Interior Designer: Vripack International

Engine Information

Engines: 2

Manufacturer: Caterpillar

Model: C32 ACERT 559kW

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Accommodations

The layout of "STAR" was designed for the most comfortable and efficient long distance cruising. She features a 5 Staterooms accommodation plan. On the Main Deck, the Main Salon and Dining area are connected to the professional galley. Forward is the Owner's office which separates the Master Suite from the public areas offering complete privacy. On the Lower Deck there are 4 Guest Staterooms uniquely designed all with ensuite bathrooms, 2x VIP cabins and 2x Twin cabins each with extra Pullman bed. "STAR" thus accommodates a total of 12 Owners/Guests. "STAR" is designed for luxury without sacrificing comfort. The Sky Lounge on the Bridge Deck has butterfly doors which open full beam onto the large aft deck with dining table for 12 and seating aft, creating one large open space when needed. Stairs lead up to the Sun Deck which features a full size Jacuzzi, sun pads, open bar, grill and lounge area -these areas are perfect for entertaining and socializing. The crew accommodations are arranged to be most efficient to their work stations. The Captain cabin is located on the Bridge Deck adjacent to the Wheelhouse, while the Engineer's cabin is next to the Engine room. The Crew's quarters are located forward on the Lower Deck with a large lounge and galley with 3 crew cabins. The crews have their own entrance and stairs which ensure privacy for the Owners and Guests. 5 total crew cabins, accommodating 8 -10 crews. The large air conditioned Engine Room, rare on a yacht of this size, allows for ease of access and maintenance, especially important during long distance passages. The Control Room is located just forward of the Engine Room. From the Main Deck aft, stairs lead down to the large swimming platform.
