Brokers Comments:

A truly evergreen and highly versatile cruiser from the fabled Windy shed. 'TEMPEST' has 315HP Yanmars – which have smooth 6-cylinder cruising performance, and a full inventory.

She has recently had a major refit, with replacement of seacocks for the toilet system and main raw water strainers, a full cut, polish and valet, another items include in this inventory (shower& wc pump, canopy, etc.). A full epoxy treatment was carried out in early 2012, with new antifouling to follow, engines/outdrives were serviced, with new anodes, alternators and battery charger installed.

Her beautifully-finished interior woodwork is in fine shape, and her exterior gel is bright and will resist fade (since she has the white livery).

Construction:

Windy are a product of traditional craftsmanship, enhanced with the aid of modern technology. The latest technological innovation is the Wintec hull concept, which gives improved performance, greater strength and reduced noise throughout the vessel.

The hull is reinforced with advanced multi axial glass fibre matting and Divinycell core. This allows a reduction in the boats weight of up to 20% whilst offering noticeably improved stability.

All the Windy models are CE-labelled. This means that Windy meets all the requirements laid down for quality control documentation and product liability within the EU. In the process of obtaining approval, the company has also introduced new methodologies, construction principles and more advanced construction production equipment, resulting in more cost – effective and quality oriented processes in – house. But above all, Windy is a “Boat Builder” and not a manufacturer of boats, a philosophy, which characterizes their production staff and all those within their distribution network.

Construction details:

- The hull and deck are white GRP, cockpit and bathing platform are teak laid
- Cherry interior joinery with blue/gold fabric cabin upholstery
- Cream carpeted interior floors

- Blue Windy Sunbrella cockpit upholstery
