculpted visual accent.

Master stateroom

Designed for luxurious repose, the master stateroom features a Viking Slumber #8 mattress flanked by elegant wooden end tables, while a 65-inch flat-screen television delivers immersive onboard entertainment. A secure safe is provided for personal valuables, and a walk-in closet with keypad access ensures tidy, private stowage. Beneath the bunk, dedicated lights illuminate storage that is engaged by a magnetic switch, and doors to the outboard side of the desk reveal additional storage space fitted with a shelf and a convenient electrical outlet.

Master stateroom head

A mirrored ceiling bathes the space in light and creates an expanded sense of volume, while a frameless glass shower door opens onto shower walls and flooring clad in Calacotta white marble. Satin nickel shower fittings and a coordinating faucet introduce a soft, refined sheen, and a Calacotta vanity top unifies the bathroom's material palette. Brushed nickel towel bars and rings complete the design, marrying practical convenience with quiet, sophisticated detail.

Forward stateroom

The forward stateroom is thoughtfully styled around an Island Queen Bunk, with Custom Amtico Arow 7890 Pier Oak Straight Plank Flooring flowing beneath to impart a warm, contemporary sheen and a sophisticated, continuous elegance throughout the cabin.

Forward stateroom head

The forward stateroom head features Calacotta White Marble flooring and coordinating Calacotta White Marble shower walls, forming a serene, luminous retreat that elevates everyday routines into moments of refined, enduring luxury.

Port stateroom

Stepping into the port stateroom, custom Amtico flooring and refined Calacotta nightstand tops set a tone of immediate sophistication. Rest comes effortlessly on the Viking Slumber #6 mattress, while a 48-inch flat-screen television supplies crisp onboard entertainment. Electric, room-darkening

blinds offer seamless control of light and privacy, and storage has been carefully considered throughout—ranging from dedicated locker storage to under-bunk stowage illuminated by integrated lights and managed by a convenient magnetic switch.

Port stateroom head

The port stateroom head is appointed as an elegant retreat, where brushed nickel towel bars and rings accent a Calcotta White vanity top positioned beneath a mirrored ceiling that amplifies light and polish. Overhead LED fixtures are fitted with dimmers to tailor the ambiance, while bespoke Amtico 7890 Pier Oak flooring lends inviting warmth and long-lasting resilience underfoot. A chrome shower door harmonizes with satin nickel shower fittings and a coordinating faucet, creating a cohesive, contemporary sanctuary.

Port aft stateroom

The port aft stateroom is appointed with custom Amtico flooring and nightstands finished in Calacotta, while a luxurious Viking Slumber #6 mattress promises truly restorative nights. A 48-inch flat-screen television provides onboard entertainment and electric, room-darkening blinds deliver effortless control over light and privacy. Practical storage has been finely integrated, with locker compartments and under-bunk space illuminated by lights and secured with a magnetic switch.

Port aft head

Refined yet highly functional, the port aft head is fitted with brushed nickel towel bars and rings that complement satin nickel shower fixtures and faucet, all set off by a polished chrome shower door. Overhead LED lighting includes

dimmer controls to tailor the ambience, the softened illumination playing across a mirrored ceiling. Underfoot, custom Amtico 7890 Pier Oak flooring brings warmth and texture, while a Calcotta White vanity top completes the immaculate, luxurious composition.

Starboard stateroom

The starboard stateroom is appointed with custom Amtico flooring and Calacotta nightstand tops, forming an understated, luxurious backdrop anchored by a Viking Slumber #6 mattress. A 40" flat-screen television provides private entertainment while electric blinds adjust light and privacy with ease. Practicality is woven into the design with ample locker storage and under-bunk storage that is lit and activated by a magnetic switch, complemented by a quad 110-volt outlet strip beneath the bed for convenient device charging. Sleeping options are enhanced by a Pullman bunk, and the layout extends functionality beyond the cabin with a captain’s common area that allows direct passage through to the engine room.

Stateroom head

Every element of the stateroom head has been selected to convey restrained luxury: Calcotta White marble underfoot continues onto a matching Calcotta White vanity top, while a mirror ceiling magnifies light and a sense of space. Brushed nickel towel bars and rings add a polished metallic accent, and overhead LED lighting fitted with dimmers allows the atmosphere to be adjusted from bright and functional to a soft, spa-like glow. A sleek chrome shower door delineates the bathing area, complemented by satin nickel shower fixtures and a coordinating faucet for a unified, contemporary finish.

