OVERVIEW

Offered at a compelling price with Israeli VAT included, this 2014 Leopard 39 sailing catamaran has been cared for with meticulous attention by a devoted team, showing no evidence of shortcuts and presenting in exceptional condition. Formerly operated as a commercial vessel for a sailing club, she has proven her seaworthiness with a bluewater crossing from Cape Town, South Africa, to Israel; the buyer may retain the commercial license and continue charter operations, and an exclusive berth in Ashkelon can be made available to the new owner.

The Leopard 39's characteristic raised helm delivers a rare combination of security, comfort, and expansive visibility, while all sail handling is led aft to the helm—mainsail and jib sheets running to primary winches—so authentic single-handed sailing is straightforward. A hardtop bimini shelters the steering station, and a recent winter service has left the boat turnkey and ready to go. Accommodation includes four cabins and two heads, with additional forepeak child berths fitted with comfortable mattresses, making her equally suited to family voyages or charter use. Her engines were overhauled two years ago to ensure reliable propulsion, and marine air conditioning provides climate-controlled comfort below. Navigation is covered by a comprehensive Raymarine electronics suite, spare sails are included, and the vessel is prepared to cast off at short notice.

Fully equipped and primed for new adventures, this Leopard 39 blends liveaboard comfort, sailing performance, and effortless handling—perfect as a family cruising catamaran, a charter-ready multihull, a coastal cruiser, or an offshore-capable liveaboard. Such opportunities are uncommon; arrange a viewing and be ready to sail away tomorrow.

DETAILED DESCRIPTION

Overview

Defined by thoughtful specification and effortless control, this yacht's systems begin with a shore power inlet and an inverter that support life aboard with quiet efficiency. A comprehensive electronics suite elevates confidence at the helm, integrating a depthsounder, log speedometer, wind speed and direction sensors with repeaters, a fully equipped navigation center with plotter, autopilot, radio, compass and GPS, plus VHF and clear, well-placed cockpit speakers. Below deck, comfort and autonomy are assured by an electric bilge pump with a manual backup, an oven, a marine head, air conditioning and heating, hot water, a refrigerator and deep freezer, and a dedicated battery charger to keep onboard power seamless. Outside, a teak cockpit accented by Flexiteak sets a refined tone for open-air living, complemented by a cockpit shower, outboard engine brackets, robust davits and a tender, a solar panel and a liferaft, inviting cockpit cushions gathered around a generous cockpit table, and a swimming ladder for effortless access to the sea. Control and sail handling are intuitive and efficient with a responsive steering wheel, an electric winch, and a fully battened mainsail that anchors the sail plan with dependable power and poise.

Extra information

Performance-driven and unmistakably at the heart of the Leopard line, the Leopard 39 balances speed and practicality with a generous sail plan and a stepped hull design that delivers lively acceleration, crisp handling and reassuring efficiency. On deck, every space is shaped for ease and safety, from the broad transoms to the open, spacious aft, side and forward decks that invite effortless movement around the yacht. The integral hardtop bimini over

the cockpit provides superior protection from the elements and doubles as a stable working platform, offering confident footing around the boom and ample area for solar panels mounted above the helm to keep onboard batteries charged as standard. Inside, large vertical windows flood the saloon with light, framing panoramic views and channeling fresh air through forward-facing opening hatches. The wraparound galley is refined by stainless steel appliances and a Corian countertop, turning meal preparation into a pleasure. In the starboard hull, the owner's suite pairs an aft double berth with a forward en suite head featuring a walk in shower, while the port hull offers two welcoming guest cabins and an additional head with shower, bringing privacy and comfort to every passage. True to its brief, the Leopard 39 delivers high performance while remaining highly practical and easy to use, with thoughtful environmental touches such as standard solar panels on the helm hardtop ensuring smart, silent energy management. Power comes from Yanmar 3YM30C 29 hp engines with sail drives in lieu of standard engines; both engines underwent a general overhaul 2 years ago, and engine hours will be updated.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
