Engine Type: Inboard

DETAILED INFORMATION

Accommodations

As you enter from the companionway, the galley is located to port with a full head to starboard. Forward is a large V-berth for two with storage underneath. The teak and holly sole throughout the floor space is complimented with teak cabinetry and workmanship.

The outside seating and cockpit area features a helm with seating for two to starboard, guest seating for two to port, a breathtaking cold molded wood windshield that embraces an era gone. Over head hardtop with lighting and a removable Isin Glass enclosure for rainy or cold days with a driving station above on the Pipe Welders half tower. The custom engine box covers open to produce an abundance of room to please anyone performing maintenance while further acting as extra large sun pad covers for guest leisure and catching rays.

The cockpit has an abundance of usable space to entertain or fish. With teak coming wrapped around, integrated rod holders, hot and cold water, salt water wash down, rocket launchers above on the half tower, and hideaway rod and rope lockers. Dixie can catch a fish or two.

- Locking door

Designer Remarks

From the Designer, Bruce King: “A yacht must be beautiful: a work of high art as well as high technology. A joy forever, a lovely vessel inspires deep feelings of pleasure, affirmation, and affection. She commands the loyalty and esteem that lead successive generations of owners to maintain and renew her perpetually, conferring a touch of immortality on her original patron, with whom she will be forever associated. In yachts, surely, grace is the primary virtue”.

Broker Remarks

For nearly two centuries and possibly the longest history of a family of boat builders in the USA, Hodgdon Yachts has built 400 of the world’s best motor yachts, sailing yachts, and military craft for over five generations. From schooners in the 19th century to patrol craft in the 21st, Hodgdon has launched their vessels into the Damariscotta River from east Booth Bay’s Maine shore. Launched in 1990 Dixie was built for a 3rd generation yachtsman and commercial ship and service repair yard family. After many enjoyable years, they are ready to let her go. Featuring a vacuum bagged cold molded Bruce King deep-V hull design with an epoxy over wood superstructure, full galley, V-berth, large cockpit, sun beds over Yanmar engines, and half tower, Dixie’s design was to be a beautiful day cruiser able to fish. With the look and feel of absolute grace, and tradition, huge fishing cockpit, tumblehome hull, first class performance, and a tow eye providing capabilities of a yacht tender, Dixie can multitask. We invite you to meet Dixie to see if she better compliments your lifestyle and adds a new blend of beauty and entertainment for your family.

Exclusions

Owner's personal belongings.