Crew area

Meticulously arranged for both comfort and practicality, the crew quarters are finished with Amtico flooring in the private stateroom and robust Pirelli flooring throughout the communal spaces. The dedicated stateroom is luxuriously appointed with a Viking Slumber #6 mattress, generous drawer storage and a 22 inch flat screen television. The crew galley, complete with dining table, is comprehensively equipped with a microwave convection oven, refrigerator/freezer, and a Kenyon cooktop served by its own exhaust fan, alongside a sink with garbage disposal. Daily chores are simplified by an integrated washer/dryer combo, and a secure safe adds an extra layer of assurance.

Crew head

Custom Amtico flooring extends throughout the crew head, offering refined footing beneath, while the bathing area is defined by a chrome shower door. Satin nickel shower fixtures and a coordinating faucet impart a subtle, long-lasting sheen, and brushed nickel towel bars and rings provide polished, cohesive accents that elevate the space.

Enclosed flybridge

The enclosed flybridge is a sophisticated helm and lounge, where luxury meets functionality around a single Stidd helm chair and responsive single-lever controls paired with a bow thruster for precise, effortless handling. A windshield defroster guarantees clear vision in cooler conditions, while an impressive 40-inch flat-screen television transforms the space into an intimate entertainment salon. Comfort is provided by a custom upgraded-style sofa and a plush custom sunpad, set upon rich custom Amtico flooring and

complemented by a custom sink and wet bar for refined onboard hospitality. Thoughtful, purpose-driven features include electric teaser reels, a freshwater washdown, and tri-color lighting in the aft overhang to craft the perfect evening ambiance, while a Costa aft station canvas cover offers added protection. Security and workmanship are equally addressed with a discreet custom safe and beautifully executed custom teak on the aft deck.

Cockpit and mezzanine

This teak-clad cockpit is engineered for tournament performance, outfitted with an Eskimo ice machine alongside two crushed-ice machines, cockpit freezer bait trays and two fishboxes with split lids, while a transom coaming with gate, an integrated fish box and transom swim steps provide added utility at the waterline. Anglers are accommodated by Release Marine boltless rod holders supplemented by two additional rod holders and a Release Marine Trillion Series fighting chair, and the extensive livewell suite comprises a live well with a glass viewing window and lights, a refrigerated mezzanine livewell box and a livewell built into the starboard-side mezzanine box. Practical touches include refrigerated port and starboard mezzanine undermounted step boxes, generous storage lockers and both fresh and salt water washdowns in the cockpit, and evening ambiance is created by tri-color lights on the aft deck and tri-color rope lights beneath the coaming, with a Costa cockpit cover ready to protect the space when not in use.

Aft deck

A finely finished teak helm pod commands the aft space, while Lumatech spreader lights cast precise, dependable illumination over the deck. Tailored aft seating and a coordinated table create an inviting salon for relaxed gatherings, and a flip-down television, discreetly stowed in the overhang,

converts the area into an elegant entertainment retreat whether underway or at anchor.

Deck

A substantial, heavy-duty davit on deck makes launching and stowing the tender effortless, while a secure bow rail combined with extended side-mounted handrails offers reassuring support as you move forward. Sliding fender tracks positioned beneath the rub rail facilitate precise fender placement and effective hull protection, and a dedicated anchor locker hatch keeps ground tackle neatly stowed and accessible. A forward exterior salon window mask provides additional protection and privacy, and the freshwater anchor washdown system preserves a pristine foredeck after every set and retrieval of the anchor.

Hull

Dressed in Buck Blue with a bespoke non metallic boot stripe and protected below the waterline with Viking Blue bottom paint, the hull projects an unmistakable presence while the Seakeeper SK40 delivers exceptional stability underway. Precise close quarters maneuvering is provided by a hydraulic bow thruster, and the addition of an extra fuel tank—bringing the total to four—substantially extends range for assured, long distance cruising.

Palm Beach Towers tuna tower

A bespoke tuna tower crowns the yacht's silhouette with three-inch brushed aluminum forward legs securely mounted to the hardtop and a generous nine-foot tower gap complete with dual antenna stand-offs, while a custom belly ring rises two inches above the standard thirty-six-inch height and a

