

## ELIELLE — MCMULLEN & WING

**Builder:** MCMULLEN & WING

**Year Built:** 2005

**Model:** Motor Yacht

**Price:** PRICE ON APPLICATION

**Location:** United States

**LOA:** 84' 0" (25.60m)

**Beam:** 21' 5" (6.53m)

**Max Draft:** 3' 9" (1.14m)

**Cruise Speed:** 33 Kts. (38 MPH)

**Max Speed:** 39 Kts. (45 MPH)

Our experienced yacht broker, Andrey Shestakov, will help you choose and buy a yacht that best suits your needs **ELIELLE — MCMULLEN & WING** from our catalogue. Presently, at Shestakov Yacht Sales Inc., we have a wide variety of yachts available on our sale's list. We also work in close contact with all the big yacht manufacturers from all over the world.

If you would like to buy a yacht **ELIELLE — MCMULLEN & WING** or would like help answering any questions concerning purchasing, selling or chartering a yacht, please call **+1(954)274-4435**

# SPECIFICATIONS

---

## Overview

---

ELIELLE was built by the highly acclaimed New Zealand yard to a very specific design spec. The yard is noted for superior quality and specialized projects. Each build is generally constructed without regard to budget constraints. It is reported that Elielle (Jariya) had a 7Mil plus delivery price. Only a close inspection will reveal how detailed the design was carried out. She sleeps six in the owner's party in three staterooms, each with an ensuite bathroom. ELIELLE is a perfect commuter tender for a mega yacht. Her draft and speed also allow for covering many island anchorages on long weekends.

## Basic Information

---

**Category:** Motor Yacht

**Model Year:** 2005

**Year Built:** 2005

**Refit Year:** 2012

**Country:** United States

## Dimensions

---

**LOA:** 84' 0" (25.60m)

**Beam:** 21' 5" (6.53m)

**Max Draft:** 3' 9" (1.14m)

**MFG Length:** 84' 0" (25.60m)

## Speed, Capacities and Weight

---

**Cruise Speed:** 33 Kts. (38 MPH)

**Cruise Speed RPM:** 2200 Kts.

**Max Speed:** 39 Kts. (45 MPH)

**Max Speed RPM:** 2350 Kts.

**Displacement:** 110000 Pounds

**Water Capacity:** 500 Gallons

**Fuel Capacity:** 1770 Gallons

# DETAILED INFORMATION

---

## Comments

---

After owning many of the normal production type express sport cruisers, **ELIELLE** owner came to the point in his yachting career where he wanted more than any of them could offer; in terms of speed, quality, luxury detail, engineering precision and pedigree, they all fell far short. So, in designing and building his own yacht, for styling and performance coupled with fast speeds he chose Michael Peters who has a proven record in this area. For the interior he chose the critical eye of Jan Carlos Espinosa. For quality and simplicity of engineering he chose McMullen and Wing in New Zealand to build **ELIELLE**. **ELIELLE** is a unique yacht that looks fast and acts the part with speeds near 40 knots. The detail everywhere is incredible, and the finishes are better than any comparable yacht. Some of the well thought out design features are outlined below and were purposefully added because her peers lacked such detail. **ELIELLE** has full walk around side decks, flush from the aft deck to the bow that do not affect the profile yet add an added degree of safety for children or an owner who wishes to handle the yacht himself. No more climbing over seats and hanging onto wobbly side deck rails! An aft tender garage houses an Aquascan Custom Jet tender which is easily launched with a custom designed knuckle boom crane. The swim platform is wide and generous and is not disrupted when the door is open in the up position, also providing a shaded lounging area. Engine room access is not down a steep ladder or through a tight hatch, but rather through a 6' pneumatic hatch and down a shallow stairway. Once in the engine room there is 6'3" headroom and incredible access around all machinery. An emergency escape is through the tender garage. The engine room is befitting a much larger yacht and the engineering within is superb. The propulsion choices from the MTU 16V2000 M91 2000 hp engines was either conventional propellers which would not give the performance required, Arnesons which have relatively poor handling characteristics, menacing propellers and high maintenance, or water jets which were ultimately chosen as the best option for speed, noise, vibration, tracking and most importantly handling. Rolls Royce Kamewa A56 water jets were chosen with the proprietary VectorStick Control and the built in "Interceptor" trim tab on the Kamewa aids in tracking. A bow and stern thruster, and the joystick control system at the main helm or outside from the starboard deck or from the aft deck portside station make docking a breeze with no blind spots. The propulsion choice was proven correct with top speeds in excess of 35 knots, and easy cruising near 30 knots in almost any sea condition. The joystick control system and the water jets inherent ability to maintain precise slow speed control has proven itself over and over again in reliable maneuverability in all situations. This is extremely important for an owner handling the yacht himself, and the simplicity and precision for this system is remarkable. Other niceties include an electro-hydraulic Opramare swim ladder built underneath the swim platform which can also be operated by someone in the water; a key concern for an owner operator; a single sea chest reduces drag and makes maintenance easier and small cameras built into the hull under the rubrails and at the bow give shorthanded operators a perfect view when docking alongside or approaching a mooring buoy. Adjacent to each mooring cleat recess are lockers for the lines, and forward either side of the expansive foredeck sun pad are expansive storage lockers for fenders and lines. A forward seat on the

foredeck hinges up with anchor windlass and chain locker access under.

