SPECIFICATIONS

Overview

At the nautics trade fair in Düsseldorf the Salona 37 was declared European ship of the year in the category of sailers till 12m in 2007 and also ship of the year 2007 according to the choice of the magazine Sailing World in the category Cruiser/Racer. The Salona 37 adheres to the idea of recognisable forerunners. The board with its big cockpit, a removable stern thwart and an anchoring system provided with high-quality board equipment allows excellent pleasure in sailing. There are three different interior designs which offer the possibility of choosing among specific needs. An optimized structure of the ship allows maximal firmness and minimal weight at the same time. In other words, all stresses and strains of the keel and the steel ropes are directly taken over by the inox structure which is integrated in the ship's bottom and sides. Such a concept allows excellent sailing performances together with high comfort and the functionality of the interior.
