Engine Type: Inboard

DETAILED INFORMATION

Specs

Specs

Accommodations The helm is well organized with comfortable seating and carpet throughout the cockpit. There is a wet bar for entertaining on the starboard side. It features a countertop workspace with sink above two cabinets, home to bottle storage and a refrigerator with ice maker.

The engine access is through a motorized hatch and down a removable ladder, which makes routine checks and maintenance a much simpler task when working around the twin engine setup. The generator is mounted in the back of the spaces allowing for easy maintenance. Heading below deck you enter through the main salon enhanced by cherry wood cabinetry. The galley is positioned to port and includes a microwave with convection oven, electric three-burner stove and electric refrigerator/freezer. Moving forward is the guest quarters. The head is to port with entry from either the main salon or from the guest quarters. The beds can be arranged as single upper and lower bunks or rolled out into a double berth. The owner's cabin has an island bed and two hanging closets. The en-suite head has a VacuFlush toilet, countertop with sink and separate shower compartment. **Key Features**