---

## Accommodations

---

**ELIELLE** sleeps six in the owner's party in three staterooms, each with an en-suite bathroom. Headroom in the main deck salon is 6' 8" to 7' 4". It is 7' 4" in the lower salon and 6' 8" in the staterooms. **ADDED: Juan Carlos Espinosa, who designed the interior, has also made a proposal for adding a private crew cabin with a head on the outboard side of the lower salon, retaining the lower salon largely as it exists now, albeit smaller.** The interior, designed by Juan Carlos Espinosa, is beautifully finished and superbly detailed throughout. Below decks the staterooms and lower salon and galley area are finished in Sapelli mahogany with judicious use of leathers and fabrics, and white onyx in all the bathrooms. On deck **ELIELLE** is finished with white or metallic silver lacquer in some areas, mixed with satin finished close grained teak for the table and adjacent cabinetry and lather covers the helm station and helm settees.

---

## Main Deck

---

The main deck salon is really the social center of the yacht, and was designed to be functionally an indoor/outdoor space to both embrace the elements when agreeable and provide complete protection when not. The dominant features of the main deck salon are natural light and air. In addition to the forward windshield with only a single centerline mullion, the deck house is lit up through full-length glass windows port and starboard (one piece) and a pair of electrically actuated semi-circular glass doors at the aft end of the salon. To provide fresh air when the weather allows, the forward sections of the side windows port and starboard drop down automotive style, and an 8'6" X 9'6" sunroof over the helm and salon slides aft to let in the sunshine. With everything opened up, the salon has a truly outdoor feel to it, while providing ample protection from sun and wind. Even at 40 knots with the sunroof open there is no wind penetration into the main salon – a testament to the aerodynamic styling of this yacht. The helm seat accommodates two to starboard with a matching seat to port. The simple but comprehensive instrument layout is centered in front of the helm, while the ships main switch panel and other local controls are located within easy reach of the port seat but hidden behind leather upholstered panels to keep the area clean and uncluttered. Short-handed or even single handed operation is aided by the opening side windows which allow the helmsman direct communication with those on deck or dockside. The opening windows also eliminated the need for a forward wing station as the helm, joy stick and bow and stern thruster controls are within easy reach through the window while standing on deck! A door on the starboard side gives deck access from within the salon. Aft of the helm and companion seating a large U-shaped settee is to starboard surrounding an electric hi lo teak table. This area is raised one step to maximize the view through the full length side windows and rear salon doors. Opposite the settee on the port side is a full service bar surrounded by ample counter space, sink, refrigerator, a dishwasher and storage cabinets. A plasma TV raises from a port side aft cabinet, matched on the starboard side. On the aft deck there is a semi-elliptical settee and hi lo table facing forward, which

accommodates 6-8 people and communicates directly with the salon when the doors are open. A remote control station is aft to port, hidden in a deck locker.

## Below Deck

The cozy lower salon and galley area amidships has a sitting area to port with a sofa and two built in arm chairs surrounding a coffee table. The galley is to starboard with cook top and appliances unobtrusively built into cabinets below a longitudinal countertop. An entertainment center effectively separates the two areas and provides wall space for the TV to be viewed by everyone in the seating area. Both areas are bathed in natural light courtesy of the tinted glass dead lights in the hull sides. The below deck areas can be closed off from the more informal deck salon by an electric hatch, keeping the interior air conditioned but the salon area naturally ventilated. Without the need for crew or the desire for an excessive number of guests **ELIELLE** has a delightful spacious master stateroom forward with queen berth and adjoin onyx bathroom with over-sized shower forward. Aft of the lower salon and down two steps past the laundry room in the curving hallway with circular foyer at the end are two additional guest suites. They are well separated from the main salon area forward. To port is a twin berth stateroom with excellent space due to the beam of **ELIELLE**. An en suite bathroom is forward with over-sized shower. Opposite to starboard is a queen berth stateroom. This stateroom has its bathroom forward, again with over-sized shower and access through the second door to the foyer, making it also the day bathroom. The engine room is aft of the guest area and the tender garage is further aft.

