Stretching 95 feet from stem to stern, the vessel presents a poised silhouette with a beam of 22 feet and a draft just over 6 feet, designed to cut through swells with poise and comfort. At a comfortable cruising pace of 18 knots she promises serene passage, while a top speed of 28 knots delivers exhilarating performance when desired.

Built of high-quality fiberglass and plastic, the hull and superstructure marry resilience with refined lines, offering both longevity and striking presence in the competitive yacht sales market. Below decks, an interior conceived with meticulous attention to proportion and finish creates an inviting sanctuary for leisure and entertaining, where every surface and space speaks to thoughtful craftsmanship.

Propulsion comes from a powerful MTU inboard engine, its capability complemented by a GRP deck that enhances deck strength and underfoot comfort.
