OVERVIEW

Launched in October 2022, Jolie epitomizes the ultimate in bluewater cruising, merging Outremer's esteemed craftsmanship with a remarkable design tailored for liveaboard sailors who prioritize safety, luxury, and exceptional performance. After two memorable seasons in the Mediterranean, her devoted owners are now presenting the chance for new caretakers to enjoy everything Jolie has to offer.

The Outremer 55 is hailed as one of the premier long-distance cruising catamarans ever crafted, and Jolie stands as a prime example. Her expansive open-plan saloon and cockpit form a magnificent living area, featuring genuine cork teak flooring for a lavish touch that stays cool in warm weather. Her sophisticated warm finishes, carbon enhancements, and natural hues make her perfect for both serious ocean voyages and leisurely coastal cruising.

Below deck, the full owner's hull provides opulence and seclusion, while two spacious guest cabins to port are bathed in natural light. High-powered air-conditioning throughout ensures comfort in any season. Both the saloon and cockpit tables convert into additional berths, allowing up to eight guests to be accommodated in style.

Her performance is equally remarkable. A carbon mast and boom, a carbon-enhanced steering system by Jefa, and a robust Incidence sail collection—including two asymmetric spinnakers, a gennaker, and a storm sail—deliver exhilarating yet manageable sailing. Twin Volvo Penta D2-60 engines, highly efficient at just 2.3L/hour at cruising speed, and folding props complete the performance suite, supported by a lithium battery bank and 2,200W of solar power.

Expertly optimized for liveaboard living, Jolie features extensive storage, spacious forepeaks, electric winches, and dual B&G helm stations for complete control. Numerous owner enhancements, from carbon-reinforced sliding

doors to bespoke sun awnings, demonstrate meticulous attention to detail.

Jolie comes with premium linens, crockery, and a full inventory, ready for immediate cruising. Current leasing options may allow for a no-VAT transaction for non-European buyers.

Situated in the prestigious Porto Montenegro, the world's only Platinum-status marina, Jolie is available for immediate viewing.

DETAILED DESCRIPTION

Inventory

Introducing the magnificent vessel, Jolie, a stunning Outremer 55 catamaran crafted in October 2022. This exquisite yacht, registered in Sete, France, and currently lying in Porto Montenegro, Montenegro, is a testament to luxury and performance on the open seas. Designed by VPLP and built by Outremer Yachting, Jolie boasts a sleek GRP hull and a deck adorned with marine cork in both the cockpit and saloon, ensuring both durability and elegance.

Jolie's dimensions are impressive, with a length of 16.73 meters (54.89 feet), a beam of 8.30 meters (27.23 feet), and a draft of 1.36 meters (4.46 feet). The air height reaches 24.60 meters (80.71 feet), and the vessel displaces 14.54 tonnes. The catamaran is equipped with mini keels and features a VAT-paid status in France, with registration valid until October 27, 2032.

Powering this beauty are two Volvo Penta D2-60 engines, each delivering 60 horsepower. These engines, still under warranty until September 2025, have logged 1,530 hours on the port side and 1,528 hours on the starboard side. Fuel consumption is efficient at 2.3 liters per engine at 1,600 RPM, with a total fuel capacity of 600 liters distributed across two 300-liter tanks. The yacht can achieve a maximum speed of over 22 knots under sail and 9.5 knots on engines, with a comfortable cruising speed of 7.5 knots.

Jolie's accommodation is nothing short of luxurious, featuring three cabins, including one queen berth and two king berths. The saloon and cockpit offer generous head heights of 2.15 meters (7.05 feet) and over 2.20 meters (7.21 feet), respectively. The yacht is equipped with fitted blinds in the saloon and all cabins, ensuring privacy and comfort. The bathrooms are well-appointed with two showers and two electric heads with large bowls, complemented by two 77-liter holding tanks. Hot water is provided by three systems: an electric

boiler, engine, and Webasto.

The galley is a chef's dream, located up and featuring two front-load extra-large drawers for refrigeration and four large compartments that can function as a fridge or freezer. The Airlux stove offers three gas burners and one electric induction option, paired with a large-capacity Airlux gas oven. A large stainless steel Franke sink and a gas and smoke alarm in the saloon complete the galley setup.

Jolie is equipped with a comprehensive B&G electronics suite, including a depth sounder, log, autopilot, wind instruments, radar, chartplotter, AIS Auto ID system, GPS, and VHF. Entertainment is provided by a Fusion stereo, and communication is ensured with an Iridium Go and Marine Starlink installed on board.

The yacht's electrical system is robust, featuring three sets of two lithium 24v 6000Wh 220Ah batteries and a 100A charger. A Dessalator watermaker produces 100 liters per hour, and the vessel is fully set up for generator installation. Solar panels provide 2,200 watts of power, with 800 watts on davits and 1,400 watts on the bimini. Additional amenities include a 3.3 kg front-load washing machine, Frigomar air conditioning units, a Webasto diesel pulsed air central heater, a 3500w inverter, and 220v shore power with several adaptors and a surge circuit breaker.

Jolie's sail inventory is impressive, featuring a carbon mast with a carbon shield on the lower part, stainless steel standing rigging with Kevlar shrouds, and sails that are only two summers old. The Hydranet white mainsail spans 104 square meters, while the Hydranet Genoa, with UV protection, covers 64 square meters. The sail wardrobe also includes a Hydranet Gennaker, a storm sail, and two asymmetric spinnakers in red and yellow. Harken all-electric winches and a 185 square meter storm heavy weather spinnaker complete the setup. Safety is paramount on Jolie, with two manual and ten electric bilge pumps, an 8-person Plastimo life raft, six life jackets, a life ring, an EPIRB, flares, and

revised fire extinguishers. Ground tackle includes an Ultramarine 35 kg anchor, a 73-meter stainless steel chain, a 50-meter rope with a chain counter, a Fortress 16 kg spare anchor, and a Lewmar windlass with remote control at the wheel.

Deck gear and accessories are plentiful, with a Highfield 3400 tender featuring a Sunbrella fitted grey cover and a Honda 20 hp outboard with a sun cover. Carbon davits, a deck wash, a deck shower, a bimini with the Jefa system, and enclosures for summer and winter enhance the yacht's versatility. Mooring lines, fenders, a carbon folding gangway with a protection bag, and a freediver's kit with a compressor are also included.

In summary, Jolie is a remarkable catamaran that seamlessly blends luxury, performance, and safety. With its extensive inventory and meticulous attention to detail, this vessel is ready to embark on new adventures, offering an unparalleled yachting experience.
