OVERVIEW

Introducing the Moon 100 Power for sale, a luxurious 30m power catamaran that blends superyacht presence with the efficiency and stability of a modern motor catamaran. If you are seeking a top-tier luxury power catamaran for sale, this cutting-edge 30-meter motor yacht stands out for its vast living areas, composed performance, and long-range capability. Conceived for discerning private owners as well as premium crewed charter operations, this new-generation power catamaran is crafted for effortless ocean passages in total comfort.

With an overall length of 30 meters and an expansive 13.7 m beam, the yacht delivers remarkable volume across all decks, creating a true superyacht catamaran experience. Twin diesel engines, from 2 × 500 HP up to 2 × 1,200 HP, provide the right balance between efficiency and thrust, yielding a top speed of 18 knots and an economical cruising speed of 12 knots. Thanks to a substantial fuel capacity of up to 24,000 L, the Moon 100 Power achieves transoceanic range, making it a compelling blue-water cruiser for extended voyages. The efficient, stable catamaran hull design ensures refined handling, low fuel burn, and reassuring comfort underway or at anchor.

Owners can tailor the interior to their personal vision, with fully customizable layouts, materials, and finishes that elevate every space from the main saloon to the private cabins. The standout master suite can be specified with an optional hydraulic balcony for a seamless, cinematic connection to the sea—an indulgent touch that transforms mornings at anchor and sunset moments alike. On the flybridge, panoramic views frame an inviting social haven complete with jacuzzi and bar, establishing a relaxed, resort-style ambiance for entertaining or private retreat.

Life at the water's edge is equally considered. A generous beach club flows to the swim platform, set up for smooth tender access, water toys, and easy

enjoyment of the sea. A dedicated tender and toy garage keeps the deckscapes pristine while ensuring swift deployment of gear for on-the-water fun. Every detail underscores the yacht's role as a highly versatile platform, equally suited to family cruising, hosting guests, or delivering a five-star charter yacht experience.

Engineered for long-range cruising, the Moon 100 Power excels on blue-water adventures where efficiency and autonomy truly matter. Its ability to cross oceans or spend weeks exploring remote archipelagos underscores the catamaran's mission as a refined, go-anywhere luxury motor yacht. The combination of range, speed, and comfort makes it an ideal companion for ambitious itineraries, while its inherently stable stance amplifies onboard ease during passage and at rest.

For buyers weighing private ownership against commercial potential, this high-end crewed charter catamaran presents a compelling investment case. Generous indoor-outdoor areas, deck spaces designed for entertainment, and notably low operating consumption position the Moon 100 Power as a sought-after asset in the premium charter market. The yacht's adaptable layout enables multiple guest configurations and crew arrangements, enhancing both owner enjoyment and charter flexibility.

Available as a new build—delivery slots are open—this 30m motor catamaran invites you to define your perfect specification and aesthetic signature from the keel up. We are pleased to present the Moon 100 Power through our brokerage network, with full technical details, pricing, and build timelines available upon request. Contact us today for comprehensive specifications, current pricing, and confirmed delivery windows.

This is a rare opportunity to secure one of the most exciting luxury power catamarans on the market, a standout motor catamaran that fuses superyacht luxury with catamaran efficiency. A very special deal available for #1.
