Water Capacity: 60 Gallons

Fuel Capacity: 300 Gallons

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Cummins

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Introduction

WOW!!! What a boat! If you've never ridden in a Glacier Bay Power Cat, you are in for a great surprise. This is most likely the smoothest ride you are going to find in any boat of this size. Couple that with a terrific layout, all the equipment you need and a boat that has received excellent care and maintenance from its experienced Owner and you have a ready to go package of fun just waiting for its next trip !!!

Vessel Walkthrough

Boarding is easy from the swim platform aft. Inboard diesel engines mean no outboards in the way when boarding, swimming or fishing. Walk thru the transom door to the large cockpit area where you will find a terrific bait prep station and bait well with windows... no need to get on your hands and knees to access this bait well. A step up and you are in the fully enclosed and air conditioned helm / lounge area with all the navigation, entertainment and communication equipment, a dinette that becomes a single berth and overhead storage/ rod storage. From here you can go down into the port hull where the head and shower is aft and the master double berth is forward. Entering down into the starboard hull, we have the galley aft and the guest cabin forward.

Galley

- 2 Nova Kool fridge-freezers, side by side
- Force 10 2 burner stove top
- Sharp Grill2, convection microwave
- Hot & cold pressure water
- Stainless sink
- More than ample cabinet space
