OVERVIEW

The S/Y SPIRIT OF VENICE is a finely appointed classic yacht, steeped in a proud Dutch lineage. Built in 2018, she is fashioned with an aluminum hull and realized under the attentive direction of designer Olivier Van Meer, who oversaw the project from concept to completion.

Aboard the SPIRIT OF VENICE, comfort is married to cutting edge marine technology and executed to the loftiest construction standards, creating a vessel that balances modern innovation with timeless style. Her sturdy aluminum hull has been engineered to resist floating debris, while an inventive centerboard arrangement grants a minimum draft of 2.10 m and a maximum draft of 4.4 m, delivering both versatility and performance under sail.

This yacht stands out as a rare offering in her class and represents a compelling opportunity for discriminating buyers. VAT has been paid, an important advantage for purchasers, and she is offered from her current boat location, making her especially attractive to those contemplating acquisition in that area. If you are considering to buy a yacht, this vessel is a must-see.
