## OVERVIEW

---

For the Y8, the successor to the inaugural YYacht, our design and development team collaborated with Surge Projects. The Mallorcan design studio, led by Javier Jaudenes, is renowned for its timelessly sophisticated designs and extensive expertise in crafting swift yachts.

Unlike its predecessor, the new Y8 boasts a broader stern, and with the mast positioned further aft, Javier Jaudenes highlights the impressive speed potential of this design: "A wealth of R&D insights from previous projects has been integrated into the Y8. It embodies our experience, promising both speed and safety in all conditions. The new Y8 is a joy to sail. I would call her a yacht that brings happiness."

Naturally, the new Y8 includes the innovative features that YYachts are known for, such as the transverse garage at the stern, a self-tacking jib, dedicated crew access in the cockpit, and a sleek deckhouse with strategically placed windows to minimize heat buildup.

Moreover, the yacht's interior space is 20% larger than that of her predecessors like "Cool Breeze," "Makai," or "Vegas Baby," offering a variety of layout possibilities. By relocating the engine room beneath the saloon floor, the yacht achieves a lower center of gravity, enhancing balance and contributing to additional speed.

If you're considering a yacht for sale, the Y8 is an exceptional choice. With its current boat location offering prime opportunities for yacht sales, now is the perfect time to buy a yacht that combines luxury, performance, and innovation.
