Overview

The MILLENNIUM GULF CRAFT is designed by Frank Mulder, the well-known international naval architect. The yacht's stylish and elegant lines are a reflection of the best in marine engineering. Frank Mulder said, "The friendly design coupled with the highest standards of engineering, safety, hi-speed and reliable long-range cruising, make the yacht a perfect balance of elegance and dependability which also packs an incredible amount of power and performance." The interior concepts, which offer the ultimate in luxury and comfort, have been designed by Evan Marshall. The **Millennium Yacht** encompasses four staterooms including a split-level master room with adequate dressing facilities and a whirlpool tub. The semi-raised pilothouse allows for a large fly bridge and a swimming platform. Evan Marshall has termed the interior, "a reflection of the new millennium as the design is an ideal blend of the classic and the modern. A fusion of several themes, the interior manages to capture the essence of the classical and merge it with the modern to create a picture of elegant functionality." He adds that, "The design has also been carefully selected to allow for customer preferences and leaves ample room for customization in accordance with individual preferences." NOT FOR SALE TO US RESIDENTS WHILE IN US WATERS

Basic Information

DETAILED INFORMATION

Introduction

The 2001 Millennium 118' Designed by Frank Mulder, the well-known international naval architect, the yacht's stylish and elegant lines are a reflection of the best in marine engineering. Frank Mulder said, "The friendly design coupled with the highest standards of engineering, safety, hi-speed and reliable long-range cruising, make the yacht a perfect balance of elegance and dependability which also packs an incredible amount of power and performance." The interior concepts which offer the ultimate in luxury and comfort have been designed by Evan Marshall. The 2001 Millennium 118' encompasses four staterooms including a split-level master room with adequate dressing facilities and a whirlpool tub. The semi-raised pilothouse allows for a large flying bridge and a swimming platform. Evan Marshall has termed the interior, "a reflection of the new millennium as the design is an ideal blend of the classic and the modern. A fusion of several themes, the interior manages to capture the essence of the classical and merge it with the modern to create a picture of elegant functionality." He adds that, "The design has also been carefully selected to allow for customer preferences and leaves ample room for customization in accordance with individual preferences."

Accommodations

Standard full-beam layout provides four staterooms in owner's and guests' party including a split-level master with full-width dressing room, whirlpool tub and separate shower, a full-beam VIP stateroom, a twin guest stateroom and a queen guest stateroom. Semi-raised pilothouse allows large flying bridge with the tender. Owner customization is anticipated and encouraged.

Amenities

Unique, electrically powered sliding wall panel allows both formal dining or informal open-plan country kitchen: full-service wet bars in salon and on flying bridge; hidden large screen Plasma TVs and home theater entertainment systems are available in the salon and master staterooms; all guest accommodations are equipped with separate stereos and televisions; teak aft deck and swim platform. A full suite of communications and navigation electronics installed by Radio Holland.

Construction

Hull, superstructure, mast, bulkheads and decks are construction of fiberglass on core

construction utilizing Core Cell foam and Glass Fiber and Polyester Resins.

Propulsion & Drive Systems

Powered by MTU 16V2000te90 main engines of 1826 hp at 2300 rpm

Only 1218 Hours

Conventional drive system utilizing ZF reduction gear (2.536: 1 reduction) transmissions Teignbridge 5 blade Nibral propellers, (46X41 "S" class) Teignbridge TMET 22 Stainless Steel Shafts (5") 67 hp Bow Thruster

Exhaust System

Main engine primary exhaust is underwater with low speed bypass at the water line
Generator exhausts are hull side near the water line with mufflers.

Electrical System

Primary input is 208V 3Phase Atlas converter accepts virtually any power World Wide and converts to ships standard Two 55kw Northern Lights Generator sets in sound shields De Kaiser electric control systems with: • Seamless transfer • Auto Paralleling of Generators based on demand • Distribution through sub-panels located throughout the yacht

Mechanical

Two primary Hydraulic pumps PTO mounted on generators

Silencers installed on primary pumps

Single electrical service pump

Hydraulic Bow Thruster: Naiad 67 HP

Muir Capstans (2 on foredeck)

Muir Windlasses on aft deck (2)

Tender Davit (1)

Tender bay lift system

Aft deck hatch lift system

Trim Tabs

Fuel System

Double bottom tanks (tanks integral to hull construction, penetration of a tank bottom is sealed from the yacht by the tank top) Day tank Centralized filling station on main deck Primary and backup electric transfer pumps Manual backup transfer pump Racor Filters. For main engines: R 2000. For generators: R 265

Fresh Water System

1550 gallon fresh water tank Water-makers: Two Matrix Silver reverse osmosis 1500gpd water makers (135 hrs) Two fresh water supply pumps: Headhunter M5 Two electric hot water heaters

Gray Water System

Gray water is non-sewage fresh water discharge Electric discharge pump (manually activated) 180 gal collection tank

Engine Room Ventilation

Axial flow inlet fan, 240v 3phase feeding port side air shaft Starboard Side Air Discharge Air Shaft Single stage water separating filter system Emergency stop located in fire system control panel Fire flaps in air shafts

Air Conditioning

Chilled water system by Marine Air 3 units, Hein Hoppman 288,000 BTU's Two raw water pumps for the chiller system Fresh air exchanger.

Life Raft & Safety Equipment

Two 8 man rafts in concealed Flybridge storage

Release overboard

Removable from bridge for service

Life Jackets, 20

First Aid Kit

EPIRB

Bottle type Fire Extinguishing System, FM200 Manual activation located in fire panel, crews passageway Automatic activation with delay, alarms, and warning lights Raw water fire fighting system

Ground Tackle

Muir Hydraulic Capstans, with devils claw

Super High Holding Power anchors (2) (approx 2751b)

All-Chain anchor rodes (1/2"x 325ft)

On deck remote control

Chain counter on bridge

Concealed anchor storage

Stainless Steel lined anchor pockets and guards

Boarding
