## Overview

---

So you think you cannot have both a racer and fun cruising yacht?

You may think differently after you step aboard the 36-foot C&C 110, a two-cabin racer/cruiser that has the speed to start a buzz back at the yacht club and the below-deck amenities to please your family or cruising spouse. The racing speed comes from the finely-tuned CandC design recipe. The cruising interior comes from the inventive use of angled bulkheads and double-duty functionality that makes the most of cabin space.

The CandC 110 has not only a tall masthead rig for plenty of horsepower, but keel configurations with a markedly low center of gravity (the 6-foot, 6-inch Performance Bulb or 4-foot, 10-inch Shoal Draft, your choice) that bring the vertical center of gravity right down to the designed waterline for extraordinary stability and sail-carrying ability. Add a balanced spade rudder with NASA high-lift, low-drag sections, and a trim, low-wetted-surface hullform, and you've got speed with control. Whether you're racing or cruising the CandC 110 using a conventional spinnaker, or the optional asymmetrical on a retractable carbon-pole bowsprit, you'll get where you want to go quickly and in enviable style.

Yacht Sales Professionals committed to "Excellence with Integrity".

## Manufacturer Provided Description

---

So you think you need a 40-footer to be happy? You may think differently after you step aboard the 36-foot CandC 110, a two-cabin racer/cruiser that has the speed to start a buzz back at the yacht club and the below-deck amenities to please your family or cruising spouse. The racing speed comes from the finely-tuned CandC design recipe. The cruising interior comes from the inventive use of angled bulkheads and double-duty functionality that makes the most of cabin space.

The CandC 110 has not only a tall masthead rig for plenty of horsepower, but keel configurations with a markedly low center of gravity (the 6-foot, 6-inch Performance Bulb or 4-foot, 10-inch Shoal Draft, your choice) that bring the vertical center of gravity right down to the designed waterline for extraordinary stability and sail-carrying ability. Add a balanced spade rudder with NASA high-lift, low-drag sections, and a trim, low-wetted-surface hullform, and you've got speed with control. Whether you're racing or cruising the CandC 110 using a conventional spinnaker, or the optional asymmetrical on a retractable carbon-pole bowsprit, you'll get where you want to go quickly and in enviable style.
