SPECIFICATIONS

Overview

The G25 is the largest boat in our line with room for nineteen people and more storage than any boat of its kind. The increased size puts more hull surface in the water for a huge surf wave that is open, long, and clean along with the G-Series wakeboard wake that has forever changed the sport.

Basic Information

LOA: 25' 0" (7.62m)

Beam: 8' 6" (2.59m)

Max Draft: 2' 1" (0.63m)

Speed, Capacities and Weight

Displacement: 5900 Pounds

Fuel Capacity: 83 Gallons

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 1

Manufacturer: Crusader

Model: CWS 450 HP CES

Engine Type: Inboard

Fuel Type: Gas

DETAILED INFORMATION

Manufacturer Provided Description

The Nautique Configurable Running Surface (NCRS) fine-tunes the hull surface under any condition using the latest technology in our Nautique LINC system. With over 2,800 lbs. of sub-floor internal ballast, the G25 eliminates the need for additional weight offering maximum ballast with maximum storage and a world class wake. Every inch of this hull was designed to create a wake that will work for every level of riding, at any speed and line length. This allows you to set the boat up to the preferences of every rider in the boat without sacrificing a clean lip, long transitions, and solid pop.

The cutting-edge design doesn't stop at the water line. The styling and craftsmanship that has gone into designing the interior of this boat is like nothing that has come before it. From the ergonomics of the seats to the functionality of the seating configurations, every aspect of the fit and finish was designed with your perfect day on the water in mind.

Saltwater Protection for the Coastal Lifestyle

When your on water experience calls for navigating intercoastal waterways and letting the tide dictate your perfect session, Nautique's Coastal Edition package gives you the protection and versatility to bring world-class watersports performance to the conditions that come with the ocean breeze and coastal lifestyle.

Coastal Edition Performance and Styling

This Saltwater resistant package features a sealed steering cable, stainless steel steering tube with lubrication, zinc sacrificial anodes, stainless steel gas shocks, anodized aluminum structural components and a corrosion-resistant wiring harness. Get lost and found with the Nautique LINC systems GPS mapping and chart plotting capabilities as well as multiple displays for incredibly user-friendly navigation.

Crusader Watersports Series (CWS) Engine

All Coastal Edition Nautique boats feature a fully freshwater cooled Crusader Watersports Series (CWS) Engine equipped with high performance aluminum heads, and Crusader's exclusive HO exhaust system. A distributorless ignition with platinum tip spark plugs stretches maintenance intervals into years, along with stainless steel components on the legendary PCM mounting system. The bullet-proof components and hardware are designed with CWS SURE COAT protective coatings to successfully

withstand the rigors of saltwater use.
