SPECIFICATIONS

Overview

Offshore cruisers, coastal cruisers and island hoppers looking for safety security and comfort in open water should take a long hard look at this boat. Bill Crealock who designed the Pacific Seacraft and a long list of serious cruisers designed the Westsail 42 to cruise around the world in comfort and to take the worst the sea had to offer. Even if you don't plan to sail around the world wouldn't you feel safe in a boat stronger than you are? This one doesn't look anything like a 1975. Everything has been redone! No exterior teak. Beautiful, durable Awlcraft paint shines. Clean lines above decks. Belowdecks has been totally redone in rich, modern teak and teak and holly sole. Everything is gorgeous, ready to go and solid as a rock. Specs Builder: Westsail Designer: Crealock Dimensions LOA: 42 ft 0 in Beam: 13 ft 0 in LWL: 33 ft 4 in Maximum Draft: 5 ft 8 in Bridge Clearance: 57 ft 4 in Engines Engine 1: Engine Brand: Perkins Engine Model: 4-154 Engine/Fuel Type: Diesel Engine Hours: 382

Accommodations, Cabin The entire interior has been redone in rich, varnished teak and teak and holly soles. There is nothing 1975 about the interior. The spacious saloon is open and airy. From the companionway a dinette is to starboard and the U shaped galley is to port. Forward of the galley and dinette a step down takes you into the saloon. Settees are on both sides with storage underneath and behind. Forward of the saloon is a completely redone head with separate shower. Further aft to starboard the walkthrough leads past the nav station to the aft stateroom. A beautiful teak seat unfolds to work at the nav station or folds against the bulkhead to pass through. The aft berth is a vee with 5" thick foam mattresses. In the aft stateroom just aft of the walkthrough is a bathroom sink. To port, just forward of the berth is the aft head. A door in the head allows entry into the engine room. The engine room is HUGE with its own opening portlight for light and ventilation. The large room allows access to the top, front, back, port side and starboard side of the engine as well as every part of the generator. A sliding door from the walkthrough improves access to some parts of the starboard side of the engine.

- **Custom handcrafted wood saloon dining table - NEW 8/2009!**
