OVERVIEW

This 2023, 93-foot motor yacht presents a striking balance of refined style and resolute performance, currently cruising the French coastline and ready for voyages through the Côte d'Azur. Built in advanced fiberglass/GRP with expansive GRP decks and a generous 21-foot beam, she draws just a 6.56-foot draft that opens access to secluded coves and elegant harbors alike. Twin MTU inboard diesel engines provide a comfortable 22-knot cruise with the ability to accentuate performance to near 28 knots, while roughly 2,300 gallons of fuel and approximately 349 gallons of fresh water support extended passages in absolute comfort. The hull's composed manners and responsive handling yield a quiet, assured ride—capable and athletic when required, yet utterly composed for long-distance cruising.

Inside, the interior is bathed in natural light, where wide panoramic glazing creates a seamless connection with the sea and custom finishes lend a tailored, luxurious atmosphere. The salon flows effortlessly to an alfresco aft terrace ideal for dining or relaxing, while forward and upper lounging areas offer sunlit day spaces and intimate evening retreats. Private quarters are conceived as calm sanctuaries, anchored by a full-beam owner's suite and accompanied by finely finished guest cabins, each appointed with generous storage and spa-inspired detailing. The galley is arranged for a chef's efficiency, and intuitive climate and lighting systems together with discreetly integrated entertainment ensure effortless hospitality, whether hosting a quiet family weekend or an elegant cocktail reception.

On deck, wide walkaround passages and a broad, sea-level swim platform create a beach-club feel for seamless boarding and waterside leisure, with dedicated stowage for toys maintaining clean sightlines and an uncluttered profile. As a contemporary example in the premium motor yacht segment, this 93-footer distills modern motoryacht virtues—sleek lines, social spaces, and

genuine seaworthiness—offering Mediterranean glamour and blue-water capability in a turn-key 2023 build.