center tower ladder is neatly recessed into the aft enclosed bridge hardtop overhang. The molded fiberglass standing platform houses an integrated coupler box, and a custom sixty-five-inch molded pod-style control box offers a flush-mounted compass, recessed electronics compartments with lids and a refined satin black finish. Above, an eighty-four-inch molded tower sunshade framed in satin black incorporates internal tracks and welded antenna mounts, and the undersides of both the standing platform and sunshade are finished in an Atlantic Blue satin tone. Beneath the standing platform sit a molded fiberglass satellite TV antenna mount and a molded fiberglass FLIR camera mounting pod, while a custom wrapped Rybo-style belly band, a three-sided bridge rail featuring double aft 1.5-inch aluminum pipe, welded corner seating with cushions at the aft rail and under the belly ring, polished welded rod holders along the bridge rail, and flagstaff mounts beneath the port and starboard platform perimeter rails complete the deck appointments; protection and visibility are enhanced by an EZ2CY enclosure panel running on tracks between the tower sunshade and the control box. The tower helm is appointed with MTU Blue Vision single-lever electronic engine controls for M96 Series engines paired with MTU Blue Vision electronic steering, stainless steel control handles with integrated bow thruster buttons and dual MTU Blue Vision engine tachometers mounted within the tower control box, while bow thruster and trim tab controls are precisely located at the tower helm, a flush-mounted compass provides reliable heading information and recessed electronics compartments keep critical systems tidy and accessible. Tournament-grade spread is delivered by fifty-one-foot Rupp Bigg Rigg heavy-duty outriggers with four spreaders and solid aft bars operated by a Rupp hydraulic outrigger system with 120V automatic locking and a Rupp wireless remote control, with Rupp roller guides replacing standard eyebolts and a Rupp heavy-duty center rigger with roller guides completing the array. Miya Epoch Super US-9 HD electric teaser reels are installed in the tower sunshade while additional Miya Epoch Super US-9 HDR electric teaser reels are

mounted beneath the bridge overhang with remote controls and tower-mounted remotes for seamless operation, supported by recessed fiberglass teaser reel compartments in the tower sunshade with mounting brackets and stainless steel Rupp grommets and jam cleats in the cockpit gunwales to ensure rigging is efficient and secure. Illumination and systems are comprehensively addressed with a molded LED spreader light pod with stainless steel bezel on the aft platform, a molded 3-in-1 LED spreader light pod with stainless steel bezel on the forward platform, four LED spreader lights backed by recessed tri-color lighting within the standing platform and tower sunshade, a five-mile LED masthead light mounted on the tower sunshade, an LED anchor light positioned beneath the tower control box, molded port and starboard navigation lights integrated into the platform and a stern light integrated into the enclosed bridge overhang, while useful features such as a freshwater outlet in the tower, a recessed provision for mounting a hailer horn and a dedicated tower electrical bonding system round out the installation.

AME electronics package

The AME electronics package creates a sophisticated, captain-focused command center anchored by dual high-power radars: a Furuno FAR1528 25 kW unit with an eight-foot array alongside a Garmin 2524 xHD2 25 kW radar with a four-foot array. Navigation is managed by updated Garmin GPSMAP 8700 Black Box systems displayed on refreshed Seatronix marine glass bridge screens and augmented by the latest NAVROK PC Navigator software. Sounding and fish-detection capability are covered by the Furuno FCV1900 sounder, which remains installed and in excellent condition, and an updated Garmin GSD 28 CHIRP sounder, while the Garmin GHP Reactor autopilot provides precise course-keeping. Situational awareness and safety systems include a Garmin AIS 600 transponder, a Furuno 220WX weather station, a FLIR

camera, and ACR RCL300A and RCL100 searchlights, with communications handled through an Icom VHF radio system featuring multiple remote stations. The tower is fitted with an updated Garmin GPSMAP 8612XSV tower display and two Garmin GPSMAP 743 units overhead for effortless extended-visibility navigation. Vessel security and monitoring are entrusted to a GOST Apparition system. Onboard entertainment is exceptional, centered on KVH TracVision HD7 satellite television feeding Samsung 4K televisions throughout the yacht, supported by Marantz audio/video receivers, custom Leon soundbar installations, a JL Audio marine sound system, Fusion marine stereos, a URC entertainment control system, and a fully distributed audio/video network, with a Mirage Vision 40-inch 4K mezzanine television adding a luxury touch. Connectivity is provided by an Aigean marine Wi Fi system and a Luxul wireless network, and nighttime ambiance is commanded by sixteen Lumishore TIX1604EOS underwater lights.

Engine room & mechanical equipment

The yacht is driven by an MTU Series 2000 V16 M96l rated at 2635 hp, backed by 55 kW generators and an array of professional-grade systems curated for reliability and ease of maintenance; onboard you will find a bespoke toolbox and a 110V air compressor, a Headhunter fresh water pump paired with a Willy Vac, and an 1800 gpd watermaker with automatic backflush complemented by a Dometic double-pass watermaker fitted with Spot Zero. Engine service and fuel handling are addressed with an Oferdorfer 120/240v oil pump, dedicated oil tanks and an Algae X fuel polishing system, while seawater systems benefit from a Barnacle Buster flushing system installed inline with the centralized seawater circuit. Exterior washdown is supplied by an additional fresh water pump with a crossover valve to engage a backup pump, and provisioning includes an upgraded ice chipper; waste is managed by a Headhunter HMX treatment system with high-water alarms in shower sumps and UV water

purification for potable quality. All systems are monitored and integrated for operational awareness, including a Stiic system with display at the helm.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
