OVERVIEW

****2023 Fountaine Pajot Astréa 42 Maestro – “Migaloo II”**** Here is a rare opportunity to acquire a meticulously specified 2023 Astréa 42 Maestro, Migaloo II, a one owner, Australian owned comfort catamaran that has already proven her pedigree by taking first place at the 2025 Fountaine Pajot Owners’ Rendezvous. Finished well beyond the factory fit out, this Comfort Version sailing catamaran has been fitted as a serious cruising platform: a Victron centred lithium energy system, an 800 W solar array with Victron MPPT control and full remote monitoring by phone or tablet, a 9 kW Onan generator, comprehensive air conditioning throughout, and an inventory tailored for long range, low stress passagemaking. Configured in the desirable Maestro layout—an owner’s hull paired with two elegant guest cabins—Migaloo II was conceived for extended liveaboard life and effortless Mediterranean miles. Her presentation and specification reflect fastidious care; she stands ready for immediate departure. As a luxury cruising catamaran and bluewater multihull she balances style, sea manners and autonomy with rare finesse, making her equally at home on long coastal cruises or true offshore passages. The electrical architecture centres on a Victron based lithium bank comprising four 280 Ah LiFePO₄ batteries (approximately 14.3 kWh), backed by the 800 W solar array managed through Victron MPPT and monitored remotely from phone or tablet. A pair of alternators mounted on the Volvo D2 50 engines augments charging while a Victron Quattro II 3 kW inverter/charger orchestrates seamless power management between sources. This proven Victron/Onan hybrid energy architecture delivers quiet, dependable off grid operation without the complexity of newer 48 V ecosystems, and it has been chosen to support genuine autonomy at anchor or underway. Comfort aboard is thoughtful and substantial. Six Frigomar air conditioning units provide roughly 56,000 BTU of climate control distributed across the yacht, ensuring cool comfort whether

anchored in the Med or alongside a hot marina berth. An Aquabase 12 V watermaker produces approximately 105 L/h of fresh water, and an Acuva UV freshwater purifier guarantees safe, pleasant drinking water. Domestic convenience is complete with a Bosch washing machine and dishwasher, a fully equipped galley, custom storage solutions and elegantly curved furniture details that marry form with function. Expansive sunshades and plush cockpit cushions create inviting outdoor living spaces for languid afternoons in the Ionian or sundowners after brisk passages. Anchoring and tender arrangements have been built for confidence and convenience: 100 metres of Grade 70 chain is matched to a 33 kg Rocna primary anchor, with two spare anchors stowed for different seabed conditions. Twin mooring reels simplify Mediterranean stern to berthing, smoothing arrivals and departures. A Highfield Hypalon tender with a Yamaha F20 outboard and console helm provides a dry, capable shore link for provisioning and exploration. Navigation, communication and safety systems are comprehensive and premium. A full Garmin navigation suite delivers clear situational awareness, while Starlink and Iridium Go provide robust connectivity offshore and at remote anchorages. Safety equipment is substantial: a 10 person liferaft, EPIRB, PLBs and a defibrillator complete the serious inventory that underpins confident voyaging. From a broker's viewpoint Migaloo II blends contemporary Fountaine Pajot comfort with genuine autonomy and reliability. Every upgrade—from the lithium and solar energy package and UV treated freshwater system to heavy duty ground tackle and considered interior refinements—has been selected to support long range cruising with minimal fuss. Systematic end of season servicing has kept every element in prime order and any work has been resolved promptly, preserving her excellent condition. Lightly used, award winning and fully fitted, Migaloo II lies in Preveza, Greece, export ready and offered as a turnkey luxury sailing catamaran. Whether as a refined liveaboard cruiser, a family yacht or a performance oriented multihull for bluewater adventure, she presents an elegant, modern platform prepared for

memorable passages and effortless Mediterranean living.
