## Overview

---

A result of the cooperation between Advanced Yacht Technology of Ferretti group and Studio Zuccon International Project, the Ferretti 750 is a yacht with a strong personality, created for an Owner desiring spacious interiors where warm tones and precious materials predominate. It features an inclination for classical style but with elegant, contemporary stylistic touches, coming from a passionate technical and aesthetical research made by the shipyard to obtain a "manifesto" of made in Italy excellence, a master of elegance that cruises the sea. Wide sun-zones and the new hull-window design create spaces plunged in natural light.

The spacious interior layout is dressed in warm tones and elegant details – the use of beautiful, rich decapé walnut wood for example. The external spaces on the 750 enjoy a beamy bow sunbathing area, comfortable cockpit, spacious flybridge and large swim platform with a fold down bench seat. The saloon and dining area are open plan with a spacious and relaxing feel. Best of all, this model was ordered without the interior staircase which as a result opens up the space in the salon and gives you unblocked views of the ocean throughout every window. The functional galley has access to the dining area or to the outside deck. With the exterior door and skylight, the galley is easily vented. The main cabin has been designed to create a spacious and light feel. The ample main bathroom is separated from the cabin by a sliding door and has some unique design features.
