## OVERVIEW

---

2018 Leopard 50 — a striking 4 cabin example, extensively customised and elegantly refined during 2020, with EU VAT settled and IL taxes fully paid. The owner has invested heavily to produce an exceptional, turnkey yacht that blends refinement and purpose.

Propulsion is provided by twin Yanmar 150 hp engines paired with a retractable bow thruster, allowing effortless joystick docking and confident handling. Sail inventory centers on a carbon furling boom and black Kevlar sails for crisp, high performance cloth. Deck and boarding are made supremely convenient by a hydraulic swim platform that carries a bespoke ZAR Z1 tender, alongside a hydraulic passerelle for easy shore access. Onboard systems include three cameras complemented by FLIR night vision capability for enhanced safety and awareness.

Recent works and upgrades have been meticulously recorded: 3/2024 shipyard service with bottom painted, 3/2024 installation of a new EWOL 4 blade folding prop, 8/2024 new Quantum furling mainsail, and 5/2024 a new Victron lithium system comprising 3×200 Ah batteries. The interior is quiet and luxurious, fitted throughout with sound dampening carpet and panels upholstered in Alcantara.

A truly rare find for those seeking a Luxury Sailing Catamaran, Performance Cruising Multihull, Bluewater Cruiser, Liveaboard Catamaran, and Charter ready yacht.

# DETAILED DESCRIPTION

---

## Manufacturer provided description

---

With versatility as its guiding principle, the Leopard 50 ushers in the next generation of Leopard Catamarans, conceived to succeed the award-winning Leopard 48 and to broaden the appeal of a proven platform. Buyers can choose between two distinct exterior configurations: the timeless continuous hard-top of the Leopard 50P, or, for the first time on a Leopard catamaran of this size, the Leopard 50L with a thoughtfully integrated flybridge. The Leopard 50L transforms outdoor living with a flybridge appointed with a comfortable lounge, a dining table, a generous sunbed and the option of exterior speakers and a shade awning, all accessed by elegant floating stairs that rise from the aft cockpit. Under sail the 50L remains effortless and secure, thanks to generous headroom that keeps guests clear of boom interference while preserving a clear line of communication between flybridge and helm, a defining feature of every Leopard catamaran. For purists who prefer an unobstructed deck profile, the Leopard 50P forgoes the flybridge to deliver sharper performance, especially when specified with the optional square-top mainsail and the range of performance-oriented rigging and sail choices. Across both versions the exterior styling has been comprehensively refreshed to impart a more sophisticated presence in the water, while the interior offers multiple layout configurations with four or five cabins and an extensive list of options to tailor the yacht to every cruising aspiration.

## Overview

---

Thoughtfully specified for extended cruising comfort and true autonomy, the Leopard 50's electrical and systems package equips the yacht for confident passagemaking with a shore power inlet, an onboard generator and a robust

inverter. The comprehensive electronics suite unites essential navigation and situational awareness tools, including depthsounder, radar, log-speedometer and radar detector, wind speed and direction instrumentation with repeaters, a navigation centre and plotter, GPS and compass, autopilot and VHF, complemented by entertainment and communication devices such as a TV, DVD player, radio and cockpit speakers to enhance life aboard. Interior systems and appliances are curated for effortless living and self-sufficiency, with a dishwasher, washing machine, oven, microwave oven, refrigerator and deep freezer, hot water and heating, air conditioning and an electric head, plus both electric and manual bilge pumps, a bow thruster, a fresh water maker, a sea water pump and a reliable battery charger. Deck equipment and safety features refine every moment on deck, from the warmth of a teak cockpit, cockpit shower and plush cushions to the convenience of a hydraulic gangway, radar reflector, tender, solar panel, liferaft, cockpit table and swimming ladder. Purposeful rigging and sail handling keep the yacht responsive and manageable, centring on a well-placed steering wheel assisted by an electric winch and a hydraulic winch, and a versatile sail plan that includes a furling mainsail, a gennaker cruising spinnaker and a furling genoa.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
