OVERVIEW

The Kando 130XL from AvA Yachts is a contemporary long range explorer motor yacht conceived for owners who demand a rare blend of capability, comfort and fuel efficiency. Built with a steel hull and an aluminum superstructure, she is engineered to cover great distances while preserving an elegant, refined onboard atmosphere. Her generous internal volume and well balanced proportions are matched by a robust construction and refined hull lines that deliver exceptional stability and seakeeping, making her equally at home on ocean crossings or effortless coastal passages.

Accommodation is arranged for up to 12 guests in six cabins, served by a professional crew of seven, with interiors designed to flood living spaces with natural light and to maximise practicality and comfort. Outdoor living is prioritised on every deck, offering a variety of lounging and dining environments—from a sun deck appointed with a Jacuzzi to shaded alfresco areas—while a wide swim platform provides easy water access and a beach club style zone creates an additional flexible seaside retreat. Propelled by twin Volvo Penta D16MH diesels, the Kando 130XL achieves an approximate range of 7,000 nautical miles at 10–11 knots, enabling genuine bluewater passages without compromise. Advanced engineering, multiple watertight bulkheads and reinforced, thicker underwater steel plating further enhance safety and reliability when venturing offshore.
