## OVERVIEW

---

Nestled in Marina del Rey, this 2021 Bavaria C50 Style—recently acquired in trade—presents itself in outstanding condition, where German engineering and meticulous craftsmanship inform every line. The modern monohull marries sleek aesthetics with spirited performance and refined comfort, arranged in a spacious 3-cabin, 3-head configuration that accommodates extended cruising in absolute style. Sunlight fills the bright, airy interior, which opens naturally to an expansive cockpit designed for effortless entertaining, while a generous tender garage stows your dinghy securely and neatly out of the way. Equally at home as a refined coastal sailboat or a bluewater cruiser, she balances sportiness and long range ease for serious passagemaking. With just 140 hours on the engine, the yacht remains barely run-in; notable enhancements include added cockpit speakers for onboard ambiance, a furling Code 0 to amplify light air performance, and a custom dodger and bimini providing durable protection and shade. A recent survey is available on request, underscoring her turnkey readiness. Whether day sailing the California coastline, slipping over to Catalina, or venturing offshore, this performance cruiser offers a capable, luxurious platform. This is a rare opportunity to acquire a late model, well equipped cruising yacht at meaningful savings versus a new build—equally suited to family cruising or ocean going passage work. Inquire to request further details or to arrange a private showing of this exceptional sailing yacht.

## Key features

---

Powered by a Yanmar 80 HP diesel with a bronze folding propeller, this yacht is tuned for effortless pace and control with a UK Sails Code 0 furling spinnaker, an Elvstrom in mast furling main and a self tacking genoa. Navigation and situational awareness are seamless via the B&G electronics package with two Zeus chartplotters and AIS, while dual electric lifting cockpit tables and all electric Lewmar winches elevate both comfort and handling. Matching grey cockpit cushions set a refined tone around an electric lifting swim platform, and entertaining is a pleasure thanks to the stern plancha grill with a dedicated cockpit sink. Performance composite helm wheels in white pair beautifully with the German mainsheet system, and asymmetrical spinnaker gear with a fixed bowsprit invites exhilarating reaching in a wide wind range. Inside, the salon table converts to a berth for flexible accommodation, and protection on deck is assured by a custom Bimini and Dodger with Strataglass. And beyond these highlights, the boat includes lots of other features and upgrades throughout.

## Overview

---

A Selden mast and boom with an adjustable backstay form a powerful, easily tuned platform for the Elvstrom in mast furling mainsail in durable dacron and the Elvstrom self tacking dacron genoa. Downwind punch comes from the UK Sails furling Code 0 spinnaker, while optional side car tracks are already fitted for an overlapping genoa (sail not included). The renowned German mainsheet system delivers fine control, the asymmetrical spinnaker gear with a fixed sprit expands your reaching envelope, and four Lewmar electric winches keep every maneuver low effort and precise.

Ground tackle is effortless with a Lewmar electric windlass and a chain counter visible right at the helm, complemented by Lewmar size 40 manual helm winches and two Plastimo compasses—one at each wheel. The B&G electronics suite integrates two Zeus displays, VHF, AIS, and an autopilot with remote; a B&G VHF V60 at the chart table adds a wireless remote for the cockpit, and the B&G displays tie into the engine to show fuel burn, temperature, oil pressure, RPMs and more. White composite steering wheels feel crisp in hand, while real teak on the cockpit floor and swim platform adds warmth beneath matching grey cockpit cushions. Safety and convenience are enhanced by two lifeline gates, a Lewmar anchor with chain and rode, fenders and dock lines, and a custom dodger and bimini, plus a custom forward sun pad ahead of the dodger. Practical touches abound: a forward storage and sail locker with access to the anchor locker, a cockpit drawer fridge, a Magma propane grill on the stern pulpit, two propane tank lockers in the cockpit stern, a stern shower with hot and cold water, and a dinghy garage with an automatic air inflator for floatie toys or a tender. Outdoor entertaining is effortless with an exterior propane plancha grill and integrated sink.

The saloon welcomes with factory crème colored vinyl cushions, warm lighting, and a saloon table that converts into a berth for flexible sleeping arrangements. Storage is generous, including a large starboard side lazarette in place of the optional third cabin. Entertainment comes via an upgraded Fusion stereo with speakers in the salon and additional speakers in the cockpit, and an electric lifting television rises neatly in the salon. The galley is ready for extended cruising with a dual Isotherm drawer fridge unit, an Eno propane stove and oven with a hood vent, and a GE microwave. Below, a dedicated chart table desk supports proper passage planning, LED lighting runs throughout, blinds cover all windows, and three Jabsco electric toilets use freshwater flush for comfort and hygiene.

Propulsion is courtesy of a Yanmar 80 hp engine with sail drive and a flex o fold pro prop, with a Yanmar digital display also networked to the B&G

plotters for live engine readings. Ship's power is assured by a Fischer Panda 8000i generator showing 86 hours. Dockside precision comes from a Side Power variable speed tunnel bow thruster, climate control from four Dometic reverse cycle air conditioning units, and dry bilges from three electric/automatic bilge pumps. Electrical systems include a MasterVolt 12/2000 inverter and a PRO safe galvanic isolator for reliable, protected shore power connections.
