## Overview

---

An attractive blend of legendary style, sophisticated simplicity and versatility that is solitary in her class.

NISI seamlessly unites the lines of the past with the shape of the future. She's capable of turning heads everywhere she goes. She's an instant modern classic that exudes charm. Beneath the surface, she's fully kitted out with today's state of the art technology, combining outstanding performance and handling with luxury and comfort.

Her plumb bow, stainless steel stanchions and life lines, and her observation deck atop a covered wheelhouse cloak 21st century engineering: a wave-piercing hull, pod propulsion, stabilizers and a cutting-edge Skyhook, an innovative station-keeping function that is the first of its kind in the recreational marine industry.

NISI defines superior refinement. You don't settle for less

**Hull Material:** Kevlar Composite

---

## Engine Information

---

**Engines:** 2

**Manufacturer:** Caterpillar

**Model:** CAT C-18, (2,200hp)

**Engine Type:** Inboard

**Fuel Type:** Diesel

---

# DETAILED INFORMATION

---

## NISI Style

---

### Aggressive axe bow and the sexy interior puts her in a league all her own

- The only non-megayacht in the world capable to be built for commercial class, RINA Charter and MCA Commercial
- Pods Drives, two helm stations & docking control aft
- All metal piping, Italian hardware, extreme sound dampening materials
- Control just about everything on your boat from your iPad/iPhone... breakers, fuel transfer, entertainment
- Rooted in classic Americana by famous designed Ward Setzer N.A.
- Infuses casual opulence with legendary styling

*Note: all NISI yachts are build and certified to RINA Yacht Class. Commercial RINA + MCA class optional.*

## Built to Class (RINA / MCA)

---

### NISI utilizes high tech innovation to achieve go-anywhere classification normally reserved for megayacht sizes...

What does this mean?

Imagine window panes so thick that they add tons of weight to your boat then adding another ton of sound insulation and fire retardant material. Then add more weight through a robust electrical system that intelligently manages power for you. Keep going into the all piping plumbing system and the result is a heavy boat that will push water and burn loads of fuel.

But NISI does not perform this way. Why? Extensive use of coring materials, carbon fiber, honeycomb granite and other ingenious construction techniques that compensated for the added demands of building to Class.

*Note that all NISI yachts are built and certified to RINA Yacht Class. Commercial RINA + MCA class optional.*

---

## Performance, Efficiency & Propulsion

---

### Performance, standard engine option:

Top Speed: 30+kt\*

High-Speed Cruise: 25kt

Range: 1,750nm @ 9kt passage making speeds

### Fuel Efficiency:

9kt @ 6.5 gph/24 lph

20kt @ 67 gph/254 lph

### Propulsion:

2 x CAT C-18, ZF4000 Pods (2,200hp)

---
