OVERVIEW

Built in France in 2023, this 98-foot steel motor yacht marries refined continental taste with the sturdy temperament of an ocean-capable vessel. Her silhouette is clean and contemporary, balanced in proportion and promising both exploration and repose, while the steel hull and steel decks provide a foundation of steady assurance and enduring strength for any passage.

Under the graceful exterior lies purposeful substance. The robust steel construction delivers superior seakeeping and a composed, gentle motion at anchor, attributes admired by experienced mariners. Propelled by a single MAN engine, she favors efficient, long-legged cruising and a straightforward mechanical layout that underscores dependability on extended voyages where reliability matters as much as refinement.

On deck and below, spaces have been conceived for effortless movement between sunlit sociability and private retreat. Generous exterior areas accommodate languid Mediterranean lunches, evening aperitifs at sunset, and unhurried days at anchor, while the unusually large volume for her length produces interiors that feel calm, modern, and full of light. Finishes and materials lift the ambiance without overwhelming it, providing a timeless backdrop ready for personal touches and future customization.

The yacht's arrangement supports the rhythm of sophisticated cruising: broad passageways and open lounging zones make circulation easy, sightlines are arranged for relaxed navigation and anchoring, and overall build quality rewards close inspection. Whisper-quiet underway, she slips comfortably into a Côte d'Azur marina as readily as she stretches her legs on blue water.

For an owner seeking the union of understated luxury and steel-hulled capability, this 2023 French build offers a rare combination: the poise of a luxury motor yacht infused with the backbone of a go-anywhere cruiser. A steel superyacht in the 30m-class with explorer-yacht spirit, displacement-style

comfort, and long-range cruising pedigree, she is an ocean-going companion crafted for the world's most beautiful coastlines and the expanses between them.
