*Overall Measured Length: 36'11" including pulpit.*

- Windy are a product of traditional craftsmanship, enhanced with the aid of modern technology for improved performance, greater strength and reduced noise throughout the vessel.
- The hull is reinforced with advanced multi axial glass-fibre matting and Divinycell. This allows a reduction in the boats weight of up to 20% whilst offering noticeably improved stability.
- All the Windy models are CE-labelled. This means that Windy meets all the requirements laid down for quality control documentation and product liability within the EU. In the process of obtaining approval, the company has also introduced new methodologies construction principals and more advanced construction production equipment, resulting in more cost-effective and quality oriented processes in-house. But above all, Windy is a "Boat Builder" and not a manufacturer of boats, a philosophy, which characterizes their production staff and all those within their distribution network.

## Broker's Comments

---

It is truly rare to find a 37 like this. This boat has been wintered ashore between October and May each year, with one owner from new and the hours are genuine!

The interior is classic Windy – with a darker wood (not polished high gloss) and beautiful touches like the basket-weave trim in the amidships cabin.
