## OVERVIEW

---

Discover the Epitome of Elegance: A Timeless Wooden Yacht

Step aboard this magnificent 124-foot wooden yacht, a true masterpiece of nautical craftsmanship, currently located in the enchanting waters of Turkey. Built in the year 2000, this exquisite vessel seamlessly blends classic elegance with modern luxury, offering an unparalleled yachting experience for those seeking to buy a yacht that stands out in the world of yacht sales.

As you glide through the azure waves at a comfortable cruising speed of 10 knots, powered by twin MAN inboard diesel engines, you'll appreciate the harmonious balance of power and grace. With a maximum speed of 13 knots, this yacht ensures that every journey is both exhilarating and smooth, making it a prime choice for yacht sales in the current boat location.

The yacht's wooden hull and deck exude timeless charm, inviting you to explore its spacious and meticulously designed interiors. Accommodating up to 10 guests in luxurious comfort, the yacht features four elegantly appointed heads, ensuring privacy and convenience for all on board. The five crew cabins and berths guarantee that your every need is attended to with the utmost care and professionalism.

Inside, the yacht's interior design, though unspecified, promises an ambiance of refined sophistication. The generous beam of 25 feet allows for expansive living spaces, perfect for entertaining or simply relaxing in style. With a water capacity of 1,743.54 gallons and a fuel capacity of 1,717.12 gallons, this yacht is well-equipped for extended voyages, offering the freedom to explore distant horizons.

Whether you're lounging on the sun-drenched deck, savoring gourmet meals in the elegant dining area, or retreating to the plush staterooms, this yacht offers an unparalleled level of comfort and luxury. Its monohull configuration ensures stability and a smooth ride, while the wooden construction adds a

touch of classic allure that is truly unmatched.

For those in search of a yacht for sale that embodies both tradition and innovation, this wooden yacht is a rare gem. Don't miss the opportunity to own a piece of maritime history and embark on unforgettable adventures. Contact us today to learn more about this exceptional yacht sale and make your dream of owning a yacht a reality.

# DETAILED DESCRIPTION

---

## Section name

---

Launched in 2000 in Bodrum, SY White Wings exemplifies a remarkable blend of tradition and modernity. Built with a deep respect for the classic boat-building methods that have been perfected in the region over the centuries, she features a keel and planking made of solid oak. The superstructure is crafted from mahogany, while the deck is laid with Burma teak. White Wings boasts impressive volume and a spacious layout with five cabins, making her an ideal choice for memorable vacations with family and friends. Her current owner has enjoyed sailing her all around the Mediterranean, creating countless cherished memories along the way.

In 2019, he embarked on a journey to rebuild and refit the yacht, ensuring she remains in top condition for future adventures, while paying tribute to her past. The exterior frame and planking were found to be in excellent shape, while the interior and superstructure were completely stripped and rebuilt. All mechanical and electrical equipment was replaced, and the traditional wooden rig was upgraded to a modern aluminum rig. As a result, White Wings now presents as a contemporary yacht, seamlessly blending her modern features with her traditional heritage. After many years of ownership, her current owner is ready to pass her on, offering someone else the chance to create their own unforgettable memories aboard this modern classic schooner.

## Interior description

---

Thanks to an almost 8-meter beam, White Wings offers fantastic volume below deck, as well as incredible deck spaces. The interior is crafted from classically finished solid wood, adding warmth and a feeling of sophistication throughout.

The raised salon provides plenty of seating and offers great views, creating a perfect space for relaxation and socializing. Below deck, up to 10 guests can sleep comfortably in five cabins, including a spacious full-beam master suite located all the way aft.

## Propulsion and steering

---

The propulsion and steering systems of White Wings are designed to ensure smooth and reliable navigation. The engines, manufactured and installed in 2019, are paired with a ZF gearbox from the same year, providing robust and efficient power transmission. The yacht is equipped with two fixed-shaft, 4-blade propellers, enhancing her performance and maneuverability. In 2020, a Hidromarin hydraulic steering system was installed, offering precise control and ease of handling. Additionally, a Side Power hydraulic bow thruster was added in 2020, further enhancing the yacht's maneuverability, especially in tight docking situations.

## Safety and security

---

The safety and security systems aboard White Wings were comprehensively renewed during the 2019/2020 refit, ensuring they meet the highest standards and comply with class regulations. The yacht is equipped with a Gianneschi bilge pump, complemented by a Rule backup bilge pump, providing robust protection against water ingress. For fire safety, the MFIRE fixed fire fighting system is installed, offering reliable and efficient fire suppression capabilities. Additionally, Gianneschi fire pumps, including backup pumps, are in place to ensure maximum safety and peace of mind for all on board.

## Communication and navigation

---

The communication and navigation systems aboard White Wings were significantly upgraded during the 2019/2020 refit with state-of-the-art Raymarine equipment. Central to this advanced setup is the AXIOM 12, a multi-function 12" display, complemented by two AXIOM XL 16 glass bridge multi-function displays, each measuring 15.6 inches. The Quantum Q24D Doppler 18" radar enhances situational awareness, while the AXIOM XL GA150 GPS and RCR-SD/USB provide precise positioning and connectivity. The system is controlled via the RMK-10 remote control keypad, which can be used in both portrait and landscape orientations, and the i70s multifunction color display offers comprehensive data visualization.

