OVERVIEW

A synthesis of Overmarine engineering and Mangusta interior artistry, this 2016, 94-foot performance motor yacht marries striking Italian design with composed American refinement. Her deep V composite hull constructed in fiberglass/GRP and generous 21-foot beam deliver a steady, authoritative ride, while twin MTU diesel inboards provide thrilling propulsion—comfortably cruising at around 34 knots and capable of approximately 36 knots at full throttle. Fuel and water capacity are substantial, with about 3,170 gallons of fuel and 528 gallons of fresh water, supporting brisk weekend hops or longer coastal passages with confidence. Within, Mangusta's interpretation of the dolce vita manifests as bright, restrained interiors defined by clean lines, expansive volumes and contemporary elegance, spaces that accommodate both lively entertaining and peaceful repose. Accommodation is arranged for up to seven guests across thoughtfully conceived cabins with four well-appointed heads, and crew liveaboard facilities consist of two cabins with three berths to ensure discreet, professional service. Lying in the United States, this yacht distinguishes herself among modern fiberglass motor yachts as a rapid, refined deep V performer bearing the unmistakable Mangusta signature; for those who prize performance wrapped in Italian artistry, she offers an arresting blend of style, substance and exhilaration.

MINE SET

DETAILED DESCRIPTION

Description

Visit us at FLIBS 2026 on Las Olas B Dock, directly opposite Ocean Prime, where the GRP-built Mine Set will be presented. Her design and naval architecture were developed entirely in-house to produce the dynamic, sporty profile that defines Mangusta. Arranged across three decks, she offers generous outdoor living areas, while a 135 GT volume ensures ample interior accommodation for both entertaining and repose.

Sunlight and sea air shape life on board. The bow hosts a tranquil lounge with U-shaped seating around a central table for private morning moments, complemented by an expansive forward sunpad for lingering over views. Aft, the cockpit becomes the social hub, with comfortable sofas, a dining table and extra sunbeds forming an inviting lounge for family and guests. A swim platform sits just steps away for effortless water access, and a transom tender garage stows toys and tenders neatly out of sight. The sundeck provides yet another al fresco dining area—an idyllic spot for candlelit dinners under the stars and long evenings at anchor.

Inside, Mine Set presents a timeless Italian palette of natural woods and soft creams, creating an elegant backdrop ready to be personalised by her owner. The saloon is bright and sociable, centred on a large U-shaped sofa and TV for evening entertainment, while a sliding sunroof floods the space with light to enhance the indoor-outdoor connection. A pantry and bar located aft allow seamless service to the cockpit, ideal for effortless hosting.

An innovative internal staircase rises from the saloon directly to the sundeck, a distinctive design solution that preserves the aft deck for entertaining and easy movement, demonstrating the yacht’s considered approach to space planning. Below decks a secondary lounge doubles as a private office retreat.

Accommodation is arranged for six guests in three en suite cabins, including a full-beam master stateroom amidships that occupies the full 6.4-metre beam, a forward VIP suite and a twin cabin to starboard. Crew quarters for four are positioned aft and include a dedicated galley.

Built to perform, Mine Set carries twin MTU 2,600hp 16V2000 M96L engines that provide a comfortable 20-knot cruise and a top speed reaching 30 knots, while her efficient planing hull delivers a smooth ride. Two Seakeeper stabilisers further enhance onboard comfort, and a shallow draught of just 1.6 metres allows access to bays and anchorages off-limits to many larger yachts. Two helm stations offer operational flexibility: a spacious three-seater console with side-deck access forward of the main-deck saloon and an exhilarating flybridge position for those who prefer to drive with the wind in their hair.

Vessel details

MINE SET is a 2016 Mangusta 94 from the Overmarine Group, built with a fiberglass hull and superstructure, featuring exterior lines by Stefano Righini and naval architecture by Overmarine Group. Her proportions reflect the signature Mangusta profile, with an LOA of 94 ft, a beam of 21.75 ft and a draft of 5.33 ft, while the builder’s specification records the dimensions as 28.72 m / 94'3" LOA and 6.60 m / 21'8" beam. Propulsion is provided by twin MTU 16V 2000 M92L diesel inboards, each rated at 2,600 hp, driving waterjet-type units; on the standard configuration the draft is approximately 1.60 m (5'3"). This particular yacht is quoted at a 30-knot top speed, although factory performance for the model is listed at 36 knots maximum, 34 knots cruising and a 280 nm range. The factory specification also identifies MTU 16V 2000 M94 engines at 2,600 bhp as the standard fit, so the M92L designation aboard MINE SET should be confirmed against the engine plates or during a survey.

Designed with serious cruising in mind, practical capacities include 8,800 L (about 2,325 gal) of fuel, 1,400 L of fresh water and a displacement of 90 t at

half load. The accommodation plan sleeps six guests across a full-beam master, a VIP and a twin cabin, each with an ensuite head, and provision is made for a crew of up to three. Throughout the interior and on deck, considered refinements enhance both comfort and functionality: a bespoke interior staircase preserves an uninterrupted aft deck, the salon is appointed with Italian furnishings and is illuminated by both a sliding sunroof and an electric sunroof, the aft deck lounge is ideal for relaxed entertaining and is complemented by an extended hydraulic swim platform for effortless access to the water, while the bow offers generous seating and twin sunpads. A dedicated tender garage simplifies stowage, and onboard entertainment and navigation are enhanced by TV systems and Simrad electronics, reinforcing the vessel's appeal as a luxurious, capable motor yacht.

Mechanical disclaimer

Engine and generator hours are shown as of the original listing date and are based on information provided to the listing broker by the owner and/or direct readings from the hour meters. Although these figures are offered in good faith, the broker cannot guarantee their absolute accuracy. It is the responsibility of the purchaser and/or his agent to independently verify engine and generator hours, ascertain the existence and scope of any warranties, whether express or implied, evaluate the nature and extent of any major overhauls, and confirm all other representations contained in the listing brochure.

Disclaimer

All particulars are presented in good faith for general guidance only and do not constitute a contractual offer; they represent a single point in time and may be altered by prior sale, a change in price, or withdrawal without notice.

Prospective purchasers should satisfy themselves as to the accuracy of specifications by independent inspection and verification, as descriptions, measurements, equipment inventories and imagery may include optional or recently updated items and cannot be guaranteed, nor is any warranty—express or implied—made as to condition or suitability for any particular purpose.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
