OVERVIEW

2004 Broadblue 46 Catamaran – Prime Yard Project with Standout Upgrades This Broadblue 46 cruising catamaran, affectionately known as “Dazl Cat,” represents a rare opportunity for the discerning yachtsman, whether a professional builder, skilled DIY enthusiast, or bluewater cruiser seeking a substantial refit platform. A renowned blue-water multihull, its rugged construction and generous interior volume deliver solid fundamentals and the coveted chance to elevate a premier ocean-going sailing catamaran to contemporary standards. Currently stored on the hard in a well-equipped facility welcoming owner-led or contractor-managed work, it is perfectly placed for an efficient, on-site refit and smooth relaunch.

Notable value highlights are already in place: a brand-new mast has been installed, removing a major sourcing and fabrication hurdle, and a newly fitted generator provides a solid head start on electrical infrastructure planning. True to Broadblue’s legacy of durable fiberglass build, seaworthy performance, and comfortable livability, the yacht retains excellent bones and a warm, classic interior layout with tremendous potential once refreshed. After 16 years ashore, the scope of works will be comprehensive and best approached by a skilled refit program. The new spar will necessitate a full standing and running rigging package along with a complete sail inventory. Evidence of rainwater ingress from aging portlights has produced localized dry rot and minor timber remediation needs, requiring attention to both cosmetic and structural aspects.

The shipboard mechanical and electrical systems have been dormant for an extended period; buyers should anticipate updating navigation electronics and rewiring or replacing DC/AC distribution networks, followed by routine servicing, through-hull inspection, and full cosmetic detailing. From a value perspective, it is exceptional to encounter a large-volume, bluewater-ready

catamaran hull of this caliber at an entry-level price of $80,000 USD. For those with carpentry, mechanical, and rigging acumen—or the vision to direct a rewarding marine restoration—this Broadblue 46 catamaran stands out as an exceptional project yacht and a compelling pathway to a world-class performance cruising multihull upon completion.
