Crew Cabin: 1

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: MAN

Model: V12

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Key Features

This 2010 Flybridge only has 30 hrs on the main engines!

The Austin Parker 72 is the top of the range that recalls the classic "Down East" style in a yacht that is 72' feet in length!

The well-balanced and attractive lines incorporate the Fly Bridge with an elegance that conceals its size; yet it accommodates not only a double helm seat but also a wraparound sofa that can seat four and a large Sun Deck. The Cockpit is also exceptionally spacious, with a large dining table that seats eight guests.

The mast is a distinctive feature of the Austin Parker 72 - it contains the antennas and radar instead of the usual radar arch.

A large forward-facing sofa on the Bow and Sun Deck provides comfortable seating. The 72' cruises along at 30 knots and reaches a top speed of 34 knots.

The interior is what one would expect of such a fine yacht and of this size and has a fully equipped helm with a double seat, a villa-style salon with every convenience, a well-equipped Galley and four double cabins, all en-suite. Interior hard wood can be either a bleached or dark oak, providing an attractive design scheme.

Accommodation for two crew is located in the stern, and the Engine Room (protected by an airtight door) is a technological gem, equipped and designed to simplify inspections and maintenance.

Cockpit

Teak deck

Boat hook Fiberglass stairs to fly bridge Stern settee Stern safety door Hatch to engine compartment 1 x warp winch 24V and fairlead lines Emergency manual bilge pump Shower with hot/cold water 220 V shore power cord Hatch to crew cabin Foldout electro-hydraulic gangway
