Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Accommodations

State-of-the-art design and comfort. Utmost elegance and maximum performance. The absolute top in innovation and safety.

The Azimut 72S is the latest revolution in sports yachts the embodiment of the perfect balance of sportive lines and elegance. The slender aerodynamic and agile lines draw a unique profile and together create an incredibly large upper deck providing a superior level of comfort.

A flybridge on a sport boat is a breakthrough and a revolutionary concept. A sport-fly of almost 20 square metres is an innovation that gives rise to a new class of models and creates a milestone in the evolution of the S Collection, already defined by the opening hardtop and by new style concepts such as the square hull windows. The flybridge includes a chaise lounge area in the bow section a cocktail dining area and a futuristic sun bathing area.

Innovation and comfort fuse in the cockpit to offer guests unforgettable experiences: the C-Shaped sofa with lateral sections that create a chaise lounge effect merges with a central section to form a large sun deck area. The central structure can be transformed into a table and together with a sofa that creates a comfortable dining area. Furniture and service equipment such as a mini bar and the barbecue are hidden from sight, perfectly enveloped by the structure's volumes. This avoids creating barriers between the interior and the exterior when the saloon door is completely open.

The abundantly lit saloon dominated by the crystal hardtop, showcases perfect harmony between comfort and sportiness that is the result of a combination of clean lines, functional layout and the use of materials of unusual beauty. The saloon furnished with dark woods creates novel contrasts with light colored lacquers. The leather upholstery contrasts with the cognac colored side panels and the light of buffalo effect leather on the horizontal surfaces. The horizon is visible from any point in the saloon, framed by the lines of the bulwarks.

The owner's cabin at the center of the boat is full beam and full height. It offers sea views through the typical 6 square windows that cast light onto the dinette with a vanity area. The suite is dominated by contrasts between light and dark colors used for the furnishings and leather. Pearly hues distinguish the cushions and other furnishings.

Large horizontal windows for the VIP cabin in the bow section. Central positioned bed with ample storage room.

Class A-Approved, the Azimut 72S is the result of the use of carbon-glass throughout most of the structure a technique that makes the yacht even lighter and stronger as well as ideal to accommodate its 1800hp MAN Engines. Guest safety is encoded in the yacht's DNA with extra high safety handrails found everywhere, designed with children's maximum safety in mind.

Cabins