## Galley/Laundry

### Upper Galley

- U-Line 2-drawer refrigerator
- Scotsman icemaker
- Fisher and Paykel dishwasher
- KitchenAid trash compactor

### Laundry

- Miele washer and dryer

### Main Galley

- GE Advantium convection and microwave oven
- Kenyon 4- burner flat glass cook top
- Subzero 700 full size refrigerator with sea locks
- Subzero 2-drawer freezer with sea locks
- Fisher and Paykel dishwasher

## Navigational Equipment

- Simrad AP 50 receiving GPS from Navnet autopilot
- Furuno Smart thru Navnet depth sounder
- (2) VEI 18" display monitors
- Furuno GP320B thru Navnet DGPS
- Nobletec with Garmin GPS C-Map for the

- Furuno 6kw thru Navnet radar
- Navnet electronic charts

## Communication Equipment

---

- Simrad RS87 VHF
- Ericsson cellular
- Uniden DDS2485 telephone system

## Entertainment Equipment

---

Seatel 2498S Sat TV, updated hardware & software, 9/2010

### Salon

- Gateway 42" HDTV Plasma Screen TV
- Alpine amplifier, Pronto remote and docking station
- Alpine DVD/CD/AM/FM radio
- Provides music for main salon, aft deck, bow and garage

### Lower Salon

- Gateway 42" HDTV Plasma Screen TV
- Alpine amplifier, Pronto remote and docking station
- Alpine DVD/CD/AM/FM radio
- Provides music for owners cabin, port and starboard guest cabins and lower salon

## Deck Equipment

---

- Fenders
- Fender hooks
- Distress kit
- Adult life jackets
- Mooring lines
- Boat hook
- Air and water hoses
- Fire extinguishers

## Boarding Arrangements

---

- 100 amp single phase electrical plug in
- Benzoni passerelle
- Opramare swim ladder with above and below water activation

## Tender and Watersports Equipment

---

- Aquascan Custom Jet Tender 2010
- Custom folding knuckle with remote and extendable boom

## Mechanical Equipment

---

- (1) Northern Lights generator 25 kw M864K @ 1800 rpm
- American Bow Thruster TRAC 12" 32 hp dual prop with proportional control
- American Stern Thruster TRAC 12" 32 hp dual prop with proportional control
- Integrated hydraulics
- 120/240v AC, 60 hz, single phase
- 100 amp single phase shore cord
- 100' cable by a Glendinning retrieval, system operated manually and by RF remote
- Dometic ice
- Compressed air operates the following pneumatically: Engine room hatch, Engine room fire dampers, forward deck locks, compressed air outlets on foredeck, lazarette, engine room and garage. Also operates drop down windows, pantograph door, Buell horns and sliding hatch from upper to lower salon.
- All Copper Nickel (CuNi) seawater piping
- Cruiseair Tempered water with 2 X 3 ton chillers and 8 air handlers
- Techma Ceramic fresh water pump
- Sea Recovery watermaker with auto flush, 400 gallon/day

chipper, 550  
lb./day

---

## Safety Equipment

---

- Engine room Kidde FM200
- Smoke and heat sensors throughout
- Selco M3000 analogue annunciator alarm with 24 inputs and 14 outputs
- V-Cool salon window treatments, 2010
- ACR RCL100D
- Buell Signaling
- Port and starboard rub rails, bow and stern

---

## Features

---

- Maxwell VWCLP 4000 vertical hydraulic anchor winch
- 40 kg Manson Marine polished stainless steel Bruce style anchor
- 330' hi test 10mm galvanized stainless steel chain
- (2) Maxwell VC2200 vertical 24v DC capstans

---

## Exclusions

---

A detailed list of exclusions and an inventory will be provided pursuant to a purchase agreement. The name **ELIELLE** is reserved and must be changed.

All speeds, capacities, consumption, hours, measurements, etc. are approximate or estimated. Specifications provided for information only as particulars herein obtained are from sources available but are not guaranteed. Remarks and other statements may be personal opinions and may not be relied upon for purchase. Buyer should instruct his/her agent/supervisor to check all details for accuracy. Offered subject to prior sale, price/inventory change, or withdrawal from market without notice.

---

## Broker Remarks

---

**ELIELLE** is as described in her design, performance and care. She was painted by Rybovich in July of 2011 and had very few blisters, a testament to her original build paint and excellent care. Several system upgrades have been performed and she is in turn key condition. This is a special boat whose build quality is head and shoulders above comparative styled builds

currently offered.

## **Exclusions**

---

Owner's personal belongings.

## **Disclaimer**

---

The Company offers the details of this vessel or yacht in good faith but cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel. A buyer should instruct his representatives, agents, or his surveyors, to investigate such details as the buyer desires validated. This vessel or yacht is offered subject to prior sale, price change, or withdrawal without notice.