For automated navigation, the Evolution Solenoid Autopilot and p70s autopilot control head ensure smooth sailing. The AIS700 Class B transceiver enhances safety by providing real-time vessel tracking. Security is bolstered with the CAM220 Eyeball CCTV day and night video camera. The CP370 ClearPulse 1KW sonar module, paired with the B258 1000W depth and temperature bronze through-hull transducer, delivers accurate underwater readings.

Communication is facilitated by the Ray 90 VHF black box with a second station, and the B744VL long stem bronze transducer provides depth, speed, and temperature data. The 45STV/60STV GEN2 HD ACU operates on 12/24V, ensuring reliable performance. Finally, Navionics+ on microSD offers downloadable regional charts, providing comprehensive navigation data for any journey.

## Electrical

---

The electrical system aboard White Wings was completely overhauled during the 2019/2020 refit, ensuring it meets all class certifications and operates with the utmost efficiency and reliability. The system is designed to accommodate a

range of electrical circuits, including 380V, 220V, 24V, and 12V, providing versatile power solutions for all onboard needs. A robust array of 21 Victron batteries, with capacities ranging from 60 Ah to an impressive 1500 Ah, ensures ample power storage and distribution. Complementing this setup are 10 Victron battery chargers, which maintain optimal battery performance and longevity. Adding to the yacht's allure is the STEIN underwater lighting system, which enhances the vessel's aesthetic appeal and provides a captivating ambiance during nighttime voyages.

## Mechanical

---

The mechanical systems aboard White Wings were entirely renewed during the 2019/2020 refit, ensuring top-notch performance and reliability. Central to the fuel system is the Alfa Laval fuel pump, supported by a Gianneschi backup fuel pump, providing robust and efficient fuel management. The yacht is equipped with Gianneschi wastewater pumps and a combination of Gianneschi and Wilo freshwater pumps, with Jabsco and Wilo serving as backup for the freshwater system, ensuring seamless operation in all conditions.

A Seamar water maker, capable of producing 350 liters per hour, ensures a steady supply of fresh water, while two Diko water heaters, each with a capacity of 100 liters, provide ample hot water. The wastewater and freshwater tanks have been replaced, and the hot and cold water circuits have been fully renewed, complemented by the installation of a 250-liter drinking water tank. For climate control, the yacht features a Webasto air conditioning system with a capacity of 180,000 BTU, ensuring a comfortable environment throughout the vessel. These comprehensive mechanical upgrades ensure that White Wings is well-equipped for any journey, offering both luxury and practicality.

## Sails and rigging

---

The sails and rigging of White Wings were completely renewed during the 2019/2020 refit, ensuring optimal performance and ease of handling. The yacht is equipped with two hydraulic Andersen winches powered by the main engine's power take-off, providing powerful and efficient sail control. Additionally, there are four electric Andersen winches and eight manual Andersen winches, offering a versatile and reliable setup for various sailing conditions.

The hydraulic Admiral genoa and jib furling system enhances sail management, allowing for smooth and effortless adjustments. All new aluminum masts and rigging were crafted by Dökar, ensuring strength and durability. Complementing these upgrades are the new DOYLE sails and ropes, which are designed to maximize sailing efficiency and performance. These comprehensive enhancements to the sails and rigging make White Wings a formidable and elegant vessel on the water.

## Deck

---

The deck of White Wings is meticulously designed to ensure both functionality and elegance. At the heart of the deck's anchoring system is the Hidromarin windlass, which provides reliable and efficient anchor handling. During the recent refit, all deck materials, including bulwarks, cleats, fairleads, and bollards, were carefully demounted, maintained, and remounted. This thorough process ensures that every component is in optimal condition, contributing to the yacht's overall performance and aesthetic appeal. The attention to detail in the deck's construction and maintenance underscores White Wings' commitment to quality and excellence.

## Galley and laundry

---

The galley and laundry facilities aboard White Wings were completely upgraded during the 2019/2020 refit, featuring all new, state-of-the-art appliances to ensure convenience and efficiency. In the galley, you'll find an Arçelik 9463 STA built-in dishwasher and an Arçelik 893 INX Midi built-in microwave oven, both designed to handle culinary tasks with ease. The Arçelik Kuzine oven provides versatile cooking options, while the Frankie and Siemens deep freezers offer ample storage for frozen goods. A custom-made refrigerator ensures that fresh ingredients are always at hand, and two ice makers, located on the aft deck and in the salon, provide a steady supply of ice for refreshments.

In the laundry area, the Arçelik 9103 D washing machine and Arçelik 2893 KT dryer are installed to handle all laundry needs efficiently, ensuring that guests and crew have access to clean and fresh clothing throughout their journey. These modern amenities in the galley and laundry areas enhance the onboard experience, offering both luxury and practicality.

## Audiovisual

---

The audiovisual systems aboard White Wings were upgraded in 2020 to provide an exceptional entertainment experience for all guests. Each cabin, as well as the saloon, is equipped with modern LCD TVs, ensuring that everyone can enjoy their favorite shows and movies in comfort. The SONOS music system, with strategically placed speakers in the saloon, deckhouse, and foredeck, delivers high-quality sound throughout the yacht, creating the perfect ambiance for relaxation or celebration. Additionally, the yacht is equipped with 5G internet, ensuring fast and reliable connectivity for streaming, communication, and browsing, no matter where your journey takes you. These enhancements make White Wings a haven of entertainment and

connectivity on the water.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.
