# DETAILED INFORMATION

---

## VESSEL DESCRIPTION

---

This vessel was built by her **original owner** with many custom features, including bar in the salon, extended hardtop, upgraded 318 stainless, intercom system, etc. She has been well-cared for throughout her life and shows in **outstanding condition!**

Powered by twin 450 Cummins "Diamond Series" diesels with **low hours**, "Britannia" is ready to provide her new owners with trouble-free service. Whether at the dock, underway or at anchor, electrical power is provided by 50 amp shore power, a Westerbeke 11kw generator, 2500 watt Invertor and 6 batteries. Her shallow draft is perfect for the Bahamas or the Keys and the low center of gravity provides an incredibly smooth ride, even in tough conditions.

The spacious and bright lower deck has two staterooms, two heads, galley, salon, bar and dining area, as well as a lower station - all on one level with lots of headroom! The upper deck is huge and boasts a helm station with retractable electronics panel, jenn-air grille, wet bar, icemaker, wrap around seating and full hardtop with isinglass and EZ2CY. The "walk-out" aft deck provides easy boarding and water access via a convenient swim ladder.

Whether you are interested in a great liveaboard, a floating vacation home or a comfortable cruising vessel to make the Great Circle trip, travel the ICW or relax in the Bahamas or the Keys - **THIS IS THE ONE!!**

*Health condition forces sale...*

---

## MANUFACTURER PROVIDED DESCRIPTION

---

The Bluewater 5200 is easy to handle for the boating couple, or even the single skipper. The upper deck control area is spacious and can also be outfitted with a full-length fiberglass hardtop. The lower-level bridge area is the perfect place from which to captain when the party is below

deck or in the rain. The floor plan, decor, electronics and more can be individually customized. Like all Bluewaters, the 5200 can go in as little as 23 inches of water, running gear protected in recessed pockets above the keel line. It has the lowest center of gravity in the industry and is constructed of aircraft composites like Kevlar and Klegecell.

## ELECTRONICS

---
